

## **EXHIBIT 5**

OFFICE FOR DISPUTE RESOLUTION

DUE-PROCESS HEARING FOR

GEORGE WILLOUGHBY

Monday, April 26, 2010

VOLUME V

FILE 10264/08-09 LS

Transcript of Proceedings held before JAKE  
MCELLIGOTT, Special Education Hearing Officer, at  
Susquenita School District, 1725 Schoolhouse Road,  
Duncannon, Pennsylvania, commencing at 9:45 a.m.  
on the day and date above set forth.

Reporter: Rhonda K. Thorpe

HEARING OFFICER:

You've heard my instructions to other witnesses. I won't give those to you at length if you've heard them repeatedly, but just keep your voice up, use affirmative answers such as yes, no, correct, incorrect. If you don't know the answer to a question, let us know that so we can have it re-asked. And please try to avoid stepping on the attorney's words as they end their question when you begin to answer.

MS. BLAZI:

Okay.

HEARING OFFICER:

By extension, we will wait until your answer is complete until they move on to the next question. So bearing those things in mind, Mr. Clark will have questions for you first. We'll have you sworn in at this time.

REBECCA BLAZI, HAVING FIRST BEEN DULY SWORN, TESTIFIED AS FOLLOWS:

DIRECT EXAMINATION

BY ATTORNEY CLARK:

Q. Will you state your name for the record,

Page 1001

## PROCEEDINGS

HEARING OFFICER:

We are on the record for the fifth and final session in the case at 1026408-09, George Willoughby and the Susquenita School District. It's approximately 9:40 a.m. We are gathered in the School District, and we are going to hear from the remainder of the District's witnesses today.

Unless someone has something to put on the record at this time, we're ready for the first witness, Mr. Clark.

ATTORNEY CLARK:

Our first witness is Becky Blazi.

HEARING OFFICER:

Would you please say and spell your name for the record?

MS. BLAZI:

Sure. Rebecca Blazi, B-L-A-Z-I.

HEARING OFFICER:

And Ms. Blazi, have you been here for prior sessions?

MS. BLAZI:

Yes.

Page 1003

please?

A. Sure. Rebecca Blazi.

Q. I mispronounced your name at the very beginning, and I apologize for that.

A. That's okay.

Q. By whom are you employed?

A. I am technically self-employed. I am contracting with the company TherAbilities.

Q. And TherAbilities is providing services under contract to Susquenita School District?

A. Correct.

Q. How long have you been so engaged?

A. In Susquenita?

Q. Well, first of all, with TherAbilities?

A. With TherAbilities, I started in 2006.

Q. What is your educational background?

A. My B.S. is in speech/language pathology. I have a M.A. in communicative disorders. I hold the CCC, which stands for Certificate of Clinical Competence, which is issued through ASHA, which is the American Speech-Language-Hearing Association.

I also have my state license to practice speech pathology. And I hold a teacher's certificate for teacher of the speech and language impaired.

Q. The teacher certification you have through the

3 (Pages 1000 to 1003)

Page 1004

1 Department of Education?  
 2 A. Yes.  
 3 Q. And what certification areas do you hold a  
 4 certificate in?  
 5 A. It's a Level II Certificate, and the title is  
 6 speech and language impaired, so children with  
 7 speech, language and hearing impairments.  
 8 Q. And you also hold a separate certification or  
 9 licensure from the Commonwealth of Pennsylvania?  
 10 A. Yes.  
 11 Q. And what license is that?  
 12 A. It's the state license to practice speech  
 13 therapy.  
 14 Q. And that's issued by the Pennsylvania  
 15 Department of State?  
 16 A. Yes.  
 17 Q. Review with us your educational --- your  
 18 employment history post your undergraduate degree?  
 19 A. I started working for the Capitol Area  
 20 Intermediate Unit. I was employed there for a  
 21 little over ten years.  
 22 Q. In what capacity?  
 23 A. I worked in both the preschool department and  
 24 also the school-age department. I worked with  
 25 students with severe disabilities. I worked in

Page 1005

1 private schools. I worked in daycare centers,  
 2 servicing kids ages 3 up until 21, age 21.  
 3 Q. Providing speech and language services?  
 4 A. Yes.  
 5 Q. And what was the last year you did that?  
 6 A. That was 2007.  
 7 Q. All right. And then since then, you have  
 8 worked as an independent contractor with  
 9 TherAbilities?  
 10 A. Yes.  
 11 Q. Describe, generally, what TherAbilities does?  
 12 A. TherAbilities is a pediatric agency that  
 13 provides speech therapy, physical therapy and  
 14 occupational therapy to school districts in the  
 15 area and also private clients that come in that  
 16 want supplemental services.  
 17 Q. And you've been providing services to George?  
 18 A. Yes.  
 19 Q. When did you begin providing services to  
 20 George?  
 21 A. I first started in March of 2008, and that was  
 22 with my evaluation. And as far as therapy, then  
 23 it started in that following August is when  
 24 therapy initially started.  
 25 Q. You said March of 2008. Would that actually

Page 1006

1 be March of 2009?  
 2 A. Yes. Yes. I'm sorry.  
 3 Q. Now, how was it that you first came to be  
 4 involved with George in any capacity?  
 5 A. Ms. Sawyer contacted me and asked me to do an  
 6 evaluation, a speech and language evaluation.  
 7 Q. By Ms. Sawyer, you mean the special education  
 8 director for the School District?  
 9 A. Yes.  
 10 Q. And do you recall the time frame when she  
 11 asked you to do that evaluation?  
 12 A. It was the beginning of March.  
 13 Q. Did you do an evaluation?  
 14 A. I did.  
 15 Q. What did the evaluation consist of?  
 16 A. My evaluation consisted of some phonological  
 17 awareness-type things, which was noted in his  
 18 previous evaluation reports. And it targeted  
 19 specifically receptive and expressive language  
 20 skills and processing abilities.  
 21 Q. Why did you focus on those abilities?  
 22 A. I had read prior evaluations and information  
 23 from George's parents, and that was the concerns  
 24 that were raised, so those were the areas that we  
 25 looked at --- that I looked at.

Page 1007

1 Q. And did you do testing?  
 2 A. Yes, I did.  
 3 Q. What testing did you do?  
 4 A. I gave George the Word Test, which looks at  
 5 different vocabulary skills and language  
 6 functions. And I also gave George the Test of  
 7 Adolescent Problem Solving.  
 8 Q. Why did you give him each of those two tests?  
 9 A. They focus on language skills as a whole.  
 10 They focus on what goes on in a regular school  
 11 day, the language that is involved in the  
 12 curriculum. The problem-solving test looks at an  
 13 adolescent's ability to problem solve in an  
 14 everyday situation context.  
 15 Q. Did you report the results of the testing?  
 16 A. Yes, I did.  
 17 Q. Did you take part in an evaluation report that  
 18 the team did for George in the spring of 2009?  
 19 A. Yes.  
 20 (Parents' Exhibit 37 marked for  
 21 identification.)  
 22 BY ATTORNEY CLARK:  
 23 Q. I want to turn your attention to Exhibit P-37.  
 24 A. P-37?  
 25 Q. Yes. And specifically to page 6 of 16 of that

Page 1008

1 report.  
 2 A. Okay.  
 3 Q. Pages six and seven, that consists of the  
 4 report that you provided --- sorry, six, seven and  
 5 eight?  
 6 A. Yes, that is my information.  
 7 Q. And that reports the testing scores that you  
 8 administered for George?  
 9 A. Yes.  
 10 Q. And did you participate in the re-evaluation  
 11 report process, where all this information was  
 12 gathered for George?  
 13 A. I did.  
 14 Q. What conclusions did you draw based on the  
 15 testing that you administered?  
 16 A. My results were that George had deficits with  
 17 both his receptive and expressive language skills,  
 18 and he was in need of speech therapy.  
 19 Q. Now, do you have an adjectival qualifier for  
 20 the degree of impairment?  
 21 A. Just based on these numbers and my evaluation  
 22 report, prior to working with George for therapy,  
 23 I would say that he had a moderate language  
 24 disorder.  
 25 Q. Moderate with both expressive and receptive?

Page 1009

1 A. Yes.  
 2 Q. So moderate in both areas?  
 3 A. Yes.  
 4 Q. Now, what are the other qualifiers or  
 5 descriptors that you would use?  
 6 A. We typically used anywhere from mild to  
 7 moderate to severe.  
 8 Q. What is it that made him moderate in the area  
 9 of expressive language skills?  
 10 A. In his expressive --- that was mostly involved  
 11 with the Test of Problem Solving. That has a lot  
 12 of expressive answers required for that test. His  
 13 total test score was 67, which is well below 85.  
 14 He did have some areas close to the standard  
 15 score, which is why I did not say that he was  
 16 severe.  
 17 Q. Okay. And you were reviewing test results  
 18 that are reported on page 7 of 16 in P-37?  
 19 A. Yes.  
 20 Q. So his total score was 67?  
 21 A. Yes.  
 22 Q. And if he had scored a --- if his standard  
 23 score was 85, that would be what?  
 24 A. He would be low average.  
 25 Q. But 67, in your opinion, made him moderately

Page 1010

1 impaired?  
 2 A. Yes.  
 3 Q. What testing results did you use to conclude  
 4 that he was moderately impaired with regard to  
 5 receptive language?  
 6 A. With receptive language I pulled from both of  
 7 the assessments, the Word Test II, which is on  
 8 page six there, and also then the Test of Problem  
 9 Solving, which is on page seven. And again, on  
 10 page six, with his total test being 72, a lot of  
 11 those things are him listening, and that is more  
 12 of the processing than receptive. So the 72 is  
 13 what I based his moderate delay in receptive.  
 14 Q. Is that score off the same standard as the  
 15 testing results for the verbal problem solving ---  
 16 or the Test of Problem Solving?  
 17 A. Yes.  
 18 Q. And based on these results, you concluded that  
 19 he was in need of speech therapy?  
 20 A. Yes, I did.  
 21 Q. How much speech therapy has he been given  
 22 since?  
 23 A. We generally have been meeting for two  
 24 sessions in a five-day week. Most recently we  
 25 have been meeting for more just to make up some

Page 1011

1 missed sessions due to absences, snow delays and  
 2 things like that. But the general recommendation  
 3 is usually two 30-minute sessions per five-day  
 4 week.  
 5 (Parents' Exhibit 39 marked for  
 6 identification.)  
 7 BY ATTORNEY CLARK:  
 8 Q. Now, I want to turn your attention to Exhibit  
 9 P-39. And within P-39 there are goals that begin  
 10 on page 24.  
 11 ATTORNEY HUSIC:  
 12 Do you mean P-38?  
 13 ATTORNEY CLARK:  
 14 P-39.  
 15 A. Okay.  
 16 HEARING OFFICER:  
 17 What page number from P-39?  
 18 ATTORNEY CLARK:  
 19 I just lost my place. Twenty-four  
 20 (24).  
 21 BY ATTORNEY CLARK:  
 22 Q. Which of these goals pertain to the speech and  
 23 language instruction you provided for George?  
 24 A. Goal number one, which is on page 24, is a  
 25 speech and language goal. And goal number two,

5 (Pages 1008 to 1011)

Page 1012

1 which is on page 25, is the second speech and  
2 language goal. Those are the two goals that I  
3 have for George.

4 Q. Explain goal one.

5 A. Goal one is basically the receptive and  
6 vocabulary-type goal, so how it's written is that  
7 during the speech therapy sessions, the one-on-one  
8 sessions that we have, we will use content-related  
9 vocabulary in our sessions, and I want him to be  
10 able to state synonyms and antonyms of words, list  
11 categories and items in a category, tell how  
12 things are associated and compare the similarities  
13 and differences of items.

14 Q. And how would you describe George's progress  
15 on that goal?

16 A. George has actually achieved this goal is how  
17 it is worded, six out of eight on the rubric.  
18 He's achieved that goal.

19 Q. Explain how you measure his achievement on  
20 this goal.

21 A. Okay. This particular goal, I have a rubric  
22 system. And for each of the four features of  
23 language, there's a possible score of zero, a one  
24 or a two. And when we word the goal, we said that  
25 that goal would be achieved when George achieved a

Page 1013

1 six out of eight. And so each session that I take  
2 progress monitoring data I score him on a zero, a  
3 one or a two based on the rubric, and he's  
4 achieved a six out of eight.

5 Q. You say you meet with George about twice a  
6 week?

7 A. Yes.

8 Q. What's the duration of these meetings?

9 A. Thirty (30) minute sessions.

10 Q. And they occur where and when?

11 A. They occur in the library and they are held  
12 before the school day, 7:15 to 7:45 in the  
13 morning.

14 Q. Is there anyone taking part in these classes  
15 besides George?

16 A. No.

17 Q. So it's all one-to-one?

18 A. Yes.

19 Q. And when did you conclude that he had achieved  
20 the goal?

21 A. This last third marking period.

22 Q. And did you do --- did you inquire with any of  
23 George's teachers to ascertain whether he had  
24 shown any ability to carry out that goal in their  
25 classrooms?

Page 1014

1 A. Not yet. I planned to --- well, we planned to  
2 have an IEP review to talk particularly about  
3 what's happening in these classes.

4 Q. Okay. And what do you envision happening with  
5 this particular goal?

6 A. With this particular goal, when we meet for an  
7 IEP review a couple things can happen. What I  
8 would like to see is I would like to see it  
9 expanded a little bit. Instead of just saying he  
10 achieved it and the goal is done, possibly taking  
11 out some of the prompting and just raising the  
12 score on --- so instead of achieving a six out of  
13 eight, possibly achieving seven or even eight out  
14 of eight.

15 Q. Now, I want you to turn your attention to goal  
16 number two. What does that goal contain?

17 A. That is also a processing goal so that, again,  
18 in a one-on-one session I read a paragraph to  
19 George, the content has to be ninth-grade reading  
20 level, and I then ask him to --- I ask him  
21 comprehension questions about it, maybe who was it  
22 about, recalling things from the story. I ask him  
23 to retell the story and I take into consideration  
24 whether it was sequenced appropriately. That's  
25 the second language feature. The third language

Page 1015

1 feature is him being able to recall details and  
2 descriptions accurately from what he heard me  
3 read.

4 Q. And how was it that you assessed George's  
5 progress on that goal?

6 A. The same way that I did for the first goal, is  
7 that every time that we do an activity like this,  
8 I take data and score him on a zero, one, two or  
9 three for this particular rubric. And the scoring  
10 for this goal, he will achieve this goal when he  
11 achieves a seven out of nine.

12 Q. What's his progress on this goal?

13 A. He is making very steady progress. He has not  
14 quite achieved this goal, but he's close, and he's  
15 making now consistent progress.

16 Q. Can you be more precise when you say he's  
17 close?

18 A. I'd have to look particularly, you know, at my  
19 progress report, but I would project just from  
20 observations and my therapy that within another  
21 month he would achieve this goal.

22 Q. Before the end of the current school year?

23 A. Yes.

24 Q. Are there any other goals that you work with  
25 on George?

Page 1016

1 A. No. We do Earobics. It's done at home, and I  
2 touch base with George. He does that once for me  
3 every six weeks. But that's primarily done at  
4 home.

5 Q. Can you spell Earobics?

6 A. Earobics is E-A-R-O-B-I-C-S.

7 Q. What is Earobics?

8 A. Earobics is a research-based computer program.  
9 It targets literacy, phonology, auditory memory.

10 It's used a lot for processing in kids who have  
11 --- kids who are having trouble with language.

12 Q. Describe functionally what happens with  
13 Earobics.

14 A. There are two levels with Earobics. There's a  
15 primary version, which I believe goes up to kids  
16 that are in sixth grade. And then there's the  
17 intermediate version --- I'm sorry. There's an  
18 adult --- there's an adolescent and adult version.  
19 And within that version, it can either be done in  
20 the clinical setting, which is more detailed, or  
21 it can be the home program, which is not quite as  
22 detailed. And George is using the home program of  
23 the adult/adolescent version. There are six  
24 different --- they're games, really, and it's  
25 self-driven, and it goes through things like

Page 1017

1 rhyming, identifying whether sounds are the same  
2 or different, his ability to recall sounds and  
3 sequence sounds, but it's all in a game format.

4 Q. Can you give an example of what happens in  
5 Earobics, ---

6 A. Sure.

7 Q. --- of an exercise?

8 A. Sure. The first one that looks at auditory  
9 memory and processing might start out with nine  
10 squares on a screen, and each square has a  
11 different picture in it. And it might say --- the  
12 computer would say touch fire truck and baby, so  
13 he has to sequence it in that order. It  
14 progresses then to the point where the squares are  
15 there, there are no pictures, and he might be  
16 given four different words to sequence and there  
17 might be sounds in the background of people  
18 clapping or people cheering so that he has to try  
19 to weed out that background noise, remember what  
20 was said, and then process it so that he can  
21 sequence it then correctly.

22 Q. Have you used Earobics before with your  
23 students?

24 A. I have not used --- this is the first time  
25 I've used the adult/adolescent version. I have

Page 1018

1 used the primary version.

2 Q. And you've used the primary version with  
3 younger students?

4 A. Correct.

5 Q. What is your impression about the Earobics  
6 program for younger students?

7 A. It's a wonderful program. I've seen a lot of  
8 results, mostly with the kids who are struggling  
9 with phonics and phonetic kind of things, the  
10 literacy, the comprehension, the processing. They  
11 think it's fun. They're not even really aware  
12 that they're learning, but we see great results.

13 Q. Is there a grade limit for the younger-based  
14 version?

15 A. I'm not sure exactly. I use it with kids up  
16 to fourth grade, but I believe that you can use it  
17 up to sixth grade, but I'm not certain.

18 Q. What are your impressions of the Earobics  
19 program for --- that George is using?

20 A. It has some good content. I think the game  
21 that I had just described, I think is very  
22 beneficial for kids who are in high school and  
23 even some adults, to help them weed out background  
24 noise and processing during background noise.  
25 Some of the games in the adult version seem a

Page 1019

1 little elementary to me.

2 Q. And that's your impression from having seen  
3 the exercises that George has done?

4 A. Yes.

5 Q. Have you actually observed George do any  
6 Earobics exercises when you're working with him?

7 A. Yes.

8 Q. Have you observed him being able to multitask  
9 while he was doing Earobics?

10 A. I have.

11 Q. Explain that.

12 A. Just recently I had him do it where we --- in  
13 one session I have him go through each of the six  
14 activities, and then I --- after --- each game has  
15 its own little progress chart, and then I monitor  
16 his progress and I report that in my quarterly  
17 progress reports. And in this particular session  
18 George was also texting, which I did tell Ms.  
19 Kisher (phonetic) about. He had --- since we meet  
20 before school, sometimes he comes in and he will  
21 get his last-minute texting in.

22 Q. And by texting you mean what?

23 A. On his cell phone.

24 Q. Okay.

25 A. So because I like to see if the kids can do

7 (Pages 1016 to 1019)

Page 1020	Page 1022
<p>1 multiple things, which is a key component of</p> <p>2 processing, I just watched. I observed to see if</p> <p>3 he could get it right, to see if he would pause</p> <p>4 it, the game, the Earobics, to see if he would</p> <p>5 stop it. So I observed him. He was texting and</p> <p>6 listening to the game that I had just described.</p> <p>7 And it was up to four words, and he got them all</p> <p>8 correct while texting.</p> <p>9 Q. While texting?</p> <p>10 A. Correct.</p> <p>11 Q. What impression do you draw from that?</p> <p>12 A. He's come a long way in terms of processing.</p> <p>13 It used to be that during our sessions, if the</p> <p>14 bell would ring, I would make sure that I had to</p> <p>15 stop what I was saying because he really</p> <p>16 struggled. I would need to repeat myself, maybe</p> <p>17 reword. Now, the fact that he can, you know,</p> <p>18 either text something that is a conversation and</p> <p>19 listen and process and then complete that, that's</p> <p>20 pretty good.</p> <p>21 Q. Now, you concluded when you did your testing</p> <p>22 about this time last year, 2009, that he was</p> <p>23 moderately disabled in expressive and receptive</p> <p>24 language?</p> <p>25 A. Yes.</p>	<p>1 first of all, do you know why it was prescribed</p> <p>2 for George?</p> <p>3 A. Yes, I do.</p> <p>4 Q. And why was it?</p> <p>5 A. He was diagnosed by the audiologist with</p> <p>6 central auditory processing disorder, and an FM</p> <p>7 system is recommended to amplify the sound that</p> <p>8 George is receiving and to tune out background</p> <p>9 noises so he can process better.</p> <p>10 Q. And is that different from the use that you</p> <p>11 see with other students?</p> <p>12 A. I have worked with another child who uses it</p> <p>13 for processing. That's a younger child.</p> <p>14 Q. Have you used it with students who have it for</p> <p>15 hearing loss?</p> <p>16 A. Yes, I have.</p> <p>17 Q. In your experience, do you see students</p> <p>18 self-advocate for the FM system?</p> <p>19 ATTORNEY HUSIC:</p> <p>20 I'm going to raise an objection,</p> <p>21 because what we're getting into a line of</p> <p>22 questioning comparing to other students. This</p> <p>23 particular witness never worked with George</p> <p>24 insofar as George's ability to work with the FM</p> <p>25 system, and I don't think it's of any moment to</p>
Page 1021	Page 1023
<p>1 Q. Do you still hold that opinion?</p> <p>2 A. No, I would not say moderate.</p> <p>3 Q. Why is that?</p> <p>4 A. Because of the gains that he made in less than</p> <p>5 a year's time for both of the goal areas that we</p> <p>6 have.</p> <p>7 Q. In both expressive and receptive language?</p> <p>8 A. Yes.</p> <p>9 Q. Well, based on what you see, how would you</p> <p>10 describe his level of impairment?</p> <p>11 A. I would describe his level of impairment as</p> <p>12 mild speech/language impairment in both receptive</p> <p>13 and expressive still.</p> <p>14 Q. Did you review any materials in George's</p> <p>15 record about the frequency modulator assistive</p> <p>16 technology?</p> <p>17 A. Yes.</p> <p>18 Q. Have you worked with students using that</p> <p>19 device?</p> <p>20 A. I have.</p> <p>21 Q. What kind of students have you worked with</p> <p>22 using that type of device?</p> <p>23 A. The students that I've worked with mostly have</p> <p>24 had hearing loss, my primary experience.</p> <p>25 Q. Have you worked with kids who are using —</p>	<p>1 get this witness' input into her experience with</p> <p>2 other students using the FM system. We're just</p> <p>3 concerned about George's ability, and this witness</p> <p>4 never observed that.</p> <p>5 HEARING OFFICER:</p> <p>6 Response, Mr. Clark?</p> <p>7 ATTORNEY CLARK:</p> <p>8 This witness is qualified. She's</p> <p>9 worked with students who have used FM systems for</p> <p>10 hearing loss and for central auditory processing.</p> <p>11 And as an offer of proof, she will testify that</p> <p>12 students who use it for hearing loss are very</p> <p>13 strong advocates of its use. And those who are</p> <p>14 not --- who do not use it for that are not strong</p> <p>15 advocates for its use.</p> <p>16 HEARING OFFICER:</p> <p>17 Well, let me ask you a question.</p> <p>18 This offer of proof means here's where we're</p> <p>19 going.</p> <p>20 A. Okay.</p> <p>21 HEARING OFFICER:</p> <p>22 Based on that offer of proof, if that</p> <p>23 amounts to your testimony in terms of the</p> <p>24 student's preference or non-preference in the use</p> <p>25 of this technology, is it based on your experience</p>

8 (Pages 1020 to 1023)

Page 1024

1 with students?  
 2 A. Yes.  
 3 HEARING OFFICER:  
 4 Okay. I think I will sustain the  
 5 objection because you're going to be asking her  
 6 about her experience with particular students and  
 7 not a hypothetical based on some area of  
 8 expertise. So I'll sustain the objection. In  
 9 other words, other students have done this, but I  
 10 don't think we can take that and project it onto  
 11 what George Willoughby might or might not have  
 12 done or gained from it. So I'll sustain the  
 13 objection.  
 14 ATTORNEY CLARK:  
 15 So is your ruling then that it would  
 16 be appropriate to ask that question as a  
 17 hypothetical?  
 18 HEARING OFFICER:  
 19 Well, at that point, in an area of  
 20 expertise, it would. Now, I think Ms. Husic ---  
 21 ATTORNEY HUSIC:  
 22 Right.  
 23 HEARING OFFICER:  
 24 --- might have ---. I mean, what I'm  
 25 saying is expert witnesses can talk about

Page 1025

1 hypothetical situations. That's normally based on  
 2 research. In this case, if the witness is going  
 3 to testify out of experience with children and  
 4 you're going to ask her about another child, I  
 5 don't think that those two comport.  
 6 ATTORNEY CLARK:  
 7 I'm not going to ask her about  
 8 another child. I'm going to ask her ---.  
 9 BRIEF INTERRUPTION  
 10 ATTORNEY CLARK:  
 11 I was going to ask her about her  
 12 experience in observing students and how they  
 13 self-advocate for the use of the FM system.  
 14 HEARING OFFICER:  
 15 Right. But when I asked the  
 16 follow-up question for my information about  
 17 foundation, she said I'm going to testify about my  
 18 experience with kids. And in that regard I don't  
 19 see --- I don't see her saying, this is how other  
 20 kids have used it, and then we can project that  
 21 onto George Willoughby. I don't think that that's  
 22 --- I don't think that's a foundation for it. If  
 23 she's going to say research shows that, that's a  
 24 different matter. But when she says, here's what  
 25 I've observed with other kids, here's what I

Page 1026

1 observed with George, the causation there --- in  
 2 terms of her --- in her mind, the causation is ---  
 3 it's unsupportable as testimony. So I'll sustain  
 4 the objection if that's going to be the  
 5 foundation.  
 6 BY ATTORNEY CLARK:  
 7 Q. Are you familiar with research involving the  
 8 use of FM systems?  
 9 ATTORNEY HUSIC:  
 10 Objection. I think we're still going  
 11 to go down the same path.  
 12 ATTORNEY CLARK:  
 13 Well, she hasn't been ---.  
 14 HEARING OFFICER:  
 15 Well, let's hear the objection.  
 16 ATTORNEY HUSIC:  
 17 I think it's going to go down the  
 18 same path, and I still don't think it's relevant.  
 19 You know, how a kid interacts or advocates himself  
 20 for the FM system I think is very, very  
 21 subjective. And I think each kid would vary in  
 22 their ability to use the FM system and whether or  
 23 not they want to continue using it. On that  
 24 sense, you know, I don't think research would  
 25 really be applicable to George's use or advocacy

Page 1027

1 with the FM system, and therefore we object.  
 2 HEARING OFFICER:  
 3 Well, the FM system has --- at least  
 4 at one time was an accommodation, and we've had  
 5 testimony about its use and/or the difficulty with  
 6 its use. To the extent that the witness might  
 7 be --- and I would go further to say that we now  
 8 have a foundation in terms of George's receptive  
 9 language skills. So to the extent that this  
 10 witness might have information about that with an  
 11 accommodation that has been part of the student's  
 12 program, at least at one time, if she has  
 13 information about that, I will allow it. So I'll  
 14 overrule the objection. And the question asked  
 15 is, do you have a research component or basis for  
 16 your understanding of use of FM systems?  
 17 A. I know the majority of the research that I  
 18 have read deals with FM systems for kids with  
 19 hearing loss. That's what I'm most familiar with.  
 20 HEARING OFFICER:  
 21 But the question is, do you feel that  
 22 that research base gives you the ability to  
 23 testify to their use in a situation like George's?  
 24 A. Yes.  
 25 ATTORNEY HUSIC:

9 (Pages 1024 to 1027)

Page 1028

1 I'm going to raise an objection to  
2 that because I think it is very distinctive  
3 between the hearing loss versus a student that's  
4 been diagnosed with expressive and receptive  
5 language disorders. And I don't think we should  
6 allow this witness to go down that path, to  
7 extrapolate data that would be applicable, at  
8 least to her knowledge, regarding hearing loss to  
9 a student with expressive language disorder.

10 HEARING OFFICER:

11 I'll note the objection. It will be  
12 overruled, though, based on the answer to the  
13 question. So you can ask questions from that  
14 perspective of the witness.

15 BY ATTORNEY CLARK:

16 Q. Does your review of the research also include  
17 review of the extent to which students with  
18 hearing disorders self-advocate for the use of the  
19 FM system?

20 A. Yes.

21 Q. And to what extent do students with hearing  
22 disorders self-advocate for the use of the FM  
23 system?

24 A. If it's not there, if the battery dies, if  
25 they forget it, they are lost, are completely ---

Page 1029

1 they can't hear. They can't function.

2 Q. What do those students intend then to do?

3 A. They make sure that they have it. They will  
4 remember where they put it. They make sure that  
5 they have batteries for it in case the battery  
6 dies.

7 Q. Based on your knowledge of the research, if  
8 the FM system were a benefit to George, to what  
9 extent would he --- would you expect him to  
10 self-advocate for its use?

11 ATTORNEY HUSIC:

12 I'm going to raise an objection.

13 This witness did not ever observe George using the  
14 FM system, and therefore I don't know how that she  
15 knows George, other than in therapy sessions, to  
16 make a determination whether or not he would or  
17 would not self-advocate for use of the FM system.

18 HEARING OFFICER:

19 I'm going to sustain the objection.

20 I don't think the witness can get inside George's  
21 mind.

22 BY ATTORNEY CLARK:

23 Q. What would you expect a student who gains  
24 benefit from an FM system to --- to what extent  
25 would you expect a student who gains benefit from

Page 1030

1 an FM system to self-advocate for its use?

2 ATTORNEY HUSIC:

3 Objection. Same reason.

4 HEARING OFFICER:

5 Yes. I think I have to sustain that

6 objection, too, because this is now a hypothetical  
7 student, and what would you expect a hypothetical  
8 student --- what would you expect to be in the  
9 mind of a hypothetical student with an FM system,  
10 and I don't think that that's something that the  
11 witness can testify to. I don't --- the question,  
12 as asked, at least --- what would you expect of a  
13 student, that takes us into the mind and  
14 motivation of the student, and I don't think that  
15 the witness can do that either with a specific  
16 student or hypothetically.

17 ATTORNEY CLARK:

18 Even with her understanding of the FM  
19 system and its use, the research?

20 HEARING OFFICER:

21 Yes. The answer to your question is  
22 yes, because the question, as asked, is what would  
23 you expect a student to do, and I don't know that  
24 any of us can testify to what we would expect  
25 anyone to do.

Page 1031

1 BY ATTORNEY CLARK:

2 Q. Have you heard George self-advocate for the  
3 use of the FM system?

4 ATTORNEY HUSIC:

5 Objection. At no time in any of this  
6 witness' documents or her evaluation, the IEP  
7 goals, that never addressed anything related to  
8 the FM system, nor was it included as anything ---  
9 as part of the SDIs. So I don't know how this  
10 witness can even form an opinion or make a  
11 statement about George's position about the FM  
12 system.

13 ATTORNEY CLARK:

14 I'll withdraw the question. I'll ask  
15 another question.

16 HEARING OFFICER:

17 Okay. Question is withdrawn.

18 BY ATTORNEY CLARK:

19 Q. When you meet with George does he tell you  
20 about his likes?

21 A. Yes, he does.

22 Q. Does he tell you about his dislikes?

23 A. Yes.

24 Q. Has he ever expressed any interest in using  
25 the FM modulator ---

10 (Pages 1028 to 1031)

Page 1032

1 ATTORNEY HUSIC:  
 2 Objection.  
 3 BY ATTORNEY CLARK:  
 4 Q. --- in your dealings with George?  
 5 HEARING OFFICER:  
 6 Did that conclude the question?  
 7 ATTORNEY CLARK:  
 8 Yes.  
 9 HEARING OFFICER:  
 10 Nature of the objection?  
 11 ATTORNEY HUSIC:  
 12 Still based upon relevance. And more  
 13 particularly, I just want to add another  
 14 component, that in this witness' progress report  
 15 that had been reported and are in exhibits, there  
 16 is no content, you know, that addresses this  
 17 witness having any discussion with George  
 18 regarding the FM system or his opinion about the  
 19 FM system.  
 20 HEARING OFFICER:  
 21 I'm going to overrule the objection.  
 22 That all may be true, but I think the question, as  
 23 asked, is now about the witness' direct knowledge  
 24 of a conversation with George. To the extent that  
 25 the FM system, again, is in evidence, whether or

Page 1033

1 not it's in the IEP or not that was pending at the  
 2 time, it's certainly an issue in the case, so I'll  
 3 overrule the objection. That means you can answer  
 4 the question about conversations you've had with  
 5 George about the FM system.  
 6 A. Can you repeat the question?  
 7 BY ATTORNEY CLARK:  
 8 Q. Sure. Has George expressed any interest, in  
 9 your dealings with him, about using the FM system?  
 10 A. No.  
 11 Q. Has George expressed any interest in using any  
 12 assistive technology that would aid him in the  
 13 area of expressive or receptive language?  
 14 A. He has mentioned that the books on tape are  
 15 helpful for him.  
 16 Q. Anything else?  
 17 A. No.  
 18 ATTORNEY CLARK:  
 19 No other questions.  
 20 HEARING OFFICER:  
 21 Ms. Blazi, Ms. Husic, the attorney  
 22 for the family, will have some questions for you  
 23 now on Cross Examination.  
 24 CROSS EXAMINATION  
 25 BY ATTORNEY HUSIC:

Page 1034

1 Q. Ms. Blazi, I wanted to ask you a follow-up  
 2 regarding a question you were asked about a prior  
 3 evaluation that you read and reviewed on George.  
 4 Can you say specifically what evaluations that you  
 5 reviewed?  
 6 A. I read Gayle Goepfert's speech and language  
 7 evaluation, Doctor Grisolano, Andy Klein. I know  
 8 there's somebody else I'm forgetting. I'd have to  
 9 look. I know I overlooked somebody.  
 10 Q. Did you look back at George's prior IEPs?  
 11 A. Yes, I did.  
 12 Q. And you did see at one point that he was  
 13 receiving speech therapy for articulation  
 14 purposes? Did you see that?  
 15 A. Yes.  
 16 Q. If you look at P-37, page six, what I'm  
 17 wondering, if you wrote the section entitled  
 18 Updated Speech and Language Testing. It's part of  
 19 page six and page seven.  
 20 A. Yes.  
 21 Q. You use the descriptor of the word updated,  
 22 and I'm wondering what are you updating from?  
 23 A. I usually do that when a child has had speech  
 24 and language in the past.  
 25 Q. Were you aware that the speech and language

Page 1035

1 was discontinued in 2007?  
 2 A. Yes.  
 3 Q. And did you see also the IEP that was part of  
 4 the 2006/2007 school year that Hershey did an  
 5 evaluation that identified George has having  
 6 expressive and receptive deficits?  
 7 A. Was this from Hershey Medical Center?  
 8 Q. Yes.  
 9 A. I'm not sure. I know I did a file review, a  
 10 record review, and I looked at particular past  
 11 speech and language information. I don't recall  
 12 anything in particular about the Med Center  
 13 evaluation.  
 14 Q. Did you read the report from the audiologist  
 15 that was performed?  
 16 A. Yes. From Pinnacle Health, yes.  
 17 Q. And they also recommended that George would  
 18 have speech/language therapy for auditory  
 19 processing?  
 20 A. Yes.  
 21 Q. When those reports came in, would you agree  
 22 with me that therapy should have been started for  
 23 George at that time?  
 24 A. Yes, based -- I can't speak for the Medical  
 25 Center evaluation, because I don't recall it, but

11 (Pages 1032 to 1035)

Page 1036	Page 1038
<p>1 with the Pinnacle Health audiologist, yes, I would 2 agree with that. 3 Q. So if the District would have followed that 4 report, that evaluation, based upon your answer, 5 should have started during the 2006/2007 IEP 6 school year? 7 A. Yes. 8 Q. I'm looking at your third-quarter progress 9 report. It's not in the records, but it's dated 10 March the 29th of 2010. And you indicated that in 11 goal one George met that particular goal. I 12 assume as of the date of the third-quarter report, 13 3/29/10? 14 A. Yes. 15 Q. Or was it before that? 16 A. That he had met it? 17 Q. Yes. 18 A. I usually --- how I chart it is that he has to 19 maintain it over three consecutive data points. 20 So it was in the third quarter. 21 Q. Okay. Now, as of 3/29/10, looking ahead a 22 month, roughly a month to today's date, since he 23 met the goal on 3/29 of '10, what have you been 24 working on for a month? 25 A. We've been mostly focusing on the second goal,</p>	<p>1 P-37, page six and seven. You indicated it was 2 your opinion that George's test scores fall in the 3 moderate range of impairment. And I'm wondering 4 what standard deviation are you using? Are you 5 using one standard deviation or one-and-a-half? 6 A. Well, it depends. There's no set that we use. 7 We usually --- and it's not written anywhere, but 8 usually we use one-and-a-half to two standard 9 deviations for someone to qualify for services. 10 Q. One-and-a-half to two standard deviations. 11 What do the authors recommend for the Word Test 12 II: Adolescent? 13 A. As far as just going by what the author says 14 in terms of a number, I'm not sure because I don't 15 tend to go by just a number. I tend to get input 16 in how it transfers into the real word, these 17 skills into the real word. 18 Q. On the Word Test II: Adolescent, you have a 19 total test score of 72. What would be the range 20 to put George in a severe range? 21 A. I would say probably a six to five. I would 22 also take into consideration whether most of the 23 subtests there were --- you know, one was within 24 the average range, and then he totally bombed 25 another one, which would bring his score down. So</p>
Page 1037	Page 1039
<p>1 goal number two which is in the IEP. We have been 2 still working on this goal until we have an IEP 3 review. And I'm looking at making sure that no 4 prompting is involved there, just to get an idea 5 of when we do meet if raising the criteria is 6 adequate for George. 7 Q. How did you notify George's IEP team that the 8 goal was met? 9 A. I talked with Ms. Sawyer and also Doctor 10 Sheats, and I let them know that George had 11 achieved his goal. And also George's case manager 12 --- I also informed Mrs. Peiffer that George 13 had --- I notified her when he was getting close 14 to achieving the goal. And I said that we would 15 sit down and have an IEP review to see where we 16 want to go from here. 17 Q. And there has been no IEP meeting set yet, has 18 there? 19 A. No. 20 Q. So in the meantime, until one is done, you're 21 only working on goal number two? 22 A. Particularly data for goal number two. I 23 continue to take data --- I still probe the first 24 goal, but I don't actually report the progress. 25 Q. On your testing you indicated --- still at</p>	<p>1 I factor all of those and not just the total test 2 score. 3 Q. On the Test of Problem Solving that you 4 received a total test score of 67, --- 5 A. Yes. 6 Q. --- that's pretty close to a 7 standard-and-a-half deviation. Would you consider 8 him still to be moderate or would he be close to 9 having severe deficits? 10 A. I would still say moderate. I think I would 11 use the same thing as 65 before I classified it as 12 severe. 13 Q. On the first subtest that you administered, 14 Making Inferences, would you consider the 15 percentile rank of zero to be a severe deficiency? 16 A. Yes, I would. 17 Q. You indicated that you meet with George in the 18 library at 7:15 to 7:45. That's before school 19 starts? 20 A. Yes. 21 Q. Why do you meet at that time? 22 A. At the IEP meeting, I know when it was brought 23 up, recommended speech therapy, Mrs. Peiffer said 24 that she felt that she didn't want George to miss 25 any more school time.</p>

12 (Pages 1036 to 1039)

Page 1040

1 Q. And why couldn't you get that in during the  
2 regular school day?  
3 A. I could and that was offered, but it was  
4 not --- it was just agreed upon that it would be  
5 better for George if he's not missing anything  
6 during the regular school day to meet me prior to  
7 school.  
8 Q. The Standards classes interfered with your  
9 ability to meet with George during ---  
10 ATTORNEY CLARK:  
11 Objection.  
12 BY ATTORNEY HUSIC:  
13 Q. --- regular school time?  
14 ATTORNEY CLARK:  
15 Objection to the question. It calls  
16 for a conclusion that she's not qualified to  
17 render.  
18 ATTORNEY HUSIC:  
19 She was at the IEP meetings, and  
20 there was discussion at the IEP meetings regarding  
21 Standards classes and George's ability for his  
22 schedule to also fit in a speech therapy.  
23 HEARING OFFICER:  
24 Well, you know, I see both the  
25 objection and the question having merit to a

Page 1041

1 certain degree, so I'll sustain the objection to  
2 the extent that it asks about a specific class,  
3 because the witness testified about classes. So I  
4 think to the question, as asked, I'll sustain the  
5 objection. I don't think it's an unwarranted line  
6 of questioning. I just think that it does  
7 presuppose that a specific about the conversation  
8 she testified that at least to this point she  
9 hasn't talked about. So let's have it this way.  
10 Do you recall conversations about scheduling your  
11 sessions at the IEP meeting?  
12 A. Yes.  
13 HEARING OFFICER:  
14 And what were the specific details,  
15 as you recall them, about scheduling your  
16 sessions?  
17 A. There was limited time to work with in the  
18 school day mostly because he went to vo-tech and  
19 he would be gone for a good portion of the day.  
20 HEARING OFFICER:  
21 So there was conversation about  
22 scheduling them in the afternoon?  
23 A. We did not get into specifics as far as what  
24 time it would be other than we --- the team felt,  
25 and I remember that Mrs. Peiffer said it might be

Page 1042

1 better if we did it not during the school day so  
2 that he's not pulled out from something else.  
3 HEARING OFFICER:  
4 Why is it that you say vo-tech?  
5 Because vo-tech is an afternoon program.  
6 A. Uh-huh (yes).  
7 HEARING OFFICER:  
8 So why would you focus on vo-tech if  
9 the timing during the day was unimportant?  
10 A. Only because then we only have half the day to  
11 work with. So I'm not sure. We didn't really get  
12 into specifics on time. I know I had offered to  
13 do it after school at one point.  
14 HEARING OFFICER:  
15 And why was that not taken up?  
16 A. At the time, George was in football and there  
17 were other extracurricular things. The schedule  
18 didn't jive that way.  
19 HEARING OFFICER:  
20 Aside from football?  
21 A. I don't remember. I just know that I'm  
22 normally at the elementary school, and so my day  
23 is extended. So I said that in my --- from my  
24 perspective, in my schedule, I can --- I'm already  
25 here at the end of his day, can we do it then, and

Page 1043

1 that that wasn't the best situation.  
2 HEARING OFFICER:  
3 Okay. I think that coves kind of the  
4 conversation about scheduling. Did you have any  
5 other follow-up questions based upon the  
6 scheduling discussion?  
7 BY ATTORNEY HUSIC:  
8 Q. Would you be able to deliver speech services  
9 to George after school?  
10 A. Yes.  
11 Q. Has that been something that you looked into?  
12 A. Not yet. I know that I --- from a contracting  
13 standpoint, I offer that, and then it's certainly  
14 an option for me if it is for the Parents, and  
15 then I check with the school to see if it's okay  
16 for the student to stay after.  
17 Q. If George were taking Standards after school,  
18 which he currently is, that would preclude you  
19 from delivering speech services to him at that  
20 time; correct?  
21 ATTORNEY CLARK:  
22 Objection. I don't know that she's  
23 qualified to answer that question. It's also a  
24 hypothetical. It's base --- it has a lot of  
25 permutations that this witness really can't

13 (Pages 1040 to 1043)

Page 1044

1 testify to.

2 ATTORNEY HUSIC:

3 Well, it's not a hypothetical. He is  
4 taking Standards classes after school. And as a  
5 matter of fact, he's taking two English classes,  
6 two math classes, one being Standards Math,  
7 Standards English, Wilson English. And as a  
8 result of that, George is having to face work  
9 after school and also having to fit into his  
10 schedule some of his IEP before school starts. So  
11 I think she is aware of his schedule and can  
12 testify to that response.

13 HEARING OFFICER:

14 Well, ---.

15 ATTORNEY CLARK:

16 But the question is presupposing that  
17 the speech and language will be substituted for  
18 something else, and that's the part that's outside  
19 her area of expertise.

20 HEARING OFFICER:

21 Well, actually, I think it's been  
22 asked and answered because the witness testified  
23 that, as I heard it, the offer of after-school  
24 services was proposed at the IEP meeting and that,  
25 as I recall the response, football practice and

Page 1045

1 other extracurricular activities interfered with  
2 that option. When I asked about extracurricular  
3 activities, she was unaware of any others, but  
4 that the --- as I recall the answer, the  
5 after-school option was unavailable due to school-  
6 based scheduling concerns. So do you know what  
7 those other concerns were in after-school  
8 scheduling aside from football?

9 A. No.

10 HEARING OFFICER:

11 At the IEP meeting, was it ever  
12 shared why, aside from football, George was  
13 unavailable --- at the end of the season, why he'd  
14 be unavailable?

15 A. Well, I knew he was going to be taking math  
16 classes.

17 HEARING OFFICER:

18 And that that was the reason that he  
19 would be unavailable after school?

20 A. Well, no, because we didn't continue the topic  
21 of let's do it after school at that point. It  
22 was, well, I can do it in the morning, and then  
23 that was agreeable to everybody, so we just went  
24 that route.

25 HEARING OFFICER:

Page 1046

1 So I think --- again, it's one of

2 those areas where the question is allowable, but  
3 as asked, it presupposes information, and that's  
4 where it's a difficult objection to deal with,  
5 because I think the question and the line of  
6 questioning is appropriate. But as asked, I think  
7 the objection is appropriate, because it's asking  
8 something that the witness doesn't have precise  
9 knowledge about. But I think the question has  
10 actually been asked and answered now in terms of  
11 the after-school availability for a speech and  
12 language program.

13 BY ATTORNEY HUSIC:

14 Q. Do you recall that the Parents indicated that  
15 George's lunch could be given up in order for him  
16 to have speech services?

17 A. I don't recall that.

18 Q. Okay. On goal number two you talked about ---  
19 that's a processing goal and referenced the  
20 ninth-grade reading level that you are testing  
21 George on. What text are you using for that?

22 A. I do a variety of --- I do pull in some of the  
23 information that I'm getting from the teachers.  
24 And if it's not clear or if I don't have a yes or  
25 no whether it's in ninth grade, I don't

Page 1047

1 particularly take data on that time. But I'm also  
2 using the Bridge of Vocabulary, which has  
3 different skills broken down into grade level.

4 Q. I'm sorry, what's it called again?

5 A. The Bridge of Vocabulary.

6 Q. And is that the name of a book?

7 A. It is as program, yes.

8 Q. And what type of program is that?

9 A. It's a language-based program and it has ---  
10 well, they're all vocabulary-type lessons, and it  
11 has --- it starts at kindergarten and it goes up  
12 until twelfth grade.

13 Q. And based upon that test, you were pulling out  
14 passages that are identified by the author as  
15 ninth grade ---

16 A. Yes.

17 Q. --- passages? When you were asked questions  
18 about Earobics, is it your recommendation that  
19 George should discontinue Earobics?

20 A. No, that's not my recommendation.

21 Q. Are you skeptical of its benefit for George?

22 A. No.

23 Q. Do you still think it's appropriate for George  
24 to use Earobics?

25 A. He's making great progress, so yeah, I would

Page 1048

1 say I think it is.  
 2 Q. Earobics was to be incorporated as an IEP  
 3 goal. Do you recall that?  
 4 A. Yes.  
 5 Q. And with the last IEP that was done in August,  
 6 which was a revised IEP, that was never included  
 7 as an IEP goal. Do you know why that was not  
 8 incorporated?  
 9 A. Yes. I recall explaining at the IEP meeting  
 10 that my given schedule --- I am only in the  
 11 District two days a week, so we had options  
 12 whether George could see the other speech  
 13 therapist who is at the high school five days a  
 14 week either for that third session or he could  
 15 stay there for all three sessions. Or the other  
 16 option was he could still see me for the two  
 17 sessions of therapy and that the other one would  
 18 be a home-based third session type of thing but at  
 19 home that I would monitor his progress.  
 20 Q. The progress on his Earobics program is not  
 21 reported in your progress reports that come out  
 22 quarterly. How does the Parent and, for instance,  
 23 in this case, the Hearing Officer, to know how  
 24 George is actually progressing on the Earobics  
 25 program?

Page 1049

1 A. Well, in George's IEP, one of the SDIs, I  
 2 believe, is how to again monitor his own goals.  
 3 We do that monthly. So when I have George ---  
 4 when I sit down and have George do that, I do have  
 5 a chart that I do send home to Mrs. Peiffer. And  
 6 we color --- since there's six different areas and  
 7 so many different levels of progress, we --- I  
 8 have George chart that, and then that goes home  
 9 monthly.  
 10 Q. You were asked a question about George  
 11 multitasking while doing Earobics. And it struck  
 12 me that I wondered about the relevance of George  
 13 multitasking while he's supposed to be  
 14 concentrating on Earobics. Do you tell him to get  
 15 back on task?  
 16 A. Yes.  
 17 Q. How often does he do that?  
 18 A. Not often, because after that first time, I  
 19 made it clear that we are focusing on Earobics and  
 20 his texting time is over.  
 21 Q. I wanted to just back up a second and turn  
 22 your attention to P-39, page 35. What I'm  
 23 directing your attention to is the note on the  
 24 side of the page. The goal is to be added by  
 25 10/29/09. As far as you know, the team did not

Page 1050

1 reconvene; is that correct?  
 2 A. As far as I know, yes.  
 3 Q. So that goal was never added?  
 4 A. Correct.  
 5 (Parents' Exhibit 38 marked for  
 6 identification.)  
 7 BY ATTORNEY HUSIC:  
 8 Q. If you turn to P-38, this is the IEP dated  
 9 April 29th of '09. For the record, you did attend  
 10 this IEP meeting; would that be correct?  
 11 A. Yes.  
 12 Q. I want to draw your attention to page 19. At  
 13 the very bottom of page 19 the SDI addresses  
 14 speech and language therapy, two 30-minute  
 15 sessions per six-day cycle.  
 16 A. Uh-huh (yes).  
 17 Q. And you see the start date as 5/8/09.  
 18 A. Uh-huh (yes).  
 19 Q. During the '08/'09 school year you didn't  
 20 provide any speech services to George, did you?  
 21 A. I did not.  
 22 Q. If you look at page 20, again, toward the  
 23 bottom of the page, under related services, and if  
 24 you go across for the projected start date, it was  
 25 May 8th of '09, again, you did not provide any

Page 1051

1 services; correct?  
 2 A. Correct.  
 3 Q. And on page 23, again, speech/language  
 4 services, 5/8 of '09, ---?  
 5 ATTORNEY CLARK:  
 6 Can I have an offer of proof?  
 7 HEARING OFFICER:  
 8 Yes. What would be the nature of the  
 9 line of questioning?  
 10 ATTORNEY HUSIC:  
 11 Well, if the IEP --- George's IEP was  
 12 due in April of '09 and it would have covered the  
 13 IEP for the remainder of that school year, for the  
 14 '09 and right into the 2010 school, my point is  
 15 that the speech and language services were  
 16 indicated that they would begin and were stated  
 17 that they would begin during the remainder of the  
 18 '08/'09 school year, and this witness testified  
 19 that they were not. Basically that would lay  
 20 claim to a compensatory education claim that the  
 21 District did not provide IEP services as indicated  
 22 in the IEP.  
 23 HEARING OFFICER:  
 24 Well, perhaps we can take care of it  
 25 with a stipulation. Will the District stipulate

15 (Pages 1048 to 1051)

Page 1052

1 that it was the August 25th IEP to be implemented  
 2 beginning August 26th, that that IEP governed the  
 3 terms under which this witness began to provide  
 4 services?  
 5 ATTORNEY CLARK:  
 6 That's what I understood the case to  
 7 be.  
 8 HEARING OFFICER:  
 9 Will the District stipulate to that?  
 10 ATTORNEY CLARK:  
 11 Yes.  
 12 HEARING OFFICER:  
 13 Okay. If that's the case ---.  
 14 ATTORNEY HUSIC:  
 15 I'm going to raise an objection to  
 16 that because this is an IEP, like in previous  
 17 years, that covered a span of years. And some of  
 18 the goals would have been worked on and then some  
 19 were not. At this point I think it's very clear  
 20 that it was not an oversight because in some of  
 21 the SDIs, for instance, the Wilson program, that  
 22 was very clear, that it was stated it would not  
 23 begin until August, as was the Cumberland --- the  
 24 vo-tech program.  
 25 HEARING OFFICER:

Page 1053

1 Let me be clear. I meant only with  
 2 this witness and the provision of speech and  
 3 language services. So the stipulation would be,  
 4 in terms of the line of questioning ---.  
 5 ATTORNEY CLARK:  
 6 But the question --- I still have a  
 7 problem with that question because the preceding  
 8 IEP was dated October 1, ---  
 9 HEARING OFFICER:  
 10 Well, ---.  
 11 ATTORNEY CLARK:  
 12 --- which means that those services  
 13 would run through October 1, 2009.  
 14 HEARING OFFICER:  
 15 Well, let me say this. Let me be  
 16 clear that there are lots of disagreements between  
 17 the parties about what was offered, what was asked  
 18 for, whether or not it was granted. I'm not  
 19 getting into the global FAPE question. In terms  
 20 of the line of questioning with this witness about  
 21 the IEP dates, my only question --- and this is  
 22 really to speed things along, can we stipulate  
 23 that in terms of the provision of speech and  
 24 language services that the date on which those  
 25 services would have began under an approved IEP

Page 1054

1 were August 26th, 2009, the provision of speech  
 2 and language services, whether or not there  
 3 was --- I'm not talking about the appropriateness.  
 4 I'm talking about --- and this is from the line of  
 5 questioning, the date on which the District was  
 6 providing that, from their perspective. That's  
 7 the stipulation.  
 8 ATTORNEY CLARK:  
 9 And I would add to that, subject to a  
 10 signed NOREP, because there wasn't a signed NOREP  
 11 prior to that.  
 12 HEARING OFFICER:  
 13 Oh. We can go over the date of the  
 14 signed NOREP, but --- I mean, I'm just --- the  
 15 offer of proof --- the line of questioning was on  
 16 this date, were these services to be provided.  
 17 And as far as this witness is concerned, they're  
 18 speech and language services. So the objection  
 19 comes in in the offer of proof. And my point on  
 20 the stipulation is simply to say, can we establish  
 21 a date on which an IEP was in place for the  
 22 provision of speech and language services, whether  
 23 they're appropriate or not? I'm not talking about  
 24 their appropriateness. I'm just talking about  
 25 were you delivering speech and language as of X

Page 1055

1 date. If we can stipulate to that, then we can  
 2 move on from there.  
 3 ATTORNEY HUSIC:  
 4 Well, the Parent is not disputing the  
 5 appropriateness of the goals and objectives. You  
 6 know, I can stipulate to that.  
 7 HEARING OFFICER:  
 8 On speech and language?  
 9 ATTORNEY HUSIC:  
 10 Speech and language for this school  
 11 year. You know, our issue, of course, is that the  
 12 speech services regarding expressive perceptive  
 13 speech should have been appropriately evaluated  
 14 and implemented starting during the course of the  
 15 IEP governing the '06/'07 school year, when the  
 16 District was put on notice that George ---.  
 17 HEARING OFFICER:  
 18 I've got all that. I've got all  
 19 that. I know what Parents' claim is and I know  
 20 what the District's position is, at least in terms  
 21 of when it was providing services and when it  
 22 wasn't. Okay. Then so much for the ease of my  
 23 stipulation. Offer of proof is accepted. Any  
 24 objection is overruled. Continue with the line of  
 25 questioning, please.

16 (Pages 1052 to 1055)

Page 1056

1 BY ATTORNEY HUSIC:  
 2 Q. You had testified on Direct that you  
 3 considered George no longer to be moderate but now  
 4 has improved up to the level of mildly impaired.  
 5 Do you remember that testimony?  
 6 A. Yes, I do.  
 7 Q. You didn't do any retesting, though, to  
 8 establish whether he has improved, have you?  
 9 A. Not standard assessment, no, I have not.  
 10 Q. Is that a subjective determination you're  
 11 making then?  
 12 A. Yes.  
 13 ATTORNEY HUSIC:  
 14 I don't have any further questions.  
 15 Thank you.  
 16 HEARING OFFICER:  
 17 Do you have any questions on  
 18 Redirect?  
 19 ATTORNEY CLARK:  
 20 I do.  
 21 REDIRECT EXAMINATION  
 22 BY ATTORNEY CLARK:  
 23 Q. I want to ask a few questions about George's  
 24 ability and his functional level.  
 25 ATTORNEY HUSIC:

Page 1057

1 I'd raise an objection because that  
 2 goes beyond the scope of Cross.  
 3 ATTORNEY CLARK:  
 4 No. Well, if I may respond, it  
 5 doesn't.  
 6 HEARING OFFICER:  
 7 Well, let me hear the question first  
 8 and then we'll see. What was the question?  
 9 BY ATTORNEY CLARK:  
 10 Q. Describe the extent to which you see George  
 11 --- you assess George, as capable of, first of  
 12 all, answering questions that you put to him?  
 13 HEARING OFFICER:  
 14 Is there an objection to that  
 15 question?  
 16 ATTORNEY HUSIC:  
 17 Yes, that is beyond the scope of  
 18 Cross Examination. Just reviewing my questions  
 19 here, and I did not address any questions  
 20 regarding George's ability or extent that he can  
 21 answer questions.  
 22 HEARING OFFICER:  
 23 What is your response to the  
 24 objection?  
 25 ATTORNEY CLARK:

Page 1058

1 There were questions on Cross  
 2 Examination that attempted to suggest that  
 3 George's testing level was approaching the  
 4 severely impaired range. I want to ask this  
 5 witness some questions about functional  
 6 performance and how that relates to George and  
 7 whether he would be actually in the severe range.  
 8 ATTORNEY HUSIC:  
 9 Well, specifically, I would still  
 10 renew my objection because, specifically, I asked  
 11 about standardized testing that the witness  
 12 performed, and it was addressed regarding the  
 13 level of standard deviation that this witness uses  
 14 versus the authors for the test. If anything, I  
 15 might have suggested that this witness' use of  
 16 standard deviations is probably more extreme than  
 17 the authors' use.  
 18 HEARING OFFICER:  
 19 I'm going to sustain the objection  
 20 because all the testimony in terms of the results  
 21 were geared to the test results obtained by the  
 22 witness and what the implications of those test  
 23 results were for programming. It opens up a new  
 24 line of questioning to talk about her assessment  
 25 of functional abilities. I don't think that was

Page 1059

1 brought up on Cross, nor was it brought up on  
 2 Direct, you know. The witness answered questions  
 3 on Direct and Cross about the results she got and  
 4 what those results indicated to her for the  
 5 student's programming. So I do think it opens up  
 6 a new line of questioning, so I'll sustain the  
 7 objection.  
 8 BY ATTORNEY CLARK:  
 9 Q. You were asked questions on Cross Examination  
 10 about whether George's test scores were  
 11 approaching the severely-impaired range. Do you  
 12 recall those questions?  
 13 A. I do.  
 14 Q. And you concluded that he was not in the  
 15 severely-impaired range?  
 16 A. Correct.  
 17 Q. Do you have any observations to support your  
 18 conclusion?  
 19 ATTORNEY HUSIC:  
 20 I believe that was already asked and  
 21 answered on --- I didn't take notes on that, but I  
 22 believe that the witness answered that it was her  
 23 subjective opinion.  
 24 HEARING OFFICER:  
 25 Well, again, I'm going to sustain the

17 (Pages 1056 to 1059)

Page 1060

1 objection because on Cross the question was  
 2 limited to specific analysis of the test scores,  
 3 and the witness answered those questions in terms  
 4 of where she saw scores lying and what that  
 5 reflected to her. So because it is Redirect I  
 6 think I'll sustain the objection.  
 7 BY ATTORNEY CLARK:  
 8 Q. You testified that you made a subjective  
 9 determination that George is mildly impaired?  
 10 A. Yes.  
 11 Q. What are the observations that led you to draw  
 12 that subjective determination?  
 13 A. The main reasoning is his quick progress that  
 14 he's made. Someone with a language processing  
 15 disorder will have good days, bad days. They will  
 16 fluctuate in their progress. It won't always rise  
 17 and then stay at that point. But George has come  
 18 so far so fast, and I see him using those skills  
 19 every time we meet.  
 20 Q. What skills do you see him using?  
 21 A. I see him using the strategies that have been  
 22 taught, the strategies for visualizing and  
 23 verbalizing. So if something is said to him,  
 24 repeat it to himself, kind of like a mental  
 25 rehearsal kind of thing, asking for things to be

Page 1061

1 repeated versus saying I didn't hear you. A lot  
 2 of times with processing they might look like they  
 3 didn't hear. So he is differentiating whether he  
 4 can hear, whether he didn't hear, whether he  
 5 didn't understand. Maybe he wants --- he'll ask  
 6 for it to be worded a different way. So he's  
 7 using the strategies that we teach for language  
 8 processing.  
 9 Q. If he were severely impaired, would he still  
 10 be performing at that level?  
 11 A. No.  
 12 Q. With regard to the delivery of services to  
 13 George, you discussed several alternatives for  
 14 delivery of a period of instruction on the  
 15 Earobics program?  
 16 A. Yes.  
 17 Q. Was that agreed by the parties in the IEP  
 18 meeting?  
 19 ATTORNEY HUSIC:  
 20 I'm going to raise an objection. I  
 21 did --- Cross Exam did not cover any issues  
 22 regarding to the Earobics program other than  
 23 progress reporting.  
 24 HEARING OFFICER:  
 25 Your response?

Page 1062

1 ATTORNEY CLARK:  
 2 There was a question put to this  
 3 witness about delivery of three periods. She  
 4 explained that an option was that George would see  
 5 a third --- a second speech and language  
 6 instructor for a third period per week or could  
 7 see that person for all three periods or see Ms.  
 8 Blazi and then use --- engage in self-monitoring  
 9 when it would be required.  
 10 HEARING OFFICER:  
 11 Right.  
 12 ATTORNEY CLARK:  
 13 And I want to confirm through this  
 14 witness whether that was actually agreed at the  
 15 IEP meeting.  
 16 HEARING OFFICER:  
 17 Well, I think she answered that  
 18 question on Cross.  
 19 ATTORNEY CLARK:  
 20 She said they were the options.  
 21 HEARING OFFICER:  
 22 Well, she said they were the options.  
 23 And then on further questioning, when we were  
 24 referring to the page in the IEP, she said that a  
 25 meeting was not held.

Page 1063

1 ATTORNEY CLARK:  
 2 That was a different point.  
 3 HEARING OFFICER:  
 4 That's right. That's right. But it  
 5 goes to the same question. It goes to the  
 6 question you're asking, so it's all --- in my mind  
 7 it's all relevant testimony on the same point.  
 8 Let me ask this. Were you expecting a follow-up  
 9 meeting regarding additional sessions of Earobics,  
 10 you?  
 11 A. No. I understood it to be that everybody was  
 12 in agreement that the home version would work  
 13 because that would be done at home and that I  
 14 could monitor it.  
 15 ATTORNEY CLARK:  
 16 That answers my question. I have no  
 17 more questions.  
 18 HEARING OFFICER:  
 19 Okay. Any questions on Recross, Ms.  
 20 Husic?  
 21 ATTORNEY HUSIC:  
 22 Just one, very brief.  
 23 RE-CROSS EXAMINATION  
 24 BY ATTORNEY HUSIC:  
 25 Q. This is the first year you provided speech

18 (Pages 1060 to 1063)

Page 1064

1 services to George; correct?  
 2 A. Correct.  
 3 Q. So based upon you're not even completed with  
 4 the year, you really don't know if things or the  
 5 therapy or the progress he's making will really  
 6 last with him, do you?  
 7 A. I do not have any proof as of this date yet.  
 8 ATTORNEY HUSIC:  
 9 Thank you. I don't have anything  
 10 further.  
 11 ATTORNEY CLARK:  
 12 I have one more.  
 13 REDIRECT EXAMINATION  
 14 BY ATTORNEY CLARK:  
 15 Q. Do you have any proof that ---?  
 16 HEARING OFFICER:  
 17 Well, wait. No, no, no, no. There's  
 18 no such thing as Re-Redirect. No, no, no. Let me  
 19 see if I have any questions for you, Ms. Blazi.  
 20 HEARING OFFICER REVIEWS NOTES  
 21 HEARING OFFICER:  
 22 And it doesn't appear as if I do, so  
 23 I thank you for your participation. You are  
 24 excused.  
 25 A. Thank you.

Page 1065

1 HEARING OFFICER:  
 2 Let's go off the record.  
 3 OFF RECORD DISCUSSION  
 4 SHORT BREAK TAKEN  
 5 HEARING OFFICER:  
 6 Let's go on the record. We're on the  
 7 record at approximately ten minutes after 11:00  
 8 after a break and ready for the presentation of  
 9 the District's next witness. Who's in the witness  
 10 chair?  
 11 ATTORNEY CLARK:  
 12 The next witness is Holly Sawyer.  
 13 HEARING OFFICER:  
 14 Okay. Thank you. Ms. Sawyer, the  
 15 court reporter will swear you in at this time.  
 16 -----  
 17 HOLLY SAWYER, HAVING FIRST BEEN DULY SWORN,  
 18 TESTIFIED AS FOLLOWS:  
 19 -----  
 20 HEARING OFFICER:  
 21 And you, Ms. Sawyer, I know have been  
 22 here for every session, in attendance sitting at  
 23 counsel table with Mr. Clark, so I know you've  
 24 heard my instructions to multiple witnesses. I  
 25 won't repeat those, including the instructions I

Page 1066

1 gave to Ms. Blazi even this morning. Just bear  
 2 them in mind as you testify here. And if I or the  
 3 attorneys or the court reporter need to give you  
 4 instructions, we'll do so. So Mr. Clark will have  
 5 questions for you first.  
 6 DIRECT EXAMINATION  
 7 BY ATTORNEY CLARK:  
 8 Q. Would you state your name for the record,  
 9 please?  
 10 A. Holly Sawyer, S-A-W-Y-E-R.  
 11 Q. And your position?  
 12 A. Director of Special Education at Susquenita  
 13 School District.  
 14 Q. How long have you been in that position?  
 15 A. This is my third year, so I started July 1 of  
 16 2007.  
 17 Q. I want you to explain to the Hearing Officer  
 18 your educational history --- your educational  
 19 background, your degrees.  
 20 A. I received a Bachelor's degree in special  
 21 education from Lawrenceville University. I have a  
 22 Master's degree in special education from  
 23 Shippensburg University. I received my  
 24 Supervisory Certificate from Shippensburg  
 25 University. I am currently enrolled in

Page 1067

1 Shippensburg University's Superintendent's Letter  
 2 program. And I am also enrolled in a Widener  
 3 doctoral program in school systems leadership.  
 4 Q. How many credits do you have towards your  
 5 doctorate?  
 6 A. I have, I do believe, 30. I am completed with  
 7 my coursework in May, then I'll be moving into my  
 8 dissertation.  
 9 Q. And that degree will lead to a what?  
 10 A. To an educational doctorate.  
 11 Q. An Ed.D. or a Ph.D.?  
 12 A. Ed.D.  
 13 Q. Your Supervisory Certificate is in what area?  
 14 A. Special education.  
 15 Q. And do you have an Instructional Certificate  
 16 in any area?  
 17 A. Yes. It's in special education. And I also  
 18 have math, grades --- middle-level math, so it's  
 19 grades seven through nine.  
 20 Q. Now, explain your employment history --- or  
 21 describe your employment history.  
 22 A. I started at Susquenita School District in  
 23 March of 2001 as a special education teacher, and  
 24 I have been here --- and I changed roles, as I  
 25 stated, in July 1 of 2007 as the Director of

19 (Pages 1064 to 1067)

Page 1068

1 Special Education.  
 2 Q. Do you have any teaching experience prior to  
 3 coming to Susquenita?  
 4 A. No, just student teaching and those type of  
 5 things.  
 6 Q. How long have you known George?  
 7 A. I have known George since --- I think I met  
 8 him in sixth grade, and that was more on an  
 9 informal basis.  
 10 Q. Were you teaching in the middle school at that  
 11 time?  
 12 A. Yes.  
 13 Q. And what was your contact with George in that  
 14 period of time?  
 15 A. Just to say hi to him in the hall, just as a  
 16 middle-school student, because normally, you know,  
 17 a lot of students, so it's a very informal, you  
 18 know, hi type of thing.  
 19 Q. Did you have George as a student in your  
 20 class?  
 21 A. No.  
 22 Q. Did you have any contact with George in  
 23 seventh grade?  
 24 A. Yes. Again, on an informal basis. But more  
 25 formally, I was his case manager's mentor. So his

Page 1069

1 case manager at that time, Sheila Zelinski  
 2 (phonetic), was my mentee, if that makes sense.  
 3 She was a first-year teacher.  
 4 Q. So you were mentoring Ms. Zelinski?  
 5 A. Yes.  
 6 Q. And that was one of George's eighth-grade  
 7 teachers --- or his eighth-grade case manager?  
 8 A. Seventh-grade case manager.  
 9 Q. Seventh-grade case manager at this time. What  
 10 involvement did you have with in George in eighth  
 11 grade?  
 12 A. I was the Director of Special Education at  
 13 that time, so that was my involvement. And again,  
 14 I continuously, through this time --- I talked to  
 15 George on an informal basis, in the hallway, in  
 16 the classroom.  
 17 Q. Did you ever observe George in a classroom?  
 18 A. Yes.  
 19 Q. How frequently?  
 20 A. I wouldn't say it's set up that I go in and  
 21 observe George. Sometimes I observe the teachers  
 22 and he's in there. So that's happened since  
 23 seventh grade. So it's more informal. I don't  
 24 set out to observe him in class.  
 25 Q. But you were on George's IEP team at some

Page 1070

1 point in time?  
 2 A. Starting in grade eight.  
 3 Q. When George was in grade eight?  
 4 A. Yes.  
 5 Q. And have you been on his IEP team continuously  
 6 since then?  
 7 A. Yes.  
 8 (Parents' Exhibit 23 marked for  
 9 identification.)  
 10 BY ATTORNEY CLARK:  
 11 Q. I want you to turn your attention to P-23.  
 12 Did you take part in this IEP?  
 13 A. Yes, I did.  
 14 Q. And your signature is on page two of that  
 15 exhibit as Director of Special Education?  
 16 A. Yes, it is.  
 17 Q. Do you recall that IEP meeting?  
 18 A. Yes, I do.  
 19 Q. I want to ask you some questions about --- I  
 20 want to start with the reading goal. What was  
 21 George's reading goal at that point in time?  
 22 A. On page seven I said given a passage at the  
 23 fifth-grade level, George can orally read at a  
 24 range of 120 words correct per minute with 95  
 25 percent accuracy.

Page 1071

1 Q. Is that an appropriate goal for George?  
 2 A. Yes.  
 3 Q. Why?  
 4 A. The IEP team agreed that it was an appropriate  
 5 goal, and also it was something that would be  
 6 obtainable within a year's time ---  
 7 Q. What do you mean ---?  
 8 A. --- or that was what the IEP team felt would  
 9 be reasonable for George to achieve.  
 10 Q. Now, you were present for the testimony of Mr.  
 11 Klein?  
 12 A. Yes.  
 13 Q. And you heard his criticism about George  
 14 having a fifth-grade goal when he was in eighth  
 15 grade?  
 16 A. Correct.  
 17 Q. Do you agree with his assessment that that's  
 18 an inappropriate goal for George?  
 19 A. I would have to disagree.  
 20 Q. Why?  
 21 A. Based on George's progress, based on the  
 22 information provided from his special education  
 23 teachers that were also members of the team, this  
 24 was an appropriate goal, as agreed by the IEP  
 25 team.

20 (Pages 1068 to 1071)

Page 1072

1 Q. What benefit would George have gotten if his  
2 reading range --- the goal for his reading range  
3 had been higher, higher than 120 words per minute?  
4 A. He would not be able to obtain that, could  
5 potentially be frustrated if we tried to move him  
6 quickly. So this was based on previous progress  
7 on previous IEPs.  
8 Q. Was there any disagreement from Mrs. Peiffer,  
9 the family, that this was an inappropriate goal  
10 for George?  
11 A. No.  
12 Q. You were present for the discussion about an  
13 SDI for George in eighth grade, this IEP?  
14 A. Yes.  
15 Q. What was the focus of the SDI for George in  
16 the eighth grade?  
17 A. To make sure that we were doing accommodations  
18 and modifications to meet his needs in the  
19 educational setting, to make sure that he makes  
20 progress on his goals.  
21 Q. Did you see evidence that that was occurring?  
22 A. Yes.  
23 Q. Now, you heard the testimony of Mr. Klein?  
24 A. Yes.  
25 Q. You saw his report?

Page 1073

1 A. Yes.  
2 Q. And on page 16 of this report I'll read you a  
3 sentence.  
4 HEARING OFFICER:  
5 What exhibit are you in?  
6 ATTORNEY CLARK:  
7 P-2. Sorry.  
8 HEARING OFFICER:  
9 Page what?  
10 ATTORNEY CLARK:  
11 Page 16.  
12 (Parents' Exhibit Two marked for  
13 identification.)  
14 BY ATTORNEY CLARK:  
15 Q. George's eighth-grade IEP developed on October  
16 15th, 2007 is notably devoid of a transition plan,  
17 even though George was 14 years old at the time  
18 that this was written, Pennsylvania clarified the  
19 discrepancy with IDEA. Do you agree or disagree  
20 with that sentence?  
21 A. I would disagree. Under the IEP that we were  
22 just on, which is on page three, it does have  
23 transition services, and it's at level because he  
24 just turned 14. We're aware --- the IEP team  
25 specifically is aware that transition planning is

Page 1074

1 going to occur, and more specifically in the  
2 future, and especially more in-depth as he gets to  
3 age 16.  
4 Q. When this document was created on October 5th,  
5 2007, what were you required to do for George at  
6 that time, as a 14 year old?  
7 A. Indicate that transition services were  
8 available.  
9 Q. Was a transition plan required to be put in  
10 place for George at that moment in time?  
11 A. No.  
12 Q. Was there a discussion in this IEP about  
13 providing assistive technology for George?  
14 A. Not that I recall.  
15 Q. Were you present for a discussion about using  
16 the FM modulator for George?  
17 A. Yes.  
18 Q. What occurred in that discussion?  
19 A. In this discussion Nicole Cutman ---.  
20 ATTORNEY HUSIC:  
21 Hold on. I'm going to raise an  
22 objection. First of all, we --- this witness has  
23 not established the foundation of where the  
24 discussion took place. Nicole Cutman was an  
25 individual that was X'd out as testifying because

Page 1075

1 she was not properly disclosed, and this appears  
2 to be a way to get in a witness' testimony which  
3 is hearsay. I certainly cannot cross examine the  
4 witness. And you know, if we have a specific  
5 discussion regarding an IEP meeting where this was  
6 discussed, I'd like to see a reference as an offer  
7 of proof.  
8 HEARING OFFICER:  
9 Well, first, I heard the question in  
10 terms of at the IEP meeting; is that correct?  
11 ATTORNEY CLARK:  
12 That was the question.  
13 HEARING OFFICER:  
14 Okay. So I think that it isn't  
15 within the context of the meeting, at least as  
16 asked. So in that regard I will --- I'll overrule  
17 the objection. She can testify to what she  
18 recalls the conversations were at the IEP meeting  
19 about certain matters. You can answer the  
20 question.  
21 A. We did discuss the FM system. I do remember  
22 Mrs. Peiffer specifically stating that in the  
23 previous years he had used an FM system. It is  
24 not in the SDIs. I don't remember saying it was  
25 supposed to be in the SDIs and it was not. The

21 (Pages 1072 to 1075)

Page 1076

Page 1078

1 other assistive technology ---  
 2 BRIEF INTERRUPTION  
 3 A. --- was the issue of a computer at home.  
 4 BY ATTORNEY CLARK:  
 5 Q. Was the FM modulator discussed at this IEP  
 6 meeting?  
 7 A. Yes.  
 8 Q. And what was the outcome of the discussion?  
 9 A. We did not include it in the IEP.  
 10 Q. And why?  
 11 A. Because the IEP team felt it was not  
 12 appropriate.  
 13 Q. And why was it not appropriate?  
 14 A. From my recollection of the IEP team meeting,  
 15 because George did not use it.  
 16 Q. And why did George not use it?  
 17 A. George left it in his locker. George would  
 18 have to be given reminders to use it. When his  
 19 teachers talked about it, they said they would  
 20 remind him to go to his locker to get it. I know  
 21 on one occasion the teacher said she would have to  
 22 go over and ensure that it was on because he  
 23 wouldn't turn it on. So it was left in his locker  
 24 more than it was used.  
 25 Q. With regard to an extended school year

1 not have an issue with regression or recoupment of  
 2 skills that were lost over an extended break in  
 3 educational services.  
 4 Q. The suggestion if not the argument that was  
 5 made in the presentation of the Parent's case that  
 6 George's scores on the Gray Oral Reading Test were  
 7 indicative of regression, do you agree or disagree  
 8 with such a characterization?  
 9 ATTORNEY HUSIC:  
 10 I'm sorry. Could you repeat that?  
 11 Indicative of?  
 12 ATTORNEY CLARK:  
 13 Of regression.  
 14 A. Specifically on the Gray Oral Reading Test,  
 15 no. He would have been given two different read  
 16 forms of the GORT. It has a Form A and Form B.  
 17 And those scores --- it's a one-time score on a  
 18 diagnostic test. So we look at progress on goals  
 19 more than we look at the results on a GORT. It's  
 20 just one piece of the information that we use in  
 21 order to program educationally a student.  
 22 BY ATTORNEY CLARK:  
 23 Q. The GORT is administered over how many days?  
 24 A. One.  
 25 Q. Per year?

Page 1077

Page 1079

1 program, what was the discussion in this IEP  
 2 meeting about providing George with an extended  
 3 school year program?  
 4 A. Specifically that George does not routinely  
 5 lose skills after breaks in educational  
 6 programming, which would be the regression or the  
 7 recoupment of the skills that he has already  
 8 learned. And ESY is based on progress on his  
 9 goals. That progress leads to a discussion about  
 10 ESY services.  
 11 Q. But there are other factors that are  
 12 considered?  
 13 A. Yes. There's other factors, yes.  
 14 Q. Was there a determination of the seven ---  
 15 what was the conclusion as far as the seven  
 16 factors that were concerned with George?  
 17 A. That he did not qualify for extended school  
 18 year services.  
 19 Q. What evidence did the team consider in  
 20 reaching that conclusion?  
 21 A. We looked at progress reports from the  
 22 previous IEP and his progress over an extended  
 23 break, such as Christmas, also summer.  
 24 Q. What did progress indicate?  
 25 A. That he made continual progress, that he did

1 A. Yes.  
 2 Q. Did Mrs. Peiffer present any evidence to the  
 3 team that George's regression or lack of retention  
 4 warranted an extended school year program?  
 5 ATTORNEY HUSIC:  
 6 I'm going to raise an objection. The  
 7 onus is not on the Parent to present evidence to  
 8 the IEP team to indicate regression or a  
 9 recoupment.  
 10 ATTORNEY CLARK:  
 11 I'll rephrase the question.  
 12 BY ATTORNEY CLARK:  
 13 Q. Did anybody in the IEP team present evidence  
 14 that George had regressed or needed additional  
 15 time for recoupment of materials learned?  
 16 A. No.  
 17 Q. With regard to occupational therapy, what was  
 18 the standard that the team was operating to  
 19 determine whether or not George needed  
 20 occupational therapy?  
 21 A. That standard is based on handwriting skills  
 22 and whether the handwriting is legible or not.  
 23 Q. What was the conclusion?  
 24 A. That his handwriting was legible.  
 25 Q. And that was determined by whom?

22 (Pages 1076 to 1079)

Page 1080

1 A. The IEP team.  
 2 Q. And who was it legible to?  
 3 A. His teachers.  
 4 Q. You heard the testimony from Mrs. Peiffer  
 5 about the Corrective Reading; yes?  
 6 A. Yes.  
 7 Q. What is Corrective Reading?  
 8 A. Corrective Reading is a reading program from  
 9 SRA, and it's a type of program that takes into  
 10 account decoding and also comprehension. But it's  
 11 a program that is followed strictly and has a  
 12 manual that says the teacher says this, the  
 13 teacher does this, the student says this, if the  
 14 student doesn't say this you go back. So it's a  
 15 program. It's a reading company program.  
 16 Q. How are the results of Corrective Reading  
 17 reported back to Mrs. Peiffer?  
 18 A. They are reported back normally through  
 19 fluency checks. We take into account the skills  
 20 that they learn on the Corrective Reading and how  
 21 they are applied across curriculum. So we look at  
 22 the fluency as measured on AIMSweb probes, which  
 23 are just paragraph reading, and we measure that  
 24 within a minute, how many words they can read  
 25 accurately in a minute.

Page 1081

1 Q. Was Corrective Reading made a part of George's  
 2 IEP?  
 3 A. Yes.  
 4 Q. And where is that reflected in this exhibit?  
 5 A. I don't see it specifically stated in the IEP.  
 6 Q. Was it specifically discussed at the IEP  
 7 meeting?  
 8 A. I don't personally recall.  
 9 ATTORNEY HUSIC:  
 10 I'm going to raise an objection.  
 11 This witness just testified about how the results  
 12 were reported back and how the probes were used  
 13 insofar as determining results of the Corrective  
 14 Reading. I would just like to have it noted for  
 15 the record after she indicated that it was a part  
 16 of it now cannot recall or find it in the IEP  
 17 itself.  
 18 HEARING OFFICER:  
 19 Well, to the extent that --- the  
 20 testimony of the witness will stand as given. I  
 21 mean, there was testimony about recollection and  
 22 then taking us to the IEP. So they're, in a  
 23 sense, two separate processes.  
 24 ATTORNEY HUSIC:  
 25 Well, that's fine.

Page 1082

1 HEARING OFFICER:  
 2 Yes. But I mean --- so nothing will  
 3 be stricken from the record, ---  
 4 ATTORNEY HUSIC:  
 5 That's fine.  
 6 HEARING OFFICER:  
 7 --- and the record will speak for  
 8 itself.  
 9 BY ATTORNEY CLARK:  
 10 Q. Now, at the time the eighth-grade IEP was  
 11 written for George, was George identified as  
 12 learning disabled in math?  
 13 A. No.  
 14 Q. Was there a discussion at the IEP meeting that  
 15 he should be identified as learning disabled in  
 16 math?  
 17 A. No.  
 18 HEARING OFFICER:  
 19 What was your answer? I'm sorry.  
 20 A. No.  
 21 BY ATTORNEY CLARK:  
 22 Q. Through eighth grade, were you familiar with  
 23 any allegations of behavioral issues that affected  
 24 George in school?  
 25 A. No.

Page 1083

1 Q. Through eighth grade, were you aware of any  
 2 issues of potential or suspected ADHD for George?  
 3 A. No.  
 4 Q. Did you participate in George's ninth-grade  
 5 program?  
 6 A. Yes.  
 7 (Parents' Exhibit 31 marked for  
 8 identification.)  
 9 BY ATTORNEY CLARK:  
 10 Q. I need you to turn to Exhibit P-31, I believe  
 11 it is. Is your signature on page two of this  
 12 Exhibit P-31?  
 13 A. Yes, it is.  
 14 Q. And you're crossed out there as the local ed  
 15 agency rep?  
 16 A. Yes.  
 17 Q. And this meeting took place when?  
 18 A. Thursday, October 2nd, 2008.  
 19 Q. What can you tell us about George's reading  
 20 goal in this IEP?  
 21 A. Thirteen (13). He was given a reading passage  
 22 at the eighth-grade level, read 100 words in one  
 23 minute three consecutive times. The timed reading  
 24 words five lines.  
 25 Q. Now, why is that goal different from the goal

23 (Pages 1080 to 1083)

Page 1084

1 in the prior year?  
 2 A. It is based on information from the previous  
 3 year. It's based on his progress towards his  
 4 goal.  
 5 Q. Why was George's goal not 120 words per  
 6 minute?  
 7 A. Because it was determined at the IEP team  
 8 meeting that this goal would be appropriate and he  
 9 would be able to accomplish that within a year's  
 10 time.  
 11 Q. I want to turn your attention to page five of  
 12 the exhibit. Under the heading present levels of  
 13 academic achievement and functional  
 14 performance ---  
 15 A. Yes.  
 16 Q. --- there is a table that's pasted at the  
 17 bottom of that page. Do you see that?  
 18 A. Yes.  
 19 Q. What is it and why is it there?  
 20 A. It is a copy and pasted page from our power  
 21 School and it is shown --- it gives the grade as  
 22 of a certain date and time so that we can discuss  
 23 those grades at the IEP meeting and his present  
 24 levels.  
 25 Q. And did the class that George was taking at

Page 1085

1 that point in time come to change?  
 2 A. Yes.  
 3 Q. Why?  
 4 A. Because it was determined that there were  
 5 parts of the curriculum that needed to be in his  
 6 schedule that were excluded.  
 7 Q. And what were those parts that were required  
 8 to be in his schedule?  
 9 A. Standards English and Standards Math.  
 10 Q. What is Standards English and Standards Math?  
 11 A. They are remedial courses to address the  
 12 reading and math needs of students that are  
 13 scoring either basic or below basic on the PSSAs.  
 14 Q. And what qualifies a student to take Standards  
 15 Math or Standards English?  
 16 A. They would have to score below proficient on  
 17 the previous year's PSSAs.  
 18 Q. Did that include George?  
 19 A. Yes.  
 20 Q. When was it discovered then George should be  
 21 taking the Standards English and Standards Math?  
 22 A. I don't remember the specific date, but I do  
 23 know it was after this IEP meeting. I do believe  
 24 it was in October sometime.  
 25 Q. And how was this communicated to George's

Page 1086

1 family?  
 2 A. All parents got a letter stating that this was  
 3 --- this scheduling change was going to occur, the  
 4 classes needed to be added to his schedule. We  
 5 offered an open meeting with Doctor Jones, the  
 6 high school principal, Doctor Sheats, the  
 7 superintendent, and myself in attendance at that  
 8 meeting so the Parents could discuss any issues.  
 9 Also, George's case manager, Matthew Bingaman,  
 10 telephoned Mrs. Peiffer.  
 11 Q. Now, the meeting with Doctor Sheats, Doctor  
 12 Jones, did that occur --- what time of day did  
 13 that occur?  
 14 A. That was in the evening.  
 15 Q. Did you attend the meeting?  
 16 A. Yes.  
 17 Q. Were the Peiffers in attendance?  
 18 A. No.  
 19 Q. Was there a meeting that occurred with the  
 20 Peiffers ---  
 21 A. Yes.  
 22 Q. --- in regard to the Standards English and  
 23 Standards Math?  
 24 A. Yes.  
 25 Q. And when did that take place?

Page 1087

1 A. Again, I don't remember the exact date, but I  
 2 think it was sometime in November, before  
 3 Thanksgiving.  
 4 Q. Was that before or after the group meeting  
 5 that Doctor Sheats and Doctor Jones and you held  
 6 with other parents?  
 7 A. That was after.  
 8 Q. Now, you heard Mrs. Peiffer's testimony about  
 9 George and typing?  
 10 A. Yes.  
 11 Q. And you heard Mrs. Peiffer's testimony about  
 12 George and the resource period at the end of his  
 13 day in ninth grade?  
 14 A. Correct.  
 15 Q. I want to ask you, first of all, about typing.  
 16 To the extent that she stated or suggested that  
 17 high school was the place where there was some  
 18 agreement that George would get typing, do you  
 19 agree or disagree with that characterization?  
 20 A. Can you restate that?  
 21 Q. Sure. With regard to her suggestion or her  
 22 allegation that there was an agreement that high  
 23 school was the place where George was going to get  
 24 typing, do you agree or disagree with that such a  
 25 characterization?

24 (Pages 1084 to 1087)

Page 1088

1 A. I would have to disagree based on I don't know  
 2 what her understanding and what specific courses  
 3 she was talking about with typing. I do know that  
 4 in previous IEPs it discussed typing. And I also  
 5 know that in middle school they taught the home  
 6 row typing through --- they were called specials,  
 7 computer classes. So I do know that they learned  
 8 those kind of skills. But as to her understanding  
 9 about a course specifically just for typing, I do  
 10 not know. I can't answer that.  
 11 Q. What do you know about the typing that's  
 12 provided in the middle school, the typing  
 13 instructions in the middle school?  
 14 A. Every year from grades five through eight they  
 15 have a half-semester of computer class within  
 16 their specials. And in that class they teach the  
 17 home row, they teach typing, they do those kind of  
 18 skills, the games that they have with typing and  
 19 how fast you can --- how many words per minute you  
 20 can type. They do those type of skills in the  
 21 middle school.  
 22 Q. Was George in those classes?  
 23 A. In order to be a middle school student at  
 24 Susquenita you had to take half a year of  
 25 computer, so I would say yes.

Page 1089

1 Q. Did you say anything to Mrs. Peiffer prior to,  
 2 say, the ninth-grade IEP meeting that intended to  
 3 foster an impression that George would be finally  
 4 getting the typing instruction in ninth grade?  
 5 A. I don't recall myself saying that to her.  
 6 Q. Was there a discussion where that  
 7 understanding was communicated to Mrs. Peiffer,  
 8 again, prior to the ninth-grade IEP meeting?  
 9 A. In my presence?  
 10 Q. Yes, in your presence.  
 11 A. In my presence, no.  
 12 Q. Have you made any casual observations of  
 13 George at a keyboard?  
 14 A. Yes.  
 15 Q. In what settings?  
 16 A. I saw him in his Standards Math class and he  
 17 was on the computer, typing. I remember observing  
 18 him do that. I was actually looking over his  
 19 shoulder to see what he was doing.  
 20 Q. What are your impressions of him as a typist?  
 21 A. He was doing fine. By fine I mean, he wasn't  
 22 necessarily on the home row keys, but he was  
 23 typing.  
 24 Q. Let me ask you some questions about the  
 25 resource class. You heard Mrs. Peiffer testify

Page 1090

1 about an understanding that the final period of  
 2 the day for George would be a resource period  
 3 which he would be given the opportunity to  
 4 organize his work before he went home. You heard  
 5 that testimony?  
 6 A. Yes.  
 7 Q. Do you agree or disagree with the  
 8 characterization?  
 9 A. That he would be provided with that period?  
 10 Q. Yes.  
 11 A. Yes.  
 12 Q. And what was the understanding that you were  
 13 attempting to convey in that conversation?  
 14 A. That he would have --- that we would try in  
 15 his ninth-grade year to provide a period or a  
 16 period of time at the end of the day in order for  
 17 him to organize, get his agenda, make sure that he  
 18 has all his work with him when he went home.  
 19 Q. And that discussion took place when?  
 20 A. If I remember correctly, it was the end of his  
 21 eighth-grade year, and actually Mr. Peiffer was in  
 22 attendance. Mrs. Peiffer had surgery, and we  
 23 discussed the need for George to have that time in  
 24 order to organize himself or his homework.  
 25 Q. Now, after the discovery was made that

Page 1091

1 Standards English and Standards Math were not  
 2 being provided to George, how were those classes  
 3 fit into George's schedule?  
 4 A. We fit the first one into his Computer Apps  
 5 course at the beginning of the day, and we fit the  
 6 Standards Math at the end of the day.  
 7 Q. And what was the content of Standards English?  
 8 A. The content of Standards English would be to  
 9 provide additional reading, comprehension, those  
 10 type of skills during that period.  
 11 Q. Where did that instruction take place?  
 12 A. That was in the computer room at the high  
 13 school.  
 14 Q. Was it the same place or a different place  
 15 where George had been taking his Computer  
 16 Applications class?  
 17 A. It was the same classroom.  
 18 Q. How did the Standards English material relate  
 19 to George's IEP?  
 20 A. We followed the SDIs within his IEP.  
 21 Q. In what way?  
 22 A. We provided the accommodations, any notes,  
 23 those type of accommodations within the class. We  
 24 also provided the small-group instruction that he  
 25 would need within that classroom because it was a

25 (Pages 1088 to 1091)

Page 1092

1 co-taught classroom with Mr. Ferry and Mrs. Ruel.  
 2 Q. Mr. Ferry was the instructor who was  
 3 originally going to be providing the Computer  
 4 Applications class?  
 5 A. Correct.  
 6 Q. And he was still in that classroom?  
 7 A. Yes, he was.  
 8 Q. And Ms. Ruel was his special education English  
 9 teacher?  
 10 A. Correct.  
 11 Q. Was she already in the Computer Applications  
 12 class to begin with?  
 13 A. Yes.  
 14 Q. You heard the testimony of Mrs. Peiffer to the  
 15 extent that she said that during the Standards  
 16 class George was placed in front of a computer and  
 17 was learning, quote, baby stuff. Do you agree or  
 18 disagree with that characterization?  
 19 A. I disagree.  
 20 Q. Why?  
 21 A. George, at that time, was getting instruction,  
 22 kind of a two-pronged approach. He would be  
 23 pulled back with Ms. Ruel and he would get that  
 24 small-group instruction during that time for the  
 25 reading and the comprehension and his English

Page 1093

1 skills. He also had the opportunity to work on  
 2 the computer, and they were working on a Keys to  
 3 Work program, which is based on the Pennsylvania  
 4 State Academic Standards and also on transition  
 5 services.  
 6 Q. Now, how do the Keys to Work program relate to  
 7 the PSSAs?  
 8 A. The Keys to Work program offers a reading and  
 9 math component that are strictly adhered to with  
 10 the standards for Pennsylvania.  
 11 Q. What do you mean adheres to the standards for  
 12 Pennsylvania?  
 13 A. The course --- how it's laid out, the students  
 14 take a pretest. They determine where they are  
 15 within the standards, and then it provides  
 16 different opportunities for them to obtain skills  
 17 in their Standards areas.  
 18 Q. And George, by the way, was in Standards  
 19 English, because he was tested at what level?  
 20 A. On the PSSAs?  
 21 Q. On the PSSAs, I'm sorry.  
 22 A. Below basic.  
 23 Q. And students who were basic and below basic  
 24 were taking the Standards English class?  
 25 A. Correct.

Page 1094

1 Q. You described this as small-group instruction.  
 2 What size was this class?  
 3 A. The class itself, if I remember correctly, it  
 4 had about 18, 19, 20 students in that class.  
 5 However, it had two teachers. And Mrs. Ruel would  
 6 pull them to the back and normally that would be  
 7 two, three, four kids at a time.  
 8 Q. What was the content of Standards Math?  
 9 A. Standards Math, the content was, again, the  
 10 standards --- the Pennsylvania State Standards for  
 11 mathematics.  
 12 Q. And how was it taught?  
 13 A. Mr. Umbrow, who was a special education  
 14 teacher, taught that course. He was also  
 15 certified to teach high school math. So he taught  
 16 the course. He taught it based on the  
 17 Pennsylvania Standards.  
 18 Q. And again, you heard Mrs. Peiffer's testimony  
 19 that in that class George was sitting in front of  
 20 the computer learning baby stuff. Do you agree or  
 21 disagree with that characterization as it pertains  
 22 to Standards Math?  
 23 A. I disagree.  
 24 Q. Why?  
 25 A. I did observe George in that class on one

Page 1095

1 occasion that I can recall. Within that class he  
 2 was with Mr. Umbrow. They were going over math  
 3 standards information. I actually asked Mr.  
 4 Umbrow after he was done with George what they  
 5 were specifically working on, and he stated that  
 6 it was a particular standard, I can't recall now,  
 7 and that George was doing very well with it. He  
 8 was just doing the repetition and review-type  
 9 portion.  
 10 Q. Was there any allowance made within the  
 11 standards --- what period of the day was the  
 12 Standards Math class?  
 13 A. It was the last period of the day.  
 14 Q. Was there allowance made within that class for  
 15 giving George an opportunity to organize his day?  
 16 A. Yes.  
 17 Q. How?  
 18 A. It was either at the beginning or the end of  
 19 the period, depending on how the period was  
 20 structured, but we made sure that he had time in  
 21 order to get his agenda, to ask any teachers if he  
 22 missed any work, to get his homework, to get his  
 23 folders ready, those type of things, to go home.  
 24 Q. Now, what was it that qualified or made George  
 25 eligible for the Standards Math class?

26 (Pages 1092 to 1095)

Page 1096

1 A. He would have to score basic or below basic on  
 2 the PSSAs. George actually scored below basic.  
 3 Q. Now, I want to go back again. In ninth grade,  
 4 what math class was George taking?  
 5 A. George was taking algebra.  
 6 Q. And why was George taking algebra?  
 7 A. That was the recommendation of his  
 8 eighth-grade teachers. So when they move up to  
 9 ninth grade, normally the teachers recommend  
 10 certain courses, and that was the course  
 11 recommended for him.  
 12 Q. Is algebra a ninth-grade math class?  
 13 A. Yes.  
 14 Q. And at what level was George taking?  
 15 Q. He was at the basic algebra.  
 16 Q. Was there any information known to the IEP  
 17 team that this would be an inappropriate level for  
 18 George?  
 19 A. No.  
 20 Q. Was there a concern raised at the IEP meeting  
 21 that this would be over George's head?  
 22 A. No.  
 23 Q. Did George have any prior exposure to algebra  
 24 before ninth grade?  
 25 A. I would have to look at his eighth-grade

Page 1097

1 schedule, but normally eighth grade they have  
 2 pre-algebra.  
 3 Q. Do you know whether George had taken that  
 4 pre-algebra class?  
 5 A. Yes, he would have.  
 6 Q. Was there a discussion in the creation of the  
 7 ninth-grade IEP about an extended school year  
 8 program?  
 9 A. Yes.  
 10 Q. What was the discussion?  
 11 A. Again, the discussion would have revolved  
 12 around the seven criteria for eligibility of  
 13 extended school year. And actually, if you look  
 14 on page 17 it indicates there the factors to  
 15 determine ESY. And mainly when I started as  
 16 Director of Special Education I asked that all  
 17 teachers would put these in so that the IEP team  
 18 could discuss those.  
 19 Q. Were these elements discussed at the IEP  
 20 meeting?  
 21 A. Yes.  
 22 Q. What was the conclusion?  
 23 A. That based on his progress he was not  
 24 eligible.  
 25 Q. What was the evidence that was used to

Page 1098

1 determine that?  
 2 A. His disability category, his progress on his  
 3 goals, the recoupment and regression of  
 4 information, whether or not the interruption in  
 5 the goal would, in fact, disrupt the goal itself.  
 6 Q. What do you mean by that?  
 7 A. Such as a life skills kind of goal that they  
 8 need to --- I don't know if I'm explaining it  
 9 correctly, that they need to continue with that  
 10 goal during extended breaks because it's something  
 11 that impacts their life so severely that they need  
 12 that type of intensity in their programming.  
 13 Q. And what was the conclusion?  
 14 A. That George did not have that. That was not a  
 15 factor.  
 16 Q. Was there a provision in this IEP for a  
 17 transition plan?  
 18 A. Yes.  
 19 Q. Where would that be?  
 20 A. That would be on page --- it starts on page  
 21 nine, the language about transition services and  
 22 then continues in more specifics on page ten.  
 23 Q. And what was the goal with transition planning  
 24 for George as to ninth grade?  
 25 A. The IEP team discussed his interest in

Page 1099

1 vo-tech, his interest as employment as an auto  
 2 mechanic and making sure that that was available  
 3 so that he was able to put in applications for  
 4 vo-tech.  
 5 Q. Did the re-evaluation process take place for  
 6 George during ninth grade?  
 7 A. Yes.  
 8 Q. Was there a request for re-evaluation after  
 9 the IEP was written for George?  
 10 A. No.  
 11 Q. When did that occur?  
 12 A. The re-evaluation occurred early September.  
 13 Q. And what happened with the re-evaluation?  
 14 A. The District and the Parent decided to waive  
 15 the re-evaluation.  
 16 Q. Was there further evaluation that was  
 17 conducted of George after the re-evaluation was  
 18 waived?  
 19 A. In ninth grade?  
 20 Q. In ninth grade.  
 21 A. Yes.  
 22 Q. What brought that about?  
 23 A. In ninth grade? Mrs. Peiffer requested a  
 24 neuropsychological evaluation, so we put that ---  
 25 or we tried to put that into place and to get that

27 (Pages 1096 to 1099)

Page 1100	Page 1102
<p>1 scheduled.</p> <p>2 Q. Did the District schedule a neuropsychologic?</p> <p>3 A. Yes.</p> <p>4 Q. Did the District have a provider?</p> <p>5 A. No.</p> <p>6 Q. What did you do to attempt to coordinate a</p> <p>7 neuropsychological?</p> <p>8 A. I actually had discussions with Doctor Sheats,</p> <p>9 our superintendent, because I know he is more</p> <p>10 familiar with psychologists within the area in</p> <p>11 order to schedule something.</p> <p>12 Q. And were you able to locate one?</p> <p>13 A. No.</p> <p>14 Q. When and how was a neuropsychologist located?</p> <p>15 A. I discussed it with Mrs. Peiffer and I do</p> <p>16 believe Mrs. Husic provided the name of a</p> <p>17 psychologist?</p> <p>18 A. And that would be Doctor Grisolano?</p> <p>19 Q. Correct.</p> <p>20 Q. And the District agreed to a</p> <p>21 neuropsychological evaluation by Doctor Grisolano?</p> <p>22 A. Correct.</p> <p>23 Q. Let me go back to that for a moment. Was</p> <p>24 there any other testing that was agreed to be</p> <p>25 conducted on George?</p>	<p>1 Q. Now, what prompted the speech and language</p> <p>2 evaluation that was done by the District?</p> <p>3 A. When Mrs. Peiffer asked the District to do a</p> <p>4 re-evaluation, we recommended a psychological ---</p> <p>5 a speech and language evaluation and also an</p> <p>6 occupational therapy evaluation.</p> <p>7 Q. So who did the psychological evaluation?</p> <p>8 A. Brooke Yellets.</p> <p>9 Q. And she's the District psychologist?</p> <p>10 A. She is a Licensed School Psychologist.</p> <p>11 Q. Who did the speech and language evaluation?</p> <p>12 A. Becky Blazi.</p> <p>13 Q. And who did the occupational therapy</p> <p>14 evaluation?</p> <p>15 A. Heidi Metzge (phonetic).</p> <p>16 Q. Is she a District employee?</p> <p>17 A. No. She is employed by TherAbilities, the</p> <p>18 same agency as Ms. Blazi works for.</p> <p>19 Q. Now, describe the process through which all of</p> <p>20 this information was pulled together?</p> <p>21 A. This was all pulled together within a</p> <p>22 re-evaluation report. And we had --- Mrs. Peiffer</p> <p>23 asked for a re-evaluation by the District, so we</p> <p>24 had 60 days in order to complete that. So that's</p> <p>25 when I put in all the people that, the</p>
Page 1101	Page 1103
<p>1 A. Yes. We agreed for a psychiatric evaluation.</p> <p>2 Q. And who did that?</p> <p>3 A. Doctor Krecko.</p> <p>4 Q. Was that an independent evaluation?</p> <p>5 A. Yes.</p> <p>6 Q. And who located Doctor Krecko?</p> <p>7 A. Mrs. Husic.</p> <p>8 Q. Did the District agree to fund or pay for</p> <p>9 Doctor Krecko's evaluation?</p> <p>10 A. Yes.</p> <p>11 Q. Was there any other testing that was done?</p> <p>12 A. Independently?</p> <p>13 Q. Any way.</p> <p>14 A. Yes.</p> <p>15 Q. What?</p> <p>16 A. We were made aware that Mr. Klein wanted to</p> <p>17 come in and observe George during a day, so there</p> <p>18 was that evaluation. And there was also an</p> <p>19 independent speech/language evaluation completed.</p> <p>20 Q. Was there a speech and language evaluation</p> <p>21 that was done by the District?</p> <p>22 A. Yes.</p> <p>23 Q. Was there psychological testing that was done</p> <p>24 by the District?</p> <p>25 A. Yes.</p>	<p>1 psychological, speech and language and OT.</p> <p>2 Q. I want you to turn to Exhibit P-37. This is</p> <p>3 the re-evaluation report dated 4/3/09; correct?</p> <p>4 A. Yes.</p> <p>5 Q. Is that the date that the re-evaluation report</p> <p>6 was assembled?</p> <p>7 A. Yes.</p> <p>8 Q. And you mentioned a moment ago a deadline?</p> <p>9 A. Yes.</p> <p>10 Q. What was your deadline?</p> <p>11 A. Sixty (60) days from consent of parent.</p> <p>12 Q. How did April 3, 2009 match up with that</p> <p>13 deadline?</p> <p>14 A. It was within the 60 days.</p> <p>15 Q. At that point in time, did you have the report</p> <p>16 in your hands from Doctor Grisolano?</p> <p>17 A. No.</p> <p>18 Q. Did you have the report in your hand from</p> <p>19 Doctor Krecko?</p> <p>20 A. Yes.</p> <p>21 Q. Did you have the report in your hand from Ms.</p> <p>22 Goepfert?</p> <p>23 A. Yes.</p> <p>24 Q. Now, with regard to the Grisolano report, was</p> <p>25 it considered in this re-evaluation report?</p>

28 (Pages 1100 to 1103)

Page 1104

1 A. Yes.  
 2 Q. In what way?  
 3 A. We had an incomplete report from Doctor  
 4 Grisolano at this period of time, as reported to  
 5 the Parent, so we took those recommendations into  
 6 consideration. But she was doing more testing and  
 7 would not have the full report to us by this time.  
 8 Q. When did you get the full report?  
 9 A. At the IEP meeting that went along with this  
 10 re-evaluation report at the end of April.  
 11 Q. So you didn't have it in time for the RR, but  
 12 you did have it in time for the IEP meeting?  
 13 A. I received it from Mrs. Peiffer at the  
 14 beginning of the IEP meeting.  
 15 Q. What do you mean by at the beginning of the  
 16 IEP meeting?  
 17 A. She stated that she had received the full copy  
 18 and I told her that we did not --- the School  
 19 District did not receive that. It did not come to  
 20 my office. And I actually took her copy and made  
 21 a copy.  
 22 Q. And this was actually at the IEP meeting  
 23 itself?  
 24 A. Yes.  
 25 Q. And what was the date of the IEP meeting?

Page 1105

1 A. April 29th.  
 2 Q. Now, you were present for Doctor Grisolano's  
 3 testimony?  
 4 A. Yes.  
 5 Q. You heard her testify about her opinion about  
 6 whether George has ADHD?  
 7 A. Yes.  
 8 Q. Were her findings discussed in the RR, not in  
 9 the IEP but in the RR?  
 10 A. Yes, they were.  
 11 Q. And were those findings considered in the RR?  
 12 A. Yes.  
 13 Q. And were they accepted or not accepted?  
 14 A. They were not accepted.  
 15 Q. On what basis?  
 16 A. The teachers did not report any ADHD,  
 17 inattentive type. Actually, in Mrs. Peiffer's  
 18 report it was the clinically significant portion  
 19 of that report. And also it was in the report  
 20 that we had at this time that they recommended a  
 21 trial of medications. And obviously in an  
 22 education setting, you don't --- you cannot do  
 23 that. So we did not take that into account. We  
 24 considered it.  
 25 Q. Was that information available to the team at

Page 1106

1 the time the RR was put together?  
 2 A. We had a preliminary report, and I do believe  
 3 one of the things that she had said was that she  
 4 identified ADHD, inattentive type.  
 5 Q. Now, you heard her testimony about her belief  
 6 that George suffers from anxiety? Yes?  
 7 A. Yes.  
 8 Q. Was that considered at the RR?  
 9 A. Yes.  
 10 Q. And what conclusion did the team make as far  
 11 as anxiety in the RR?  
 12 A. The teachers did not see anxiety as impacting  
 13 his educational progress.  
 14 Q. Now, did you receive any more or different  
 15 information from Doctor Grisolano about George and  
 16 ADHD when you were developing the IEP on April  
 17 29th?  
 18 A. No. We had just gotten that report, so the  
 19 IEP team did not have time to consider it. It was  
 20 a lengthy report. But I did provide copies after  
 21 that time of the report for the IEP team members.  
 22 Q. When the IEP was prepared, based on the  
 23 October --- April 29th meeting, was there any  
 24 additional information about ADHD that was  
 25 relevant --- that the team deemed relevant in

Page 1107

1 writing the IEP on April 29th?  
 2 A. No.  
 3 Q. The same question but with regard to anxiety?  
 4 A. No.  
 5 Q. Now, you testified that the Krecko report was  
 6 actually in your hands at the RR meeting on April  
 7 the 3rd?  
 8 A. Yes.  
 9 Q. Was the Krecko report considered by the team  
 10 on April 3rd?  
 11 A. Yes, it was.  
 12 Q. And the Krecko report is in front of you at  
 13 Exhibit P-6?  
 14 (Parents' Exhibit Six marked for  
 15 identification.)  
 16 A. Yes.  
 17 BY ATTORNEY CLARK;  
 18 Q. Was this report considered by the team in  
 19 writing the RR?  
 20 A. Yes.  
 21 Q. And what was recommended to the team by Doctor  
 22 Krecko?  
 23 A. He stated the Parents and the School District  
 24 need to meet and attempt to address parental  
 25 concerns and requests regarding George's

29 (Pages 1104 to 1107)

Page 1108	Page 1110
<p>1 Individual Educational Program.  2 Q. Did that happen?  3 A. Yes.  4 Q. Were there any other educational  5 recommendations that Doctor Krecko made?  6 A. No.  7 Q. Was there any information that the team  8 received from Doctor Krecko other than this  9 exhibit, P-6, ---  10 A. No.  11 Q. --- in writing the IEP on April 29th?  12 A. No.  13 Q. I want to turn your attention to when the IEP  14 was --- was there an IEP that was prepared after  15 the April 29th meeting?  16 A. At the April 29th meeting?  17 Q. At the April 29th meeting.  18 A. Yes.  19 Q. Was it presented to the Parents?  20 A. Yes.  21 Q. Did the Parents approve it?  22 A. No.  23 Q. What did they do to indicate their disapproval  24 with the IEP?  25 A. They checked on the NOREP that they did not</p>	<p>1 the issue of extended school year, then they ---  2 that was an expedited hearing. And I forgot the  3 exact details of it, but that did not occur. And  4 then we had an IEP team meeting at the beginning  5 of the school year, actually the end of August,  6 August 26th.  7 Q. So the next meeting was on August 26th?  8 A. Yes.  9 Q. And who was in attendance?  10 A. August 26th?  11 Q. Yes.  12 A. The Parents --- sorry, Mr. and Mrs. Peiffer,  13 myself, Brooke Yellets, Michael Jones, Rebecca  14 Lorfink, Doctor Sheats, yourself, Frank Clark,  15 Yvonne Husic, Becky Blazi, Bill Lundberg, Jade  16 Ruel, Matt Bingaman, Frank Clamini (phonetic). I  17 think that was all.  18 Q. And what was the outcome of that IEP meeting?  19 A. We developed --- we worked off of the IEP that  20 was presented to the Parents April 29th. So we  21 worked off of that. We made changes and then it  22 was approved at that date.  23 Q. Were there changes in the IEP that reflected  24 George receiving any kind of services through  25 vocational-technical school?</p>
Page 1109	Page 1111
<p>1 approve the educational recommendations. Mrs.  2 Peiffer also provided a written summary of the  3 things that she didn't agree with.  4 Q. Now, I want to turn your attention to Exhibit  5 P-37. I'm sorry, I picked the wrong exhibit.  6 P-38, and specifically page 40, 41, 42. What do  7 these pages represent?  8 A. They are part of the Notice of Recommended  9 Educational Placement and prior written notice.  10 Q. And that indicated the Peiffers took what  11 action with regard to the IEP?  12 A. They did not approve the action.  13 Q. Now, based on their non-approval, what was the  14 District to do with the IEP that it had discussed  15 at the April 29th meeting?  16 A. We went back to the previously-approved IEP.  17 Since it wasn't approved by the Parents, we did  18 not implement that.  19 Q. Were there more discussions with the family  20 about developing an IEP for George?  21 A. Yes.  22 Q. What happened?  23 A. Specifically after the May meeting?  24 Q. Yes, after the May meeting.  25 A. They asked for due process, I do believe, for</p>	<p>1 A. Yes.  2 Q. What were they?  3 A. They were through his transition services, and  4 that would basically be his half-day. He would be  5 provided education at Cumberland Perry Area  6 Vocational-Technical School.  7 Q. How did that fit into George's schedule?  8 A. That would be in the afternoon session.  9 Susquenita students go to vo-tech, so that's how  10 it would fit in his schedule.  11 Q. Describe George's day as a result of the  12 changes in his IEP?  13 A. Instead of attending Susquenita solely, he  14 would attend at the beginning of the day up until  15 the lunch period, and then he would actually be  16 transported to vo-tech, and then he is transported  17 back here at the end of the day.  18 Q. Where is vo-tech in relation to Susquenita for  19 the Hearing Officer's edification?  20 A. It's about 20, 25 minutes away, about that  21 time. It's off of 81, on 114.  22 Q. So the route to get there is to go south on  23 1115 ---  24 A. Yes.  25 Q. --- and then take I-81 south ---</p>

30 (Pages 1108 to 1111)

Page 1112

1 A. Yes.  
 2 Q. --- to the Route 114 exit, ---  
 3 A. Correct.  
 4 Q. --- and then go south on Route 114?  
 5 A. Yes.  
 6 Q. And that's approximately what time duration  
 7 trip?  
 8 A. Between 20 and 30, somewhere around there.  
 9 Q. Okay. And that's each way?  
 10 A. Yes.  
 11 Q. What services would George receive during part  
 12 of his day at Susquenita?  
 13 A. He would receive all the services, as stated  
 14 in his IEP. He would receive small-group  
 15 instruction for special education, in a special  
 16 education setting for English and reading  
 17 instruction or his Standards, language arts, which  
 18 is also a Wilson course. He receives regular  
 19 education courses with accommodations and  
 20 modifications for the other courses.  
 21 Q. What courses is George taking as a result of  
 22 this IEP?  
 23 A. He is taking Standards Language Arts and Math.  
 24 He is taking English, math and science. He has  
 25 social studies at Cumberland Perry Vo-Tech.

Page 1113

1 Q. And he takes automotive tech at Cumberland  
 2 Perry Vo-Tech?  
 3 A. Correct.  
 4 Q. Where and when does he take Standards Math?  
 5 A. He takes it at the end of the day when he  
 6 returns from vo-tech, two days a week for about an  
 7 hour and 15 minutes to an hour.  
 8 Q. Does he take Standards English every day?  
 9 A. Yes.  
 10 Q. Does he take special ed English every day?  
 11 A. Yes.  
 12 Q. Does he take math every day?  
 13 A. Yes.  
 14 Q. All at Susquenita?  
 15 A. Yes.  
 16 Q. And he takes science at Susquenita?  
 17 A. Yes.  
 18 Q. Every day?  
 19 A. Yes.  
 20 Q. When is his lunch period?  
 21 A. He actually has his lunch period on the bus,  
 22 when he is traveling to Cumberland Perry Vo-Tech.  
 23 Q. When does he receive the speech and language  
 24 services?  
 25 A. At the beginning of the day, two days a week.

Page 1114

1 Q. And that occurs when?  
 2 A. 7:15 to 7:45.  
 3 Q. Is any part of George's school date started at  
 4 7:45?  
 5 A. Yes. He goes to first period at that time.  
 6 Q. So he goes to first period straight from  
 7 speech and language?  
 8 A. Uh-huh (yes).  
 9 Q. Yes?  
 10 HEARING OFFICER:  
 11 Yes?  
 12 A. Yes.  
 13 BY ATTORNEY CLARK:  
 14 Q. You understand why we do that?  
 15 A. Yes.  
 16 Q. All right. Now, with regard to the  
 17 ninth-grade IEP, was there a discussion in that  
 18 IEP about providing a Wilson program?  
 19 A. Within the ninth-grade IEP?  
 20 Q. I'm sorry, the tenth-grade IEP.  
 21 A. In the tenth-grade IEP, yes.  
 22 Q. And what was that discussion?  
 23 A. Mrs. Peiffer wanted him to be enrolled in the  
 24 Wilson Reading program.  
 25 Q. Did she explain why?

Page 1115

1 A. If I remember correctly, it was from Mr.  
 2 Klein's recommendation.  
 3 Q. Okay. What is Wilson designed to do?  
 4 A. It is a phonics-based program, so its main  
 5 objective is to decode words.  
 6 Q. As a member of George's team, what did you see  
 7 George's need in this area?  
 8 A. We really saw the need starting in high school  
 9 as --- we try and place the focus on vocabulary  
 10 and comprehension more so than the decoding and  
 11 the functional type of skills.  
 12 Q. Why is that?  
 13 A. That is because vocabulary is so important,  
 14 especially in science and social studies. And we  
 15 have found that there's more success when we teach  
 16 vocabulary development and understanding and  
 17 comprehension, and that way the fluency normally  
 18 increases with that, because fluency is rate and  
 19 accuracy and especially in a student that has  
 20 processing problems or has those type of issues.  
 21 We tend to get away from the fluency more and  
 22 focus on the vocabulary just because fluency,  
 23 again, takes into account rate and accuracy. And  
 24 the rate is severely affected in a student that  
 25 has those kind of --- has processing problems or

31 (Pages 1112 to 1115)

Page 1116

1 those kind of things.  
 2 Q. Are you familiar with any research that would  
 3 enable you to take a learner like George, at his  
 4 age, and increase his rate?  
 5 A. Research about reading instruction?  
 6 Q. Yes.  
 7 A. Yes.  
 8 Q. And what would happen?  
 9 A. That would be the vocabulary development.  
 10 Q. Okay. So it would increase his range of  
 11 vocabulary development?  
 12 A. Yes.  
 13 Q. To what extent did you express these views to  
 14 Mrs. Peiffer in the course of the IEP meetings?  
 15 A. It was discussed. It was discussed in the IEP  
 16 meeting about Wilson Reading and about Corrective  
 17 Reading SRA and explanation of both of those  
 18 things, and that occurred in August.  
 19 Q. Was there a recommendation by the District  
 20 that George receive or not receive Wilson Reading?  
 21 A. At that IEP meeting the District raised  
 22 concerns about the Wilson Reading Program, raised  
 23 concerns about using it exclusively with George  
 24 and raised concerns about the age appropriateness  
 25 of the program.

Page 1117

1 Q. What ultimately was the outcome of that  
 2 discussion?  
 3 A. That he would receive Wilson within the  
 4 Standards Language Arts period.  
 5 Q. And who was the instructor?  
 6 A. Mrs. Ruel.  
 7 Q. Would he receive anything other than Wilson  
 8 instruction during the Standards English class?  
 9 A. No.  
 10 Q. Did teaching the Wilson Reading in the  
 11 Standards English class have a connection to the  
 12 PSSAs?  
 13 A. Yes.  
 14 Q. In what way?  
 15 A. PSSAs --- obviously on the PSSA portions of  
 16 the test --- the students need to read passages  
 17 and answer questions. So Wilson is designed to  
 18 decode unknown words, so therefore it has the  
 19 connection if the Wilson improves the decoding  
 20 rate and fluency rate of the students, then that  
 21 would have a positive impact on the completion of  
 22 the PSSAs.  
 23 Q. Does George receive specially-designed  
 24 instruction in the Standards English class?  
 25 A. Yes.

Page 1118

1 Q. And what is the focus of the Standards Math  
 2 class in tenth grade?  
 3 A. In tenth grade?  
 4 Q. Yes.  
 5 A. That is focused on the Pennsylvania State  
 6 Standards.  
 7 Q. Does George receive specially-designed  
 8 instruction in that class?  
 9 A. Yes.  
 10 Q. Now, you heard some questions about George not  
 11 having a math goal in his tenth-grade IEP.  
 12 A. Yes.  
 13 Q. Can you explain why?  
 14 A. In tenth grade George is enrolled in a  
 15 geometry course. He also has a co-teacher in that  
 16 course. So the outcome --- or the goal of those  
 17 courses would be the regular ed curriculum and his  
 18 mastery of those skills. And typically in that  
 19 environment, in the regular ed environment, with a  
 20 co-teacher, that type of progress is measured by  
 21 observations, is measured by classroom  
 22 assignments, the completion of those, the mastery  
 23 of those skills.  
 24 Q. Was George's eligibility for extended school  
 25 year discussed in his tenth-grade IEP?

Page 1119

1 A. Yes.  
 2 Q. And what was the outcome?  
 3 A. The outcome is that we would discuss it at a  
 4 later time. If I remember correctly, Mrs. Peiffer  
 5 did not agree with George not having ESY. She  
 6 felt that from Mr. Klein's reports and information  
 7 she received, that he was eligible. The District  
 8 basically said no, that we feel he's not eligible.  
 9 So that's why we said that we would determine when  
 10 we have more information and his progress on his  
 11 goals this year.  
 12 Q. You heard Mrs. Peiffer testify about a desire  
 13 to have George work with Books on Tape?  
 14 A. Yes.  
 15 Q. Does the District provide Books on Tape?  
 16 A. Yes.  
 17 Q. Is it an element of George's IEP?  
 18 A. No. Based on the information that we provide  
 19 that to all of our students.  
 20 Q. I want to turn your attention while we're on  
 21 P-39 to page 35. There's some handwritten  
 22 modifications to this page?  
 23 A. Yes.  
 24 Q. Can you explain whose --- well, first of all,  
 25 do you know whose handwriting that is?

Page 1120

1 ATTORNEY HUSIC:  
 2 Did you say P-35?  
 3 ATTORNEY CLARK:  
 4 P-39, page 35.  
 5 ATTORNEY HUSIC:  
 6 Oh, okay. P-39, page five?  
 7 ATTORNEY CLARK:  
 8 Page 35.  
 9 HEARING OFFICER:  
 10 Thirty-five (35).  
 11 A. Yes. Most of the information on this page is  
 12 handwritten by myself. We worked off of the April  
 13 IEP when this was established in August.  
 14 BY ATTORNEY CLARK:  
 15 Q. And can you describe the Earobics addition  
 16 there?  
 17 A. That was a discussion based on the findings of  
 18 Grisolano's report, that we would be providing  
 19 that. We would be purchasing that.  
 20 Q. It says purchased by school?  
 21 A. Yes.  
 22 Q. Was it?  
 23 A. Yes.  
 24 Q. It says pretest within the first marking  
 25 period. Was it?

Page 1121

1 A. Yes.  
 2 Q. Did the District comply with that piece?  
 3 A. Yes.  
 4 Q. Now, I want to ask you some questions about  
 5 some specific elements in this and/or previous  
 6 IEPs. First of all, there have been elements in  
 7 this IEP that relate to an agenda?  
 8 A. Yes.  
 9 Q. Can you explain what the agenda is?  
 10 A. The agenda is a spiral-bound notebook type of  
 11 thing that delineates the days of the week, and  
 12 it's which George writes in his assignments, his  
 13 homework, what he's covered that day.  
 14 Q. For how long has the agenda been used with  
 15 George?  
 16 A. I personally know it's been used since grade  
 17 eight and probably before.  
 18 Q. I've heard allegations from Mrs. Peiffer that  
 19 the agenda was not being followed.  
 20 A. Correct.  
 21 Q. What do you have to say to that?  
 22 A. We were following — it was in the SDIs that  
 23 George would be writing in his agenda his  
 24 homework, those assignments that he would have to  
 25 do. And that's always been a goal of ours, to get

Page 1122

1 him to be independent and write in the agenda. So  
 2 it doesn't happen every day. That's what I am  
 3 assuming that Mrs. Peiffer was talking about.  
 4 There are some days when George does write in  
 5 them. There are some days, you know, when he  
 6 doesn't. There are some days that the teachers  
 7 remind him, those type of things.  
 8 Q. Now, there's also been testimony about a  
 9 checklist.  
 10 A. Yes.  
 11 Q. Is the checklist different from the agenda?  
 12 A. Yes.  
 13 Q. In what way?  
 14 A. The checklist was developed by Mrs. Peiffer at  
 15 the conclusion of the April 29th meeting, and it's  
 16 a way of monitoring how George is being  
 17 independent with assignments, with getting his  
 18 agenda signed, with getting out notebooks and  
 19 being prepared for class.  
 20 Q. And I want to turn your attention to two  
 21 separate sections of Exhibit P-39. First I want  
 22 to turn your attention to pages 30 and 31.  
 23 A. Yes.  
 24 Q. And then I want to turn your attention also to  
 25 pages 48 and 49.

Page 1123

1 A. Yes.  
 2 Q. How do you differentiate pages 30 and 31 from  
 3 pages 48 and 49?  
 4 A. Thirty (30) and 31 —.  
 5 ATTORNEY HUSIC:  
 6 Just a second.  
 7 A. Sorry.  
 8 ATTORNEY HUSIC:  
 9 Of the same exhibit?  
 10 ATTORNEY CLARK:  
 11 Same exhibit, yes.  
 12 BY ATTORNEY CLARK:  
 13 Q. How do you differentiate 30 and 31 from 48 and  
 14 49?  
 15 A. Thirty (30) and 31 was first developed by Mrs.  
 16 Peiffer to kind of lay out her expectations about  
 17 how George would go throughout his day, opening  
 18 his notebook, getting out his homework folder,  
 19 putting away his homework folder, that type of  
 20 thing. The one on pages 48 and 49 were more in  
 21 depth and it took this information and it  
 22 basically put it into the different courses that  
 23 he would have. And this was established after we  
 24 noted what his schedule would be.  
 25 Q. Who created pages 30 and 31?

33 (Pages 1120 to 1123)

Page 1124

1 A. Mrs. Peiffer.  
 2 Q. When? Not a date but a time frame.  
 3 A. In conjunction with the IEP that was developed  
 4 April 29th.  
 5 Q. And who developed pages 48 and 49?  
 6 A. Mrs. Peiffer.  
 7 Q. When?  
 8 A. This was in August, after we knew what his  
 9 schedule was going to be.  
 10 Q. Now, what was your reaction to pages 30 and  
 11 31?  
 12 A. It was a way of monitoring that George was  
 13 doing all those things, that he was taking his  
 14 folders to class, he was taking his agenda, those  
 15 type of things.  
 16 Q. Did you have an impression as to its  
 17 usefulness?  
 18 A. It was just to make sure that these things  
 19 were occurring throughout the day and so we could  
 20 monitor how independent he was doing these things  
 21 or how not independent he was doing these things  
 22 and the reminders about consistency for him.  
 23 Q. Okay. Did you view pages 48 and 49 as being a  
 24 change from pages 30 and 31?  
 25 A. They were a change just because they were more

Page 1125

1 in depth. Obviously, the length has increased,  
 2 and the font size is very small.  
 3 Q. Did you have an impression about the  
 4 usefulness of pages 48 and 49?  
 5 A. I thought this type of format was overwhelming  
 6 to look at. I know it delineates the start of his  
 7 period and the end of his period, and this was  
 8 something that Mrs. Peiffer developed as a way of  
 9 reporting out how he did. And if you look at the  
 10 top, there was also added self prompt and refused,  
 11 where it would be checked by the instructional  
 12 assistant.  
 13 Q. And you're pointing now to page 48 and 49?  
 14 A. Yes. So there's different boxes there.  
 15 There's things to do with the beginning of the  
 16 period, the end of the period. And this would be  
 17 the five minutes at the beginning, at the end.  
 18 These things are supposed to be checked.  
 19 Q. Did you voice any concerns about pages 48 and  
 20 49?  
 21 A. At the August IEP meeting?  
 22 A. I remember there was discussion about --- that  
 23 it seemed very cumbersome for the instructional  
 24 assistant to fill out --- to make sure that all of  
 25 this was occurring. But again, Mrs. Peiffer

Page 1126

1 stressed that we needed to have consistency when  
 2 working with George and that this would be a way  
 3 that she could ensure that we were being  
 4 consistent throughout the day with him.  
 5 Q. Now, how, if at all, was this checklist, 48  
 6 and 49, addressed in the IEP?  
 7 A. It is a way of monitoring how well George is  
 8 doing things independently, such as preparing for  
 9 class and being organized.  
 10 Q. What did you mean by that?  
 11 A. It's related to goal --- I think we named it  
 12 at number seven on page 29 of the same exhibit,  
 13 using an agenda and daily checklist, which we  
 14 attached, being prepared for class, record  
 15 assignments, three verbal prompts per day for four  
 16 out of five days.  
 17 Q. How does the checklist on 48 and 49 relate to  
 18 that goal?  
 19 A. That describes how the student's progress  
 20 toward meeting this goal will be measured on data  
 21 collection charts daily on a checklist. And  
 22 that's the checklist we currently use.  
 23 Q. So this means it measured his progress on that  
 24 goal?  
 25 A. Yes.

Page 1127

1 Q. You heard testimony from Mrs. Peiffer  
 2 regarding an element of the IEP that George would  
 3 be re-taught materials at home?  
 4 A. Yes.  
 5 Q. Can you describe the genesis of that portion  
 6 for the IEP?  
 7 A. Since I have been on the IEP team, grade  
 8 eight, Mrs. Peiffer has insisted that there be an  
 9 SDI speaking to teaching him skills at home, being  
 10 able to have lesson plans, being able to have  
 11 information at home about what he's doing, what  
 12 he's working on, so that she can work at home with  
 13 him.  
 14 Q. Has the School District ever required that  
 15 element of the IEP?  
 16 A. No.  
 17 Q. You heard Mr. Klein testify about the day he  
 18 observed George in ninth grade?  
 19 A. Yes.  
 20 Q. Did you accompany Mr. Klein to George's class?  
 21 A. Yes.  
 22 Q. What class did you accompany George to --- I'm  
 23 sorry, Mr. Klein to?  
 24 A. The Standards Language Arts class.  
 25 Q. And that would have been what period of the

34 (Pages 1124 to 1127)

Page 1128

1 day?  
 2 A. First period.  
 3 Q. And what time did that period begin?  
 4 A. It was just beginning, so the students had  
 5 gone into the classroom. And I actually pointed  
 6 out George as he was going by to Mr. Klein.  
 7 Q. Did you have a conversation with Mr. Klein  
 8 during that period of time?  
 9 A. Yes.  
 10 Q. What was the duration?  
 11 A. About 10 or 15 minutes.  
 12 Q. And this is while the first period is taking  
 13 place?  
 14 A. Yes.  
 15 Q. Did you accompany Mr. Klein at any other point  
 16 at that day?  
 17 A. No.  
 18 Q. In your discussion with Mr. Klein, did you  
 19 make any offer about providing any District data?  
 20 A. Yes.  
 21 Q. What offer did you make?  
 22 A. I said because there is a release of records,  
 23 if he needed any information, that he would just  
 24 need to request it and I would provide a copy of  
 25 that to him.

Page 1129

1 Q. Did he ever avail himself of that offer?  
 2 A. No.  
 3 (Parents' Exhibit 18 marked for  
 4 identification.)  
 5 BY ATTORNEY CLARK:  
 6 Q. I want to turn your attention to Exhibit P-18.  
 7 A. Yes.  
 8 Q. What does this exhibit represent?  
 9 A. This represents his progress on his goals for  
 10 eighth grade.  
 11 Q. And how is this information recorded?  
 12 A. It is recorded on an Excel type of  
 13 spreadsheet, where we put in the data or the goal  
 14 and then it charts it for us.  
 15 Q. I want to turn your attention more  
 16 specifically to Exhibit --- page three of Exhibit  
 17 P-18.  
 18 A. Yes.  
 19 Q. There are two lines. One is a solid line ---  
 20 A. Yes.  
 21 Q. --- and one is a line with diamonds?  
 22 A. Correct.  
 23 Q. What's each line indicate?  
 24 A. The one with the diamonds is the goal line or  
 25 the target line. The one that's solid is the

Page 1130

1 trend line.  
 2 Q. What determines the target line?  
 3 A. The present level at the beginning and then  
 4 the goal at the end.  
 5 Q. And what determines the target line --- yes,  
 6 the target line.  
 7 A. The trend line?  
 8 Q. I'm sorry, the trend line.  
 9 A. The trend line is determined --- it basically  
 10 factors in the points --- or the data points and  
 11 then lines that up. It's an average, average  
 12 performance, how the student is doing on any given  
 13 day.  
 14 Q. Is that done by a person? Is it done by the  
 15 software?  
 16 A. It's done by the computer, Excel spreadsheet.  
 17 Q. Now, as I take a look at the same page, I can  
 18 see that there are points --- well, first of all,  
 19 the jagged line are data points?  
 20 A. Yes.  
 21 Q. And there are times where there's no  
 22 connection between data points?  
 23 A. Correct.  
 24 Q. What does that mean?  
 25 A. That means he missed that progress monitoring

Page 1131

1 day or it wasn't entered in or --- the data is not  
 2 there.  
 3 Q. And when you're looking at these trend lines,  
 4 what is it you're looking for?  
 5 A. The trend line to go up or to increase.  
 6 Q. Now, you've heard the testimony of Mr. Klein?  
 7 A. Yes.  
 8 Q. And you've heard his testimony about his trend  
 9 line moving farther away from his target line?  
 10 A. Yes.  
 11 Q. Do you agree or disagree with his  
 12 characterization of that being an indication that  
 13 George is losing progress?  
 14 A. I would disagree because if the trend line is  
 15 increasing, the student is making progress.  
 16 Q. What conclusion do you make from this trend  
 17 line here?  
 18 A. That George is making progress on this goal.  
 19 Q. Turn your attention to the next page, four.  
 20 A. Yes.  
 21 Q. What conclusion do you make as far as George's  
 22 trend in writing?  
 23 A. That he's making progress on the goal.  
 24 Q. And this exhibit, by the way, is from George's  
 25 eighth-grade year?

35 (Pages 1128 to 1131)

Page 1132

1 A. Yes.  
 2 Q. Turn the next page to page five. Now, this  
 3 has only a target line?  
 4 A. Yes.  
 5 Q. It doesn't show a trend line?  
 6 A. Right.  
 7 Q. Do you know why?  
 8 A. This goal --- just the goal itself is  
 9 different. It's the agenda writing. And if I  
 10 remember the goal correctly, it was 95 percent  
 11 accuracy. George will write at least 95 percent  
 12 of his homework assignments into his agenda. So  
 13 this was basically we wanted to monitor how well  
 14 he was writing that information into his agenda.  
 15 Q. Now, that's also reported on page two of the  
 16 same exhibit?  
 17 A. Yes.  
 18 Q. And the agenda is third of those three goals?  
 19 A. Yes.  
 20 Q. What does MP mean?  
 21 A. Making progress.  
 22 Q. And what does P mean with regard to the other  
 23 goals?  
 24 A. I'm sorry. MP is minimal progress and P is  
 25 progress, progressing. And that's on page one.

Page 1133

1 Q. Okay.  
 2 (School district Exhibit 24 marked  
 3 for identification.)  
 4 BY ATTORNEY CLARK:  
 5 Q. Now, I want to turn your attention to Exhibit  
 6 S-24. Specifically, I want to turn your attention  
 7 to page two --- I'm sorry, page three.  
 8 A. Yes.  
 9 Q. And this progress monitoring is from what  
 10 year?  
 11 A. This year.  
 12 Q. His tenth-grade year?  
 13 A. Yes.  
 14 Q. And what does this progress monitoring tell  
 15 you?  
 16 A. On page three is that he's making progress.  
 17 Q. And this goal pertains to his exploration of  
 18 career goals?  
 19 A. Yes, his transition.  
 20 Q. Now, two pages from there, page five, this  
 21 goal deals with what area?  
 22 A. Reading fluency.  
 23 Q. This progress monitoring?  
 24 A. Yes.  
 25 Q. The trend line in this particular exhibit is

Page 1134

1 going in what direction?  
 2 A. Down.  
 3 Q. And can you explain why that is?  
 4 A. This was based off of the Wilson Reading  
 5 Program, so in my understanding of where George  
 6 was, they were learning the basic sounds of the  
 7 letters and those type of things. So the decoding  
 8 and fluency might not be directly tied or might  
 9 show a decrease in the reading fluency because,  
 10 again, fluency is rate and accuracy. But I know  
 11 we did look at that, and I know that we made sure  
 12 that we were making correct accommodations for  
 13 George throughout that so that he would make  
 14 progress and the trend line would go --- would  
 15 increase.  
 16 Q. Now, this data is as of what date?  
 17 A. I think this was the first marking period,  
 18 second marking period. The last data point was  
 19 January 8th.  
 20 Q. Now, I see that there are some gaps in the  
 21 data points ---  
 22 A. Yes.  
 23 Q. --- on this graph?  
 24 A. Yes.  
 25 Q. And what do those gaps do to his reading

Page 1135

1 fluency?  
 2 A. It definitely decreases it because there's  
 3 no --- there's no data on those dates. So within  
 4 the trend line it's the average of the point. So  
 5 he was not here during that time.  
 6 Q. Is it going to register as a zero for the  
 7 purposes of measuring his trend line?  
 8 A. Yes.  
 9 Q. Do you have more current information on  
 10 George's progress monitoring and reading fluency?  
 11 A. Yes.  
 12 Q. What is that information?  
 13 A. That he's making progress.  
 14 Q. Do you have more current information on the  
 15 trend line?  
 16 A. Yes.  
 17 Q. And what's that?  
 18 A. That it's increasing.  
 19 Q. So his trend line in reading fluency is now  
 20 increasing?  
 21 A. Yes.  
 22 Q. I want to turn your attention to page seven.  
 23 Now, this is showing only a trend line --- I'm  
 24 sorry, a goal line; right?  
 25 A. Correct.

Page 1136

1 Q. It's not showing a trend line?  
 2 A. No.  
 3 Q. Do you know why?  
 4 A. In order for a trend line to be shown on this  
 5 Excel spreadsheet, the teacher has to go in and  
 6 check it. So it was not checked on this goal.  
 7 Q. Have you seen a current progress monitoring of  
 8 George's writing goals?  
 9 A. Yes.  
 10 Q. And what is that?  
 11 A. That is increasing. He is making progress.  
 12 Q. Is there a trend line?  
 13 A. I can't specifically tell you.  
 14 HEARING OFFICER:  
 15 What is your answer?  
 16 A. I don't specifically remember without looking  
 17 at it on that goal.  
 18 BY ATTORNEY CLARK:  
 19 Q. I want to turn your attention to page nine.  
 20 What does this indicate?  
 21 A. This indicates his progress on his goal for  
 22 decoding.  
 23 Q. And is that a Wilson goal?  
 24 A. Yes.  
 25 Q. And again, there's a target line but no trend

Page 1137

1 line?  
 2 A. Correct.  
 3 Q. Have you seen more current information on  
 4 George's progress monitoring and decoding?  
 5 A. Yes.  
 6 Q. What does it indicate?  
 7 A. That he's making progress.  
 8 Q. You were present for the testimony of Mr.  
 9 Klein regarding the designation of time when  
 10 George was in special education?  
 11 A. Yes.  
 12 Q. You heard his characterization of how the time  
 13 was allegedly misreported in George's IEPs and  
 14 NOREPs?  
 15 A. Correct.  
 16 Q. Do you agree or disagree with this  
 17 characterization?  
 18 A. I disagree.  
 19 Q. In what way?  
 20 A. With the new Chapter 14 regulations, they  
 21 split apart the Penn data reporting, which is  
 22 basically the time that a student spends in the  
 23 regular ed --- physically spends in the regular  
 24 education setting. The special education supports  
 25 are not defined as the supportive services that

Page 1138

1 are given to a student in any setting.  
 2 Q. And these changes became effective when?  
 3 A. When the Chapter 14 regulations ---  
 4 Q. Which was how long?  
 5 A. --- took place. Maybe a year, two years ago.  
 6 Q. Do you have an opinion as to the  
 7 appropriateness of George's IEP?  
 8 A. Yes.  
 9 Q. What is it?  
 10 A. I feel that they are appropriate based on  
 11 George's needs.  
 12 Q. Do you have an opinion as to the  
 13 appropriateness of George's placement?  
 14 A. Yes.  
 15 Q. What's that?  
 16 A. I feel that he is appropriately placed.  
 17 Q. Do you have an opinion as to the  
 18 appropriateness of the identification that was  
 19 made in George's RR in 2009?  
 20 A. Yes.  
 21 Q. What's that?  
 22 A. I would agree with it.  
 23 ATTORNEY CLARK:  
 24 If we could just take two minutes  
 25 here? I just want to look at these notes.

Page 1139

1 HEARING OFFICER:  
 2 We'll go off the record. One second.  
 3 Do you have any objection ---?  
 4 ATTORNEY HUSIC:  
 5 No.  
 6 COUNSEL REVIEWS NOTES  
 7 ATTORNEY CLARK:  
 8 No more questions.  
 9 HEARING OFFICER:  
 10 We've had the witness on the stand  
 11 now for almost two hours, about an hour and 50  
 12 minutes. Why don't we take a five-minute break or  
 13 so for restroom and come back for Cross.  
 14 ATTORNEY HUSIC:  
 15 Okay. Are we not taking a lunch  
 16 break at all then?  
 17 HEARING OFFICER:  
 18 Well, I would like to complete this  
 19 witness before we do anything in terms of an  
 20 extended break. So let's take a five-minute  
 21 break. We'll go off the record.  
 22 SHORT BREAK TAKEN  
 23 HEARING OFFICER:  
 24 We're back on the record after a  
 25 brief break. And Ms. Husic, the witness is ready

37 (Pages 1136 to 1139)

Page 1140

1 for Cross Examination.  
 2 ATTORNEY HUSIC:  
 3 Okay. Thank you.  
 4 CROSS EXAMINATION  
 5 BY ATTORNEY HUSIC:  
 6 Q. Good afternoon, Ms. Sawyer.  
 7 A. Good afternoon. I wanted you to first turn to  
 8 Exhibit P-2, the very beginning part of the book.  
 9 This is Andy Klein's report, and you were asked  
 10 several questions about Andy Klein's report and  
 11 his testimony and whether you agreed or disagreed.  
 12 And then you were also asked whether the IEP team  
 13 discussed the content of Mr. Klein's report. Mrs.  
 14 Peiffer doesn't recollect any discussion regarding  
 15 Andy Klein's report at the IEP meeting. Can you  
 16 specifically look at this report and say what was  
 17 discussed at the IEP meeting?  
 18 A. At the IEP meeting we discussed Mr. Klein's  
 19 recommendation for extended school year services.  
 20 We also discussed his recommendation for the  
 21 reading program, his recommendations for --- I do  
 22 believe it was the Saxon Math programming. Those  
 23 are the things that I can recall off the top of my  
 24 head.  
 25 Q. Just as a general conclusion, would you say

Page 1141

1 you agreed or disagreed with Mr. Klein's report?  
 2 A. With the report overall?  
 3 Q. Yes.  
 4 ATTORNEY CLARK:  
 5 I have to object just to the  
 6 vagueness and overall breadth of the question.  
 7 HEARING OFFICER:  
 8 Well, I mean, I think I'll sustain  
 9 the objection.  
 10 ATTORNEY HUSIC:  
 11 Okay.  
 12 HEARING OFFICER:  
 13 Perhaps we can have it as what  
 14 portions she does agree with ---  
 15 ATTORNEY HUSIC:  
 16 Okay.  
 17 HEARING OFFICER:  
 18 --- and allow the witness to then  
 19 give us her views of the report.  
 20 BY ATTORNEY HUSIC:  
 21 Q. Do you believe --- I'm sorry. Do you agree  
 22 with Mr. Klein's recommendation regarding a  
 23 structured math program such as Saxon Math?  
 24 A. I disagree with that.  
 25 Q. And why is that?

Page 1142

1 A. I believe George can make appropriate progress  
 2 within the regular education curriculum and  
 3 specially-designed instruction. I feel that that  
 4 is the appropriate placement for him.  
 5 Q. And what data is that based on?  
 6 A. It's based upon his progress on his goals.  
 7 It's based upon the information from his current  
 8 teachers. It's also based upon my professional  
 9 view of a Saxon Math program.  
 10 Q. Is there any other program that you would  
 11 recommend besides Saxon Math that might assist  
 12 George?  
 13 ATTORNEY CLARK:  
 14 Well, objection to the form of the  
 15 question. She didn't recommend Saxon math.  
 16 BY ATTORNEY HUSIC:  
 17 Q. Is there any other program you would recommend  
 18 for George in order to improve his math skills?  
 19 A. No. I think he is making appropriate progress  
 20 in his current placement, which is based on  
 21 curricular goals.  
 22 Q. Would it be fair to say that you also agree  
 23 with the psychoeducational testing that was  
 24 performed by your own psychologist and on P-37, at  
 25 page five, that indicates George's reading, math

Page 1143

1 and written expression skills all fall into the  
 2 proficient range based on expectations for his  
 3 adolescent age?  
 4 A. Yes, I agree with the testing.  
 5 Q. You agree with the testing?  
 6 A. Yes. The results of the testing.  
 7 Q. You agree with the results of the testing, but  
 8 you do not see that math is a need for George?  
 9 A. Math is a need for George in what way? In  
 10 increasing his math skills, yes. And I believe  
 11 that can be appropriately accommodated for in the  
 12 general education setting.  
 13 Q. According to your own District's psychologist  
 14 report, in numerical operations and math reasoning  
 15 George is nearly two standard deviations below in  
 16 those two areas. Do you believe that that does  
 17 not rise to a need to have a math goal?  
 18 A. I believe his need can be met in the regular  
 19 education setting. I believe on this testing this  
 20 is what was reported. But again, this is just one  
 21 test, so we look at his progress on his goals, the  
 22 appropriateness of that, when programming for a  
 23 student. We just don't look at one test.  
 24 Q. Do you agree with Mr. Klein about the  
 25 implementation of the Wilson program?

Page 1144

1 A. I do not agree with the implementation of the  
 2 Wilson program.  
 3 Q. The District does not agree with it, but yet  
 4 implemented that program for George this entire  
 5 school year?  
 6 A. Correct. You asked me if I agreed with the  
 7 Wilson in a secondary student, and I don't. The  
 8 IEP team, though, met and felt that it was  
 9 appropriate. So in that light, yes, we  
 10 thought --- as an IEP team, we thought it was  
 11 appropriate.  
 12 Q. Do you believe that George should have had  
 13 extended school year --- strike that. Let me  
 14 rephrase that.  
 15 Mr. Klein cites the lack of extended school  
 16 year as an issue in his report. I assume, based  
 17 upon your testimony, you still are of the position  
 18 that George should not have had extended school  
 19 year services?  
 20 A. Yes.  
 21 Q. Is it going to --- as far as you know, would  
 22 it be your position again for an upcoming IEP that  
 23 he would not have extended school year?  
 24 A. That would be based on the seven criteria and  
 25 the IEP team's discussion of that.

Page 1145

1 (Parents' Exhibit Three marked for  
 2 identification.)  
 3 BY ATTORNEY HUSIC:  
 4 Q. If you turn to P-3, this is Doctor Grisolano's  
 5 evaluation. Now, this is an evaluation that the  
 6 District paid for; correct?  
 7 A. Yes.  
 8 Q. Are there parts of this evaluation that you  
 9 agree with?  
 10 A. Yes.  
 11 Q. And there are parts you disagree with?  
 12 A. Without reviewing it fully again, I would have  
 13 to say there are parts that we took into  
 14 consideration in writing his IEP. As far as the  
 15 ones that I don't --- in the educational setting,  
 16 we don't see ---.  
 17 HEARING OFFICER:  
 18 What page are you referring to?  
 19 A. I'm just looking at the recommendations on 22,  
 20 23, 24, 25, 26, all the recommendations she made.  
 21 Overall, we don't see the impact of any ADHD,  
 22 inattentive type, on his educational progress,  
 23 which I do believe was one of the things that was  
 24 in the report --- as part of Doctor Krecko's  
 25 report, too.

Page 1146

1 BY ATTORNEY HUSIC:  
 2 Q. Both of those individuals identify the  
 3 presence of ADHD. Apparently the District agreed  
 4 with that. Did you seek any approval from Mrs.  
 5 Peiffer to do independent testing regarding ADHD?  
 6 A. Independent from Doctor Krecko?  
 7 Q. Yes.  
 8 A. And in addition to Doctor Krecko and Doctor  
 9 Grisolano?  
 10 Q. Yes.  
 11 A. No.  
 12 Q. So if you didn't undertake that, basically  
 13 what you're left with is the conclusion of Doctor  
 14 Grisolano and Doctor Krecko, correct, indicating  
 15 that George does have a diagnosis of ADHD?  
 16 A. That from the information that they were  
 17 provided, that they feel that he has ADHD,  
 18 inattentive type?  
 19 Q. Right.  
 20 A. Correct.  
 21 (Parents' Exhibit Four marked for  
 22 identification.)  
 23 BY ATTORNEY HUSIC:  
 24 Q. Exhibit P-4, on Gayle Goepfert's report, did  
 25 you form an impression about whether you agreed or

Page 1147

1 disagreed with this evaluation?  
 2 A. Yes.  
 3 Q. And what was that?  
 4 A. That we agreed and that her report was very  
 5 similar from the findings from Becky Blazi.  
 6 Q. Going back to Doctor Grisolano's report, is it  
 7 your testimony to the Hearing Officer that either  
 8 the multidisciplinary team and/or the IEP team had  
 9 an active discussion regarding the Grisolano  
 10 report and the Krecko report regarding the parts  
 11 that you agreed and disagreed with?  
 12 A. The Krecko was presented before the evaluation  
 13 and the IEP in April, so we did discuss that and  
 14 that was part of our plan. The Grisolano, we  
 15 had --- I think at the time we had a brief report  
 16 from her just because the whole reporting wasn't  
 17 done and we had to do it within 60 days. So that  
 18 report wasn't available. I'm sorry. What was  
 19 your question again? Whether we considered ---?  
 20 Q. No, not considered, actually discussed the  
 21 report so that the Parent and the team could ---  
 22 and the Parents, as part of the team, would be  
 23 able to hear the discussion regarding the  
 24 submission of those reports.  
 25 A. Right. The Grisolano we did not officially

39 (Pages 1144 to 1147)

Page 1148

1 discuss as an IEP team. We took it into  
 2 consideration in that we took some of the  
 3 recommendations, the most important recommendation  
 4 such as the Earobics and those type of things, but  
 5 we have not discussed it up to this point.  
 6 Q. Insofar as Doctor Krecko's evaluation in P-6,  
 7 of the diagnosis on page three that he lists, ---  
 8 A. Yes.  
 9 Q. --- you do not agree with the ADHD diagnosis?  
 10 A. We do not see, and we, as in the teachers, do  
 11 not see that impacts his educational progress. So  
 12 therefore, within the IEP programming, it wouldn't  
 13 be appropriate.  
 14 Q. When there is two experts, a psychiatrist and  
 15 a neuropsychologist, both that have a finding of  
 16 ADHD, under what authority does the District  
 17 choose to ignore that particular finding?  
 18 ATTORNEY CLARK:  
 19 Objection. Objection. Argumentative  
 20 question.  
 21 HEARING OFFICER:  
 22 I'm going to overrule the objection.  
 23 Let the record show I don't think the question was  
 24 asked in a belligerent way.  
 25 ATTORNEY CLARK:

Page 1149

1 I'm not trying to suggest that it  
 2 was. But by using the word ignore, it presupposes  
 3 that there's an obligation to do something ---  
 4 HEARING OFFICER:  
 5 Well, I ---.  
 6 ATTORNEY CLARK:  
 7 --- and that something was  
 8 disregarded.  
 9 HEARING OFFICER:  
 10 Well, that may be --- connotatively,  
 11 that may be the case, but I'll say to you, you can  
 12 answer the question as it is asked. I don't see  
 13 it as a prejudicial question, so you can answer  
 14 the question.  
 15 A. We considered the findings. We did not ignore  
 16 the findings, but we --- again, I say we, the  
 17 teachers felt that it did not impact his  
 18 educational progress.  
 19 (Parents' Exhibit Eight marked for  
 20 identification.)  
 21 BY ATTORNEY HUSIC:  
 22 Q. On P-8, this is the re-evaluation report in  
 23 September of 2005. Did you review this report in  
 24 connection with the upcoming hearing or had you  
 25 reviewed this report as part of becoming the

Page 1150

1 Director of Special Ed?  
 2 A. I reviewed this report before his eighth-grade  
 3 team meeting, when I became the Director of  
 4 Special Education.  
 5 Q. Did George's --- the third bullet down, did  
 6 his scores in reading present a concern to you?  
 7 A. Yes.  
 8 Q. On the next page it's referenced the  
 9 Corrective Reading?  
 10 A. Yes.  
 11 Q. Would you also agree that this evaluation  
 12 report does --- other than just referencing the  
 13 level, does not give any measure of progress in  
 14 George's --- George's progress with the Corrective  
 15 Reading program?  
 16 A. It states that he was two-thirds of the way  
 17 through B-1 level of Corrective Reading.  
 18 Q. When did he start Corrective Reading? Well,  
 19 let me put it --- this report --- this evaluation  
 20 report doesn't reference that; does it?  
 21 A. When he started Corrective Reading?  
 22 Q. Yes.  
 23 A. No.  
 24 (Parents' Exhibit 17 marked for  
 25 identification.)

Page 1151

1 BY ATTORNEY HUSIC:  
 2 Q. On P-17, this is George's IEP dated October  
 3 2006. Is it correct you were not part of the team  
 4 at that point?  
 5 ATTORNEY CLARK:  
 6 Which exhibit are you on?  
 7 ATTORNEY HUSIC:  
 8 P-17.  
 9 BY ATTORNEY HUSIC:  
 10 Q. And this IEP covers a span of two school  
 11 years.  
 12 A. The one that's dated October 17, 2006?  
 13 Q. Yes, starting at page four.  
 14 A. That is correct, I'm not --- I was not.  
 15 Q. Did you review this IEP at all?  
 16 A. Yes.  
 17 Q. Attached to this IEP there are no progress  
 18 reports. Do you know if any exist?  
 19 A. Yes.  
 20 Q. They exist?  
 21 A. Yes.  
 22 Q. Why were they not included in this IEP ---?  
 23 ATTORNEY CLARK:  
 24 Why were they not included in a  
 25 Parent exhibit? This is a Parent exhibit.

40 (Pages 1148 to 1151)

Page 1152

1 HEARING OFFICER:  
2 One second. One second.  
3 ATTORNEY HUSIC:  
4 Well, why were they not included in a  
5 School District exhibit either?  
6 HEARING OFFICER:  
7 Well, is the question why were they  
8 not included or why were they not provided?  
9 ATTORNEY HUSIC:  
10 Why were they not provided?  
11 ATTORNEY CLARK:  
12 Well, I don't know it's been  
13 established that they weren't provided.  
14 HEARING OFFICER:  
15 Well, that's the point of my  
16 question, is I want to make sure we're --- what  
17 the question is we're ---  
18 ATTORNEY HUSIC:  
19 Provided.  
20 HEARING OFFICER:  
21 --- going to fight about. Okay. So  
22 the question is, do you know why --- well, is it  
23 the Parents' assertion that those progress reports  
24 were not provided?  
25 ATTORNEY HUSIC:

Page 1153

1 Yes.  
2 HEARING OFFICER:  
3 Okay. Let me ask this,  
4 contemporaneously or in terms of document requests  
5 pursuant to this hearing?  
6 ATTORNEY HUSIC:  
7 Both.  
8 HEARING OFFICER:  
9 So let me ask Ms. Sawyer --- you have  
10 been involved in the District's preparation for  
11 this hearing; is that correct?  
12 A. Yes.  
13 HEARING OFFICER:  
14 And was it part of your duties to  
15 help in the preparation of document requests by  
16 the Parents in preparation for this hearing?  
17 A. I provided Mr. Clark with all of the School  
18 District's documents.  
19 HEARING OFFICER:  
20 Okay. So you provided --- and I mean  
21 related to this hearing, ---  
22 A. Yes.  
23 HEARING OFFICER:  
24 --- you participated in providing or  
25 in seeing that documentation was provided by

Page 1154

1 request of Parents for this proceeding?  
2 A. Correct.  
3 HEARING OFFICER:  
4 Having heard that, I will overrule  
5 the objection to the extent that you weren't ---  
6 it would not have been your responsibility,  
7 obviously, to talk about the provision of those  
8 reports at the time it was produced because that  
9 was not yet within your scope of duty?  
10 A. Correct.  
11 HEARING OFFICER:  
12 But in terms of the documents that  
13 you --- that the District had in its possession  
14 and that were requested by Parents as a result of  
15 this hearing, this process, the complaint that was  
16 filed, however you choose to characterize that,  
17 you can answer the question. So the question is,  
18 are you aware whether or not the progress reports  
19 for the IEP, in effect, as of June 26th, 2009 ---  
20 excuse me, 2007, which is what I'm involved in,  
21 progress reports for the IEP and goal measurement  
22 at that point, were those provided to the Parents,  
23 in your knowledge?  
24 A. In my knowledge, I don't know.  
25 HEARING OFFICER:

Page 1155

1 Were they provided by you as part of  
2 document preparation by the District for these  
3 proceedings?  
4 A. They would have been provided to Mr. Clark,  
5 yes.  
6 HEARING OFFICER:  
7 Well, whether or not they were  
8 provided to a specific individual, that's not my  
9 concern. My concern is, within your  
10 knowledge, ---  
11 A. Yes.  
12 HEARING OFFICER:  
13 --- that kind of progress monitoring  
14 data would have been provided as a result of such  
15 a request?  
16 A. Yes.  
17 HEARING OFFICER:  
18 Okay. So there's the answer to the  
19 question.  
20 ATTORNEY HUSIC:  
21 Okay. Very good.  
22 (Parents' Exhibit 19 marked for  
23 identification.)  
24 BY ATTORNEY HUSIC:  
25 Q. If you can turn to P-19. My question is

41 (Pages 1152 to 1155)

Page 1156	Page 1158
<p>1 merely whether this document was provided to you</p> <p>2 --- this occupational therapy evaluation was</p> <p>3 provided to you by the Peiffers.</p> <p>4 A. I don't recall specifically.</p> <p>5 Q. Was it a part of George's record?</p> <p>6 A. I would have to look at his record.</p> <p>7 Q. I thought you already said you did look at his</p> <p>8 file. You don't remember, is that your answer?</p> <p>9 A. I did look --- yes, I did review his file.</p> <p>10 About the specific report, I don't specifically</p> <p>11 remember myself reading through it. I just don't</p> <p>12 remember.</p> <p>13 (Parents' Exhibit 20 marked for</p> <p>14 identification.)</p> <p>15 BY ATTORNEY HUSIC:</p> <p>16 Q. The next exhibit, P-20, do you remember seeing</p> <p>17 this psychological evaluation in George's file and</p> <p>18 reviewed it?</p> <p>19 A. I do remember seeing this report.</p> <p>20 Q. On page seven of that exhibit, you see that at</p> <p>21 this time there was also a diagnosis of a math</p> <p>22 disorder?</p> <p>23 A. Yes.</p> <p>24 Q. Do you know if the IEP team considered this</p> <p>25 evaluation as part of the '06-'07 school year IEP?</p>	<p>1 number three, it indicates a psycho ed eval is</p> <p>2 recommended to assess George's need for additional</p> <p>3 support in the classroom. Would it be fair to say</p> <p>4 the District did not follow up on that evaluation</p> <p>5 at that time?</p> <p>6 A. I am not aware of the District considering</p> <p>7 this report, and no, we did not do a re-evaluation</p> <p>8 at this time.</p> <p>9 Q. Okay. At P-23, the IEP dated October 15th of</p> <p>10 '07, ---</p> <p>11 A. Yes.</p> <p>12 Q. --- this is the evaluation where George was</p> <p>13 discontinued from speech?</p> <p>14 A. Yes.</p> <p>15 Q. Is it also correct to say there was no</p> <p>16 evaluation to further discuss the issues regarding</p> <p>17 receptive and language disorders; is that correct?</p> <p>18 A. That is correct.</p> <p>19 Q. At this point in time, George's computer was</p> <p>20 taken away from him. What happened with that?</p> <p>21 ATTORNEY CLARK:</p> <p>22 Objection. That's presupposing that</p> <p>23 his computer was taken away from him.</p> <p>24 HEARING OFFICER:</p> <p>25 Let me say it this way. If a</p>
Page 1157	Page 1159
<p>1 A. I don't know.</p> <p>2 (Parents' Exhibit 21 marked for</p> <p>3 identification.)</p> <p>4 BY ATTORNEY HUSIC:</p> <p>5 Q. P-21, do you recall having received this</p> <p>6 evaluation from the Peiffers?</p> <p>7 A. I don't recall specifically. I recall seeing</p> <p>8 this evaluation. I don't recall who specifically</p> <p>9 gave it to me.</p> <p>10 Q. And on page six of seven, in the diagnostic</p> <p>11 impression, do you see there's also an issue with</p> <p>12 mathematics disorder?</p> <p>13 A. Yes.</p> <p>14 Q. Do you know if this was discussed by the IEP</p> <p>15 team during the '07-'08 school year, which would</p> <p>16 have been George's eighth grade and when you were</p> <p>17 involved?</p> <p>18 A. I don't remember considering this, no.</p> <p>19 Q. Do you know if the team, during eighth grade,</p> <p>20 addressed, at all, the diagnostic impressions as</p> <p>21 related to George's behaviors?</p> <p>22 A. On page six?</p> <p>23 Q. Yes.</p> <p>24 A. No, I don't remember that.</p> <p>25 Q. Okay. On page seven of that evaluation, point</p>	<p>1 computer was discontinued as an assistive</p> <p>2 technology or some kind of related service or</p> <p>3 both, we'll just refer to it as removal of the</p> <p>4 computer from the student's program.</p> <p>5 ATTORNEY HUSIC:</p> <p>6 You know what, if I can rephrase</p> <p>7 that, maybe it will help.</p> <p>8 HEARING OFFICER:</p> <p>9 Okay.</p> <p>10 BY ATTORNEY HUSIC:</p> <p>11 Q. Do you remember a computer being removed from</p> <p>12 George's use at this time?</p> <p>13 A. I remember at the IEP team meeting we</p> <p>14 discussed him having a computer.</p> <p>15 Q. What I cannot tell from this IEP, and maybe</p> <p>16 you can point that out for the Hearing Officer, on</p> <p>17 October 15th, 2007, was Corrective Reading still</p> <p>18 being utilized or had it been discontinued?</p> <p>19 A. It was still being utilized in eighth grade.</p> <p>20 Q. Okay. Can you point to a goal and/or</p> <p>21 information regarding George's level that he</p> <p>22 received in Corrective Reading according to his</p> <p>23 academic functioning skills?</p> <p>24 A. The reading program would have been provided</p> <p>25 through the oral reading goal.</p>

42 (Pages 1156 to 1159)

Page 1160

1 Q. On page seven?  
 2 A. Yes. And that's how we would have measured  
 3 his progress in his reading program.  
 4 Q. So given a passage at fifth-grade level,  
 5 George will read orally at a rate of 120 words; is  
 6 that it?  
 7 A. Yes.  
 8 Q. And that's Corrective Reading?  
 9 A. Yes.  
 10 Q. Where in this IEP then does it indicate the  
 11 level that George was operating at within the  
 12 Corrective Reading program?  
 13 A. It does not have that information.  
 14 Q. If it does not have that information, how  
 15 would a reader know that the Corrective Reading  
 16 program was being used? Or would they?  
 17 A. Just by reading his IEP, it doesn't state the  
 18 Corrective Reading program is used. So no, if you  
 19 just read through his IEP you would not know this  
 20 was being used.  
 21 Q. So at this point, the Hearing Officer --- or  
 22 what you're essentially asking the Hearing Officer  
 23 is to take your recollection that the Corrective  
 24 Reading program was being implemented?  
 25 A. Yes. That's also based on observations and

Page 1161

1 knowing his programming in eighth grade.  
 2 Q. Well, specifically the Hearing Officer has to  
 3 review this document, and what he needs to  
 4 determine is whether Corrective Reading was being  
 5 implemented. And the last documentation that we  
 6 have is from the '06-'07 school year. I'm sorry,  
 7 from the '05 RR that indicates George was at Level  
 8 I. So is it your testimony that there is no other  
 9 information in subsequent IEPs that give George's  
 10 level at Corrective Reading?  
 11 ATTORNEY CLARK:  
 12 Well, first of all, I want to object  
 13 to the question, because it isn't incumbent on the  
 14 Hearing Officer to rule based only on the  
 15 documentation. It's the Hearing Officer's duty to  
 16 rule based on all the evidence, some of which may  
 17 be testimonial. So I am objecting to the  
 18 question, the way it was phrased.  
 19 HEARING OFFICER:  
 20 I thank Counsel for helping me  
 21 understand my job description. So I'll overrule  
 22 the objection. I recognize that the record  
 23 comprises both exhibits, documentary evidence and  
 24 transcript, which is testimony given under oath.  
 25 I think that the --- I think, though, the question

Page 1162

1 is appropriate if, you know, the witness can  
 2 supply an answer. Are you aware, outside of the  
 3 references to B1 SRA Corrective Reading level RR  
 4 2005 of any other reference to that as --- to SRA  
 5 Corrective Reading levels in IEP documents?  
 6 That's the question you were asked.  
 7 A. No, I'm not aware.  
 8 BY ATTORNEY HUSIC:  
 9 Q. Do you know when the Corrective Reading  
 10 program was formally discontinued?  
 11 A. At the end of eighth grade.  
 12 Q. Same exhibit, P-23, page nine, on the extended  
 13 school year part, throughout this IEP and the ones  
 14 following it, you were asked questions about the  
 15 determination for extended school year. What  
 16 appears to be absent in the IEPs is any progress  
 17 monitoring that would have indicated regression or  
 18 recoupment, as you testified to. Do you know if  
 19 any exists?  
 20 A. Yes, there are progress reports.  
 21 Q. Not progress reports, but specifically  
 22 progress reports that would have looked at  
 23 regression and recoupment.  
 24 A. The IEP team would have looked at progress  
 25 reports and determined over an extended period ---

Page 1163

1 over the summer or over Christmas break they would  
 2 have looked at those portions. But is there ---?  
 3 Go ahead. Sorry.  
 4 Q. That's okay. But for this IEP, and I'll just  
 5 cover it in one fell swoop anyway, the following  
 6 IEPs, the data, if it was taken, is not included  
 7 in any of the IEPs, is it?  
 8 A. The exclusive data, just from extended breaks  
 9 would not have been cut and pasted to here, but  
 10 the progress reports would have been discussed.  
 11 Q. Well, again, how is a person to know whether  
 12 the IEP team really actually performed the data  
 13 that was required to look at least one part of it,  
 14 being the regression and recoupment, and to say  
 15 that George didn't lose skills?  
 16 ATTORNEY CLARK:  
 17 Objection, rhetorical question. It's  
 18 argumentative.  
 19 HEARING OFFICER:  
 20 I will sustain the objection. It is  
 21 a rhetorical question, how would the IEP team do  
 22 something. So as asked, the question is  
 23 rhetorical and I'll sustain the objection.  
 24 BY ATTORNEY HUSIC:  
 25 Q. When the Hearing Officer reads the IEPs that's

43 (Pages 1160 to 1163)

Page 1164

1 pertaining to extended school year, is it correct  
 2 he will not find any document that shows the  
 3 progress or monitoring that was done for  
 4 regression or recoupment during breaks?  
 5 A. If he looks at the progress reports during the  
 6 duration of the IEP, he would see that. If he  
 7 looked at specifically this page, page nine, no,  
 8 he would not see that.  
 9 Q. Well, in this particular document then, can  
 10 you show me where the progress exists that shows  
 11 that the data was taken to show that George does  
 12 not lose skills over breaks?  
 13 A. It would be in his progress report.  
 14 ATTORNEY HUSIC:  
 15 Let me see where the progress report  
 16 is. Just a minute.  
 17 HEARING OFFICER:  
 18 P-18, the '07/'08 school year.  
 19 ATTORNEY HUSIC:  
 20 It would be on P-18.  
 21 BY ATTORNEY HUSIC:  
 22 Q. Can you point out specifically what data in  
 23 here is directed toward extended school year  
 24 determination?  
 25 A. We mainly look at the break between Christmas

Page 1165

1 and --- well, the winter holiday break. So that's  
 2 normally what we look at when determining ---. We  
 3 sometimes occasionally look at Thanksgiving or  
 4 anything that shows an extended break in  
 5 educational services. So it would be --- on the  
 6 goals it would be between the days of Christmas.  
 7 HEARING OFFICER:  
 8 If you're referring to a particular  
 9 page, what page are you referring to?  
 10 A. I'm looking right now at 3, page 3 of 12. And  
 11 we would normally look through like mid-December  
 12 to mid-January.  
 13 BY ATTORNEY HUSIC:  
 14 Q. Well, if that's the case, if you look at  
 15 December 9th of '07, the line is extremely high.  
 16 And then subsequently, if you look at December  
 17 30th and January 6th, it's very low. Do you see  
 18 those?  
 19 A. Uh-huh (yes).  
 20 Q. And then on January 13th it goes back up to  
 21 the same level, yes.  
 22 Q. But you acknowledge there is a significant  
 23 drop December 30th and January 6th?  
 24 ATTORNEY CLARK:  
 25 I don't think she testified that it

Page 1166

1 was significant.  
 2 BY ATTORNEY HUSIC:  
 3 Q. There is a decrease on December 30th and  
 4 January 6th; correct?  
 5 A. I'm sorry. Between what two dates?  
 6 Q. January 30th of '07 and January 6th of '08.  
 7 HEARING OFFICER:  
 8 You mean December 30th?  
 9 ATTORNEY HUSIC:  
 10 December 30th, correct.  
 11 A. December 30th?  
 12 BY ATTORNEY HUSIC:  
 13 Q. Of '07.  
 14 A. Yes. And?  
 15 Q. January 6th.  
 16 A. I would have --- there's a slight increase  
 17 right there.  
 18 Q. Increase of January 13th?  
 19 A. Uh-huh (yes).  
 20 Q. And the following week he drops again. Will  
 21 you agree that George's progress shows  
 22 inconsistency?  
 23 A. I would say his progress is high and low.  
 24 Q. Okay.  
 25 (Parents' Exhibits 24 and 25 marked

Page 1167

1 for identification.)  
 2 BY ATTORNEY HUSIC:  
 3 Q. At Exhibit P-24, 25, I'm just asking if you  
 4 recall these exhibits being part of George's file?  
 5 A. I don't specifically recall them being part of  
 6 his file.  
 7 Q. Do you know if during the eighth grade, the  
 8 period of time when you were involved, whether the  
 9 IEP team had a discussion regarding the treatment  
 10 plans?  
 11 A. From the IEP team meeting, I remember  
 12 discussing things such as TSS services, which this  
 13 actually speaks to, if I'm remembering correctly,  
 14 and his mobile therapist.  
 15 Q. This evaluation also includes a mathematics  
 16 disorder. Would it be fair to say that the team  
 17 would not have agreed with that?  
 18 A. If it was considered and not included in his  
 19 IEP, I would have to say that they did not agree  
 20 with that or they did not show data that would  
 21 coincide with that diagnosis.  
 22 (Parents' Exhibit 27 marked for  
 23 identification.)  
 24 BY ATTORNEY HUSIC:  
 25 Q. On P-27, this was an IEP review for George to

44 (Pages 1164 to 1167)

Page 1168

1 transition to high school. And why was that  
 2 necessary to happen? Why was there a need for an  
 3 IEP review?  
 4 A. Mr. and Mrs. Peiffer requested an IEP review  
 5 at that time.  
 6 ATTORNEY CLARK:  
 7 What exhibit are you on?  
 8 ATTORNEY HUSIC:  
 9 P-27.  
 10 ATTORNEY CLARK:  
 11 Sorry.  
 12 BY ATTORNEY HUSIC:  
 13 Q. And why did they request that meeting?  
 14 A. Just to make sure that his ninth-grade year  
 15 started off successful --- and his high school as  
 16 successfully as possible.  
 17 Q. Did they have any particular concerns about  
 18 high school?  
 19 A. Yes.  
 20 Q. And what were those concerns, to the best of  
 21 your recollection?  
 22 A. That he would continue to use the laptop at  
 23 home, that there would be an aide that would be  
 24 checking on him, that he would have a period at  
 25 the end of the day in order to get his homework

Page 1169

1 all together and to be organized. And I do  
 2 believe --- I don't know if it says it in here,  
 3 but we also talked about --- there it is, a  
 4 meeting scheduled previous to the beginning of the  
 5 school year with George, the Parents and teachers  
 6 so that Mr. and Mrs. Peiffer would have an  
 7 opportunity to go over any information they felt  
 8 was important for the teachers to know about  
 9 George before the beginning of the school year.  
 10 (Parents' Exhibit 30 marked for  
 11 identification.)  
 12 BY ATTORNEY HUSIC:  
 13 Q. Now, turning to P-30, this is the agreement to  
 14 waive the re-evaluation, considering that in 2005  
 15 there was no testing done at all of George, did  
 16 you have any concerns that there was a request by  
 17 Ms. Bingaman to waive this particular  
 18 re-evaluation?  
 19 A. No.  
 20 Q. Did Mr. Bingaman seek your input into  
 21 submitting this waiver to the Peiffers?  
 22 A. I don't recall that he did. I don't remember  
 23 any conversations about it.  
 24 Q. Okay. P-31, starting at page five, I think  
 25 this may have been referred to as a table.

Page 1170

1 BRIEF INTERRUPTION  
 2 BY ATTORNEY HUSIC:  
 3 Q. This is the first time in George's IEPs that  
 4 this particular schedule was included; would that  
 5 be fair to say?  
 6 A. That this format was included, yes, that's  
 7 correct.  
 8 Q. Yes, the schedule of classes. And would you  
 9 also agree at least with a timeline that the  
 10 Standards classes were then instituted --- I guess  
 11 became implemented in George's schedule around the  
 12 beginning of October?  
 13 A. It was around mid-October. It was after the  
 14 writing on this IEP.  
 15 Q. How did the --- well, let me ask you this. At  
 16 this IEP meeting in October, was the District at  
 17 that point contemplating removing George from the  
 18 Computer Apps and Resource Room to put him in  
 19 Standards classes?  
 20 A. At this IEP team meeting, no.  
 21 Q. Do you recall a discussion by the IEP team at  
 22 that time that the schedule was included in  
 23 George's IEP so that he would have the benefit of  
 24 the Computer Applications class and the Resource  
 25 Room?

Page 1171

1 A. This was discussed just as a reporting of  
 2 grades in the present levels.  
 3 Q. So it's your opinion that this is not  
 4 considered to be part of George's IEP?  
 5 A. The grades, the reporting of the grades at his  
 6 present level of academic achievement is what was  
 7 shown here, with a date, as of a certain date  
 8 period, because sometimes at IEP meetings they  
 9 would fluctuate and the Parents looked the morning  
 10 before and the grade is different. So it's an  
 11 explanation as to why grades might be different  
 12 from present levels.  
 13 Q. But insofar as the classes themselves, they  
 14 were not part of George's IEP?  
 15 A. The class with the grade was the reporting.  
 16 So we always report the classes that the students  
 17 are in and the grades, yes. And that's always  
 18 part of the present levels.  
 19 Q. Did you consider these classes part of  
 20 George's IEP?  
 21 A. These classes are the classes that George was  
 22 enrolled in as of September 30th of '08 as a  
 23 reporting of the grade that he was obtaining in  
 24 that class at that time.  
 25 Q. Would it change if those classes --- a removal

45 (Pages 1168 to 1171)

Page 1172

Page 1174

1 of those classes, specifically Computer Apps and  
2 Resource Room, would those be considered ---  
3 removal of Computer Apps and Resource and the  
4 substituting of Standards English and Math, would  
5 you believe --- would you consider that to be a  
6 denial of FAPE?

7 A. No.

8 Q. Why not?

9 A. I would consider that changes in his class  
10 periods, but I would also say that  
11 specially-designed instruction and his goals were  
12 adhered to in his IEP at this time, regardless of  
13 the curriculum that was presented.

14 Q. Now, the IEP, at page eight --- the PSSA  
15 results that I'm looking at toward the bottom of  
16 the page, the District already had these results,  
17 obviously, because it's incorporated in the IEP;  
18 correct?

19 A. Correct.

20 Q. Well, having that knowledge, is it your  
21 testimony that this IEP team did not discuss  
22 removing George from Computer Apps and Resource  
23 Room to put him in the Standards classes?

24 A. That is correct.

25 Q. Did the change in George being placed in

1 established yet that someone from the IEP had to  
2 do that.

3 ATTORNEY HUSIC:

4 Well, you know, then I'll rephrase.

5 BY ATTORNEY HUSIC:

6 Q. How did George get taken out of the classes?  
7 Who said it or how did it happen?

8 A. That occurred --- basically the administration  
9 --- I do believe it was the high school  
10 administration, I think the guidance department,  
11 became aware that there was a large number of  
12 students that were supposed to be enrolled in the  
13 Standards classes based on their PSSA results and  
14 were not. And that occurred early October,  
15 mid-October. So that's when we determined that  
16 these students needed these courses. That's when  
17 we sent the letter out communicating that to the  
18 Parents.

19 Q. This isn't the IEP where George is ---  
20 backtrack that. I wanted to ask you ---. What is  
21 your understanding of the interaction between the  
22 IDEA and No Child Left Behind?

23 ATTORNEY CLARK:

24 I think that that calls for a legal  
25 conclusion, and I don't know that any witness is

Page 1173

Page 1175

1 Standards classes come about suddenly?

2 ATTORNEY CLARK:

3 What do you mean by suddenly?

4 HEARING OFFICER:

5 Well, is that an objection?

6 ATTORNEY CLARK:

7 It's an objection. Vague question.

8 A. Sure.

9 HEARING OFFICER:

10 Ms. Sawyer has objected to the  
11 question.

12 BY ATTORNEY HUSIC:

13 Q. On October 2nd there was no discussion and,  
14 according to your testimony, there was no intent  
15 to move George out of the schedule that was listed  
16 in the IEP?

17 A. Correct.

18 Q. How did the process come about that you or  
19 someone from the IEP said that George was to be  
20 moved out of these two --- out of his Computer  
21 Apps and Resource Room and then placed into  
22 Standards English and Math?

23 ATTORNEY CLARK:

24 Well, I'm going to object to the  
25 question because I don't know that it's been

1 the right witness to be giving that answer. And I  
2 don't know that this witness is the right witness  
3 to be giving that answer.

4 HEARING OFFICER:

5 Do you have a response, Ms. Husic?

6 ATTORNEY HUSIC:

7 I do. What's at issue here is the  
8 appropriateness of George's program, which  
9 includes placements into Standards Math. And you  
10 know, we --- while we're not asking the Hearing  
11 Officer, of course, to look at the Standards  
12 classes, we are asking that the Hearing Officer  
13 look at the appropriateness of George's placement.  
14 The problem is --- and his program. I mean, in  
15 that, we can't overlook this mix or this nexus or  
16 this connection that the District just placed  
17 between whether a student receives FAPE and under  
18 the terms of IDEA versus the District's need, if  
19 you will, to ensure that a child is reaching  
20 adequate yearly progress and receives --- you  
21 know, achieves a score of proficient on the PSSA  
22 scores. And it appears that those two interact,  
23 you know, possibly in this case not a very  
24 positive way. And I think it is very probative to  
25 see when you have a student, when you have George,

Page 1176

1 who's sort of caught in the mix of IDEA versus No  
 2 Child Left Behind.  
 3 HEARING OFFICER:  
 4 I will sustain the objection to the  
 5 extent that the question, as asked, was broad,  
 6 what is your understanding of the interaction.  
 7 And I don't know that this witness' --- I don't  
 8 know that the witness can answer the question or  
 9 not. But regardless, I don't know that it is  
 10 probative in that her knowledge of how those two  
 11 statutes might interact I don't think gets to the  
 12 provision of FAPE under the terms of an IEP to  
 13 this student. I'm not saying --- and I recognize  
 14 the issues you bring up. They are involved in  
 15 perhaps resolution of the issues. I'm just saying  
 16 that I don't think this witness can explain  
 17 through the answer to that question how that forms  
 18 the provision of FAPE to George Willoughby. And  
 19 it may just be the way the question was asked  
 20 because it is broadly asked. But regardless, I  
 21 don't think the witness needs to tell us her  
 22 opinion of the interaction of those two statutes  
 23 in general, so I'll sustain the objection.  
 24 BY ATTORNEY HUSIC:  
 25 Q. Can you describe the interaction between

Page 1177

1 George receiving FAPE versus George's adequate  
 2 yearly progress?  
 3 ATTORNEY CLARK:  
 4 The same objection.  
 5 HEARING OFFICER:  
 6 I am going to overrule this objection  
 7 because I think that that is a question the  
 8 witness can answer, in her view, that is the  
 9 interaction between George Willoughby's --- the  
 10 provision of FAPE to George Willoughby and George  
 11 Willoughby's --- the results that George  
 12 Willoughby receives on the PSSA. I say that  
 13 because at least to this point, I have heard about  
 14 instruction in reading and mathematics that is  
 15 geared towards --- or at least triangulated  
 16 against PSSA results. So to that extent, I think  
 17 it is a relevant question. And asked more  
 18 specifically in terms of this student's education  
 19 program, I think it's --- I think it's allowable.  
 20 So you can answer the question.  
 21 A. Just to clarify, a student doesn't make  
 22 adequately yearly progress, the School District  
 23 does. So we basically give the Standards so that  
 24 students are scoring proficient or advanced.  
 25 That's the level that we want them to get to.

Page 1178

1 with that clarified, putting students into those  
 2 classes does not deny them FAPE. We make sure  
 3 that specially-designed instruction and the  
 4 instruction that they are receiving are  
 5 appropriate for their instructional levels. If we  
 6 have to modify that or accommodate for that or if  
 7 there has to be a different type of pull-out  
 8 situation for that student, we do that, but they  
 9 are additional classes of language arts and math  
 10 geared towards the Standards.  
 11 BY ATTORNEY HUSIC:  
 12 Q. What specially-designed instruction is geared  
 13 toward Standards English and Math?  
 14 A. It would be any of the student's SDIs that the  
 15 IEP team feels that are appropriate for that  
 16 student. But those SDIs would also be carried  
 17 out, such as study guides provided, those type of  
 18 specially-designed instruction.  
 19 Q. Do you know if George currently gets study  
 20 guides for his Standards classes?  
 21 A. I don't specifically know, because I'm not  
 22 with him every day. I would say that if it's in  
 23 his SDIs and it's covered by --- supposed to be in  
 24 that location, yes, he would receive them.  
 25 Q. What level of observation or how much

Page 1179

1 observation do you do of George's classes to  
 2 ensure compliance with his IEP?  
 3 A. Do you mean observing George specifically?  
 4 Q. Yes, and including his teachers.  
 5 A. I don't do any kind of specific observations.  
 6 The case manager does most of that. By the case  
 7 manager, I mean Mr. Bingaman.  
 8 Q. From what I recall, Mr. Bingaman did not  
 9 appear to have any special ed credentials; is that  
 10 correct?  
 11 A. That's incorrect.  
 12 Q. There were some issues with Mr. Bingaman's  
 13 credentials. Does he hold a special ed degree?  
 14 A. Yes.  
 15 Q. Is he certified?  
 16 A. Yes.  
 17 Q. He does not teach any special ed classes or he  
 18 does?  
 19 A. He does.  
 20 Q. Okay. I don't understand the role of a case  
 21 manager. How is that different from what you do?  
 22 ATTORNEY CLARK:  
 23 Objection. Beyond the scope of her  
 24 testimony.  
 25 HEARING OFFICER:

47 (Pages 1176 to 1179)

Page 1180

1 And do you have an offer of proof? I  
 2 mean, I should say I'll hear an offer of proof.  
 3 ATTORNEY CLARK:  
 4 I'm just wondering if he's a  
 5 full-time teacher and engaging in his own duties,  
 6 how does he have time to really go out and observe  
 7 George's program to ensure compliance?  
 8 HEARING OFFICER:  
 9 My recollection of Mr. Bingaman's  
 10 testimony is that he explained his duties within  
 11 the context of the District's special education  
 12 process. So I think that --- I think that ground  
 13 has been covered in terms of Mr. Bingaman's role.  
 14 ATTORNEY HUSIC:  
 15 Okay. That's fine.  
 16 HEARING OFFICER:  
 17 Yeah, so I'll ask you to move on.  
 18 ATTORNEY HUSIC:  
 19 Sure.  
 20 HEARING OFFICER:  
 21 I don't know that it's beyond the  
 22 scope of Direct, but the offer of proof ---.  
 23 BY ATTORNEY HUSIC:  
 24 Q. During the testimony of the principal of the  
 25 vo-tech, you were sitting here during that and you

Page 1181

1 heard that they're not longer implementing the  
 2 checklists at vo-tech.  
 3 A. Okay.  
 4 Q. There is no IEP review in the document that  
 5 gave permission for that change to take place.  
 6 Who was monitoring the non-compliance of vo-tech  
 7 to that particular aspect of the IEP?  
 8 ATTORNEY CLARK:  
 9 Objection. Presupposes that there's  
 10 non-compliance.  
 11 ATTORNEY HUSIC:  
 12 Well, that is non-compliance. It is  
 13 in the IEP.  
 14 ATTORNEY CLARK:  
 15 That's an argument. You need to  
 16 establish with the witness first whether it is  
 17 non-compliance. She may not agree.  
 18 HEARING OFFICER:  
 19 Well, first of all, if it's just a  
 20 linguistic or a semantic matter, then why don't we  
 21 say non-compliance with the checklist, whatever  
 22 that thing is? You know, whether or not people  
 23 want to argue about what that means,  
 24 non-implementation of the checklist, everyone  
 25 agrees that's not happening. So let's refer to it

Page 1182

1 as non-implementation of the checklist and then  
 2 that way it's --- I don't think there's any  
 3 dispute that it is being implemented at vo-tech,  
 4 so it's a non-implementation of the checklist.  
 5 Then that'll get us over the semantics.  
 6 ATTORNEY HUSIC:  
 7 Okay.  
 8 BY ATTORNEY HUSIC:  
 9 Q. Non-implementation of the checklist at  
 10 vo-tech.  
 11 ATTORNEY CLARK:  
 12 What's the question?  
 13 ATTORNEY HUSIC:  
 14 Just a minute. I'm getting there. I  
 15 just wanted to set the issue out there.  
 16 BY ATTORNEY HUSIC:  
 17 Q. Were you aware that that was not being  
 18 implemented at vo-tech?  
 19 A. Yes, I was.  
 20 Q. Okay. There was no IEP review documentation  
 21 that gave permission to have that modification,  
 22 was there?  
 23 A. No.  
 24 Q. Okay. Who was monitoring that, the checklist  
 25 and oversee that George's IEP is being implemented

Page 1183

1 at vo-tech?  
 2 A. That would be the principal of vo-tech, and I  
 3 always oversee the local education ---.  
 4 Q. Did you point out to the principal that there  
 5 was non-implementation of a integral part of  
 6 George's IEP?  
 7 ATTORNEY CLARK:  
 8 Objection. I would just object to  
 9 the term integral.  
 10 HEARING OFFICER:  
 11 Well ---.  
 12 ATTORNEY HUSIC:  
 13 Well, I mean, I guess it's semantics.  
 14 I will take out integral and talk about the  
 15 checklist and --- you know.  
 16 BY ATTORNEY HUSIC:  
 17 Q. Did you notify the principal at vo-tech that  
 18 she unilaterally chose not to implement a part of  
 19 George's IEP?  
 20 ATTORNEY CLARK:  
 21 Well, if the word unilateral ---.  
 22 HEARING OFFICER:  
 23 Well, okay.  
 24 ATTORNEY HUSIC:  
 25 Well, I think the principal testified

48 (Pages 1180 to 1183)

Page 1184

1 to that, ---  
 2 HEARING OFFICER:  
 3 Right.  
 4 ATTORNEY HUSIC:  
 5 --- that she did it unilaterally.  
 6 HEARING OFFICER:  
 7 I do recall that testimony, but  
 8 regardless, if it inflames the District, I'm just  
 9 more interested in moving on. So were you  
 10 informed about the non-implementation?  
 11 A. I was in a meeting where we discussed it, and  
 12 since the checklist is tied to progress  
 13 monitoring, goal number seven. They basically  
 14 said at that meeting that he was doing okay with  
 15 all of this organization.  
 16 So that's when we --- George was there, Mrs.  
 17 Peiffer and myself, and I believe the guidance  
 18 counselor from over there, a regular education  
 19 teacher and the principal that you were referring  
 20 to. And we discussed not having to monitor his  
 21 progress on that specific checklist anymore  
 22 because he was doing those type of things and the  
 23 reminders were adequate enough.  
 24 BY ATTORNEY HUSIC:  
 25 Q. And again, there was no IEP review that would

Page 1185

1 follow that progress and document that change; is  
 2 that correct?  
 3 A. There is no IEP review to reflect that because  
 4 we didn't change his programming at all. We just  
 5 weren't monitoring his progress at vo-tech.  
 6 Q. At P-31, on page 8, ---  
 7 A. Yeah.  
 8 Q. --- under the fluency goal you testified about  
 9 George's progress over the years and the fact that  
 10 he did not need extended school year because he  
 11 did not regress or recoup material after a break.  
 12 After reading this fluency statement, would you  
 13 change your mind about George's ability to recoup  
 14 and recover after a break or at least his  
 15 consistency in performing on this particular goal?  
 16 A. No, because it says that he made progress; he  
 17 just did not master it.  
 18 Q. And because of that, on page 13, his goal was  
 19 dropped to 100 words as a result of that?  
 20 A. Correct.  
 21 Q. And this goal does not address in any error  
 22 rates; does it?  
 23 A. The fluency read would be rate and accuracy,  
 24 so within the accuracy portion, that would be the  
 25 errors. So he has to read the word correctly in

Page 1186

1 that minute in order to get credit. So if he made  
 2 an error on a word within that minute, it would  
 3 not count.  
 4 Q. On page 33, P-33. I'm sorry, P-33. Do you  
 5 recall seeing this report from Penn State Hershey  
 6 Medical Center?  
 7 A I recall receiving a copy. I don't  
 8 recall ---.  
 9 Q. Okay. On P-33, page 3, ---  
 10 A. Yes.  
 11 Q. --- under the diagnosis of learning disability  
 12 Doctor Tresher indicates concerns about anxiety.  
 13 Did the IEP not agree with this neurologist that  
 14 George may be experiencing anxiety?  
 15 A. I wouldn't necessarily conclude that. I would  
 16 conclude that the anxiety disorder was not  
 17 impacting his education. It does say here about a  
 18 learning disability, but --- which would impact  
 19 his education, but not necessarily anxiety.  
 20 Q. On page four, there's other recommendations.  
 21 Now, there was quite a --- there was a lag in the  
 22 point for the neuropsych, neuropsychological  
 23 testing; correct?  
 24 A. What do you mean by a lag?  
 25 Q. From the time that Doctor Tresher made the

Page 1187

1 recommendation on September 3rd to the point that  
 2 George actually received the neuropsych eval.  
 3 A. It was about five months, maybe. We had  
 4 unsuccessfully tried to find one before the  
 5 review ---  
 6 Q. Okay.  
 7 A. --- provided that information.  
 8 Q. Okay. And you see recommendation number two  
 9 where it's actually Doctor Tresher that recommends  
 10 Doctor Krecko ---  
 11 A. Okay.  
 12 Q. --- to do the psychiatric. Would you agree  
 13 with that?  
 14 A Yes.  
 15 Q. Okay. Do you know if the IEP team discussed  
 16 the results of this evaluation at all?  
 17 A. I don't remember that specifically.  
 18 Q. Okay. At P-35 what I wanted to ask you, is  
 19 this the letter that you indicated the District  
 20 sent out notifying parents that their students or  
 21 specifically that George would placed in Standards  
 22 classes?  
 23 (Parents' Exhibit 35 marked for  
 24 identification.)  
 25 A. Yes.

49 (Pages 1184 to 1187)

Page 1188

Page 1190

1 BY ATTORNEY HUSIC:

2 Q. I don't see in this letter that anywhere it  
3 indicates that George would be removed from  
4 classes to go into Standards. So is this not the  
5 letter?

6 A. I'm not exactly sure if this is the letter or  
7 not. I know I was informed that a letter went out  
8 to students.

9 Q. Okay.

10 A. They also had a meeting. I was at the parent  
11 meeting, so I'm not sure the specific letter that  
12 was sent out to the parents.

13 Q. All right. That's fine. On P-37 I've kind of  
14 already talked about the evaluation, but I wanted  
15 to direct your attention to page 17 and 18 of  
16 P-37. This is the Parents' dissent. My question  
17 is, after this was provided to you, the notice of  
18 their dissent to the re-evaluation report, can you  
19 say how you addressed their issues listed here in  
20 correspondence dated April 28th, 2009?

21 A. I attached this to their dissent to the re-  
22 evaluation, and I notified our attorney, Frank  
23 Clark.

24 Q. Did the team reconvene to discuss their  
25 concerns, if you know?

1 support?

2 A. Yes.

3 Q. Does George receive any instruction in typing  
4 currently? With regard to George's issues ---?

5 A. No.

6 OFF RECORD DISCUSSION

7 A. No. Sorry.

8 BY ATTORNEY HUSIC:

9 Q. With regard to the various evaluators over  
10 time that indicated George has a learning  
11 disability in math, yet part of your Direct  
12 testimony, you focused on --- addressed the issue  
13 of George taking algebra in ninth grade. Do you  
14 recall that George also had algebra in eighth  
15 grade, so in a sense he repeated the same class in  
16 ninth grade?

17 A. In my understanding of the eighth grade  
18 curriculum, it's a pre-algebra class. And the  
19 ninth grade is algebra. Whether or not the  
20 specific content was the same, I am not aware of  
21 that.

22 Q. As the Director of Special Ed, how do you  
23 reconcile all these reports that we went through  
24 from the end of seventh grade to current that  
25 still say that George has a learning disability in

Page 1189

Page 1191

1 A. The re-evaluation team?

2 Q. Yes. Or the IEP team, to discuss their  
3 concerns listed in the dissent.

4 A. We discussed these at the August IEP meeting,  
5 or maybe that was another letter. No, we did not  
6 discuss these.

7 Q. The changes that the Parent requested, they  
8 list nine different points. Would it be correct  
9 to say that the multi-disciplinary team never  
10 issued another RR to incorporate their issues?  
11 Would that be fair?

12 A. That would be correct.

13 Q. Okay. On P-38, the Parents --- page 36, the  
14 Parents also indicated their concerns regarding  
15 the IEP. Was an IEP meeting convened after this,  
16 after their concerns to address those?

17 A. This was the letter I referred to before.

18 Yes. We did address all of these in the IEP  
19 meeting. That was August 26th.

20 Q. On page 40 and 41, as of this NOREP on May 5th  
21 of 2009, or at least what would've been in effect  
22 then the following school year, half vo-tech and  
23 then half Fayette School, ---

24 A. Right.

25 Q. --- do you consider that full time learning

1 math, but yet the IEP team never addresses that?  
2 As the director, how do you reconcile that?

3 A. I would reconcile that as we programmed for  
4 appropriateness within his math skills. So we  
5 don't necessarily program based on a specific  
6 label to a child, but we program based on the  
7 student's needs as evidenced through progress on  
8 their goals, as evidenced in teacher reports, as  
9 evidenced in assessments, as evidenced on  
10 information provided from all the team members,  
11 including their parents. So we take that all into  
12 account.

13 Q. Now, at P-39, that was the IEP meeting that we  
14 covered this school year.

15 ATTORNEY CLARK:

16 Excuse me. Are you at a break point?

17 ATTORNEY HUSIC:

18 Pardon me?

19 ATTORNEY CLARK:

20 Are you near a break point?

21 ATTORNEY HUSIC:

22 Yeah, you know, I'm sort of winding  
23 down here.

24 ATTORNEY CLARK:

25 Okay.

Page 1192

1 ATTORNEY HUSIC:  
 2 If you want to ---.  
 3 ATTORNEY CLARK:  
 4 No, go ahead.  
 5 ATTORNEY HUSIC:  
 6 Oh, okay.  
 7 ATTORNEY CLARK:  
 8 I don't want to stop you if you're  
 9 winding down.  
 10 ATTORNEY HUSIC:  
 11 Thank you, Mr. Clark.  
 12 BY ATTORNEY HUSIC:  
 13 Q. On P-39, that was a rather controversial IEP  
 14 meeting. Do you recall that?  
 15 A. How would you define controversial?  
 16 Q. Okay. The Parent, if you recall, was not  
 17 going to sign the NOREP, and at that IEP meeting  
 18 the day before school was to start, the Parent was  
 19 told that George would not be able to start  
 20 vo-tech the next day. Do you remember that  
 21 discussion?  
 22 A. Yes, I remember the discussion.  
 23 Q. Well, what I'm wondering is how is it that the  
 24 District would justify taking away classes or  
 25 courses in the previous year that had to do with

Page 1193

1 computer apps and resource rooms substitute it  
 2 with Standards, and then the following school year  
 3 the day before classes was to start, the School  
 4 District indicated that they would not permit  
 5 George to go to vo-tech the following day? How do  
 6 you justify those differences in what was going to  
 7 happen?  
 8 A. I think they're two different issues. I think  
 9 in ninth grade we had a mistake in the curriculum  
 10 that we were providing so that we were still  
 11 providing for his needs based on his IEP, but we  
 12 had different curricular changes. And this IEP  
 13 with the vo-tech, services would be delivered in a  
 14 different setting.  
 15 It goes back to the transition goals and his  
 16 outcomes, so vo-tech is an integral part of his  
 17 tenth grade IEP. And the Standards classes and  
 18 implementing those type of things was not an  
 19 integral or a piece of his IEP in ninth grade. We  
 20 still carried out --- in ninth grade we still  
 21 carried out his IEP with the addition of the  
 22 Standards classes.  
 23 But then this one, it would have to show that  
 24 the education was being delivered at the  
 25 Cumberland Perry Area Vocational Technical School,

Page 1194

1 and it was a major portion of his IEP. And it  
 2 continues to be a major portion.  
 3 Q. Right. Well, why the day before school was to  
 4 start, the only part of the IEP that was not  
 5 permitted to be implemented was the vo-tech part?  
 6 A. What do you mean by that?  
 7 Q. Well, at that meeting the IEP team discussed  
 8 that if they --- if the Parent did not sign this  
 9 NOREP, George would not be permitted to start  
 10 vo-tech the next day.  
 11 A. I don't remember that being stated. I  
 12 remember it being stated that if the Parents did  
 13 not agree to a new IEP, we would revert to the  
 14 previously agreed to one, and I remember having a  
 15 conversation with you and Mr. Clark and our  
 16 Hearing Officer at the time to discuss that issue.  
 17 But it was my understanding that, and it continues  
 18 to be my understanding, if a parent doesn't agree  
 19 with an IEP, it reverts to the last IEP that was  
 20 agreed to by the IEP team and accepted by the  
 21 Parent, which would be the October 2009 IEP in  
 22 this case.  
 23 Q. But the Parent also did not agree with the  
 24 implementation of the Standards.  
 25 ATTORNEY CLARK:

Page 1195

1 I think now we're getting into  
 2 argument. I think --- we are aware of the facts  
 3 on this issue, and all we're establishing now is a  
 4 difference of opinion.  
 5 HEARING OFFICER:  
 6 Yeah, I'll sustain the objection. I  
 7 think it's been asked and answered. The answer to  
 8 the question is, as I heard it, that without an  
 9 agreed to IEP, the pendent placement is the last  
 10 agreed upon placement.  
 11 BY ATTORNEY HUSIC:  
 12 Q. What goals and objectives made the August IEP  
 13 much different from the April IEP? In other  
 14 words, in your mind, what was so different between  
 15 the April '09 IEP and the August '09 IEP?  
 16 ATTORNEY CLARK:  
 17 Well, let me just pose an objection.  
 18 You mean the April 2009 IEP for which the Parents  
 19 also rejected on the NOREP?  
 20 ATTORNEY HUSIC:  
 21 Correct.  
 22 ATTORNEY CLARK:  
 23 I'm not sure I understand where that  
 24 question's going since we have an IEP that's not  
 25 in effect. The witness has already testified the

51 (Pages 1192 to 1195)

Page 1196

1 one that was in effect was the one from October of  
 2 2008. So that question should be comparing the  
 3 August IEP versus the October 2008 IEP.  
 4 HEARING OFFICER:  
 5 Well, is the objection an offer of  
 6 proof? I mean, I don't know what the objection  
 7 is.  
 8 ATTORNEY CLARK:  
 9 Well, I think it's an improper  
 10 question, because we're talking about --- well,  
 11 Ms. Husic's question is premised on the, quote,  
 12 April IEP, unquote, which is an entirely  
 13 theoretical document, as I understand it, because  
 14 it was never put into effect. So when she's  
 15 asking what's the difference between the August  
 16 IEP and another IEP, it ought to be the one that  
 17 was saying in effect.  
 18 HEARING OFFICER:  
 19 Well ---.  
 20 ATTORNEY HUSIC:  
 21 Well, my point is, if I could  
 22 respond, is that I would say virtually there is  
 23 very, very little difference. And what happened  
 24 basically, our offer of proof, is that the Parents  
 25 were compelled to sign the August IEP, which

Page 1197

1 represents very little difference from the one  
 2 they rejected only four months earlier, because  
 3 George would've not been permitted to attend  
 4 vo-tech.  
 5 HEARING OFFICER:  
 6 Well, give me a second. I'm going to  
 7 overrule the objection, but answer the question  
 8 --- this question if you would. If the IEP in  
 9 April 2009 was appropriate in the eyes of the  
 10 District as offered and the IEP in August 2009 was  
 11 appropriate in the eyes of the District as  
 12 offered, what is it --- what accounts for any  
 13 differences between those two IEPs from the  
 14 District's perspective?  
 15 A. From the District's perspective, the only  
 16 differences we made were the ones as outlined from  
 17 Mrs. Peiffer's letter as to why she didn't agree  
 18 with the IEP. So we went back in August,  
 19 discussed those matters, added things such as the  
 20 Earobics, those type of things that she had  
 21 brought up as an issue, and we added those things,  
 22 and that was the difference.  
 23 HEARING OFFICER:  
 24 So there should be no difference  
 25 between the IEPs upon examination outside of what

Page 1198

1 the family voiced in terms of its letter?  
 2 A. Correct. There's numbering of goals, there's  
 3 --- I think we added a different language, speech.  
 4 But you can tell from the IEP dated in August,  
 5 it's the handwritten notes except for a few in  
 6 here that Mrs. Peiffer made herself.  
 7 HEARING OFFICER:  
 8 Oh, okay. I'm interested in  
 9 reviewing the documents, and I want to understand  
 10 your testimony. Your testimony is that the only  
 11 changes in substance made to those two IEPs were  
 12 at the behest of the Parents?  
 13 A. Yes.  
 14 HEARING OFFICER:  
 15 And that the District's program, in  
 16 effect, remained largely the same in terms of what  
 17 it was proposing to offer through the IEP?  
 18 A. Yeah.  
 19 HEARING OFFICER:  
 20 I think that answers the question ---  
 21 ATTORNEY HUSIC:  
 22 Okay.  
 23 HEARING OFFICER:  
 24 --- between the two documents, from  
 25 my perspective.

Page 1199

1 ATTORNEY HUSIC:  
 2 Okay. I don't have anything further.  
 3 HEARING OFFICER:  
 4 Okay. Is there any Redirect?  
 5 ATTORNEY CLARK:  
 6 Yes.  
 7 HEARING OFFICER:  
 8 Let me ask it this way. How brief is  
 9 it going --- is the Redirect going to be?  
 10 ATTORNEY CLARK:  
 11 Well, I'm pretty confident it will be  
 12 less than 15 minutes.  
 13 HEARING OFFICER:  
 14 Okay. Here's the situation. It's  
 15 2:35. I will give you 15 minutes, and then you'll  
 16 have 10 minutes on Recross so we'll be done with  
 17 this witness by three o'clock.  
 18 ATTORNEY CLARK:  
 19 Ready?  
 20 HEARING OFFICER:  
 21 Yes, yes. Thank you.  
 22 REDIRECT EXAMINATION  
 23 BY ATTORNEY CLARK:  
 24 Q. With regard to Exhibit P-39, you were asked  
 25 questions about the checklist and its, quote,

52 (Pages 1196 to 1199)

SARGENT'S COURT REPORTING SERVICES, INC.

(814) 536-8908

Page 1200

1 non-implementation, unquote, at Cumberland Perry  
 2 Vo-tech. To what extent, if at all, was that  
 3 checklist specially designed instruction for  
 4 George?  
 5 A. It was not.  
 6 Q. What was it?  
 7 A. It was to measure the progress on a goal,  
 8 number seven, where it's indicated. It's called a  
 9 daily checklist, there attached.  
 10 Q. With regard to Exhibit P-37, pages 17 and 18,  
 11 that's the April 28 letter, objection letter from  
 12 the Peiffers.  
 13 A. Uh-huh (yes).  
 14 Q. As you read this letter, did she provide any  
 15 information to really change the outcome of the  
 16 re-evaluation report?  
 17 A. No, she just wanted copies of certain, like,  
 18 things, like the OT alphabet test and observation  
 19 and then the review of handwriting samples. So  
 20 she was requesting certain documents. There's  
 21 also, I think, a term that one of the teachers  
 22 used that we were supposed to take out of the  
 23 document that we discussed at the re-evaluation  
 24 meeting. However, it wasn't taking out of the  
 25 documents, so ---.

Page 1201

1 BRIEF INTERRUPTION  
 2 HEARING OFFICER:  
 3 You were kind of cut off in your  
 4 answer, and I apologize for that announcement, so  
 5 did you have anything to complete your answer?  
 6 A. I don't think. I was just saying that there  
 7 was a teacher comment that we wanted taken out  
 8 because it was inaccurate, and we forgot to take  
 9 it out of the final copy of the document.  
 10 BY ATTORNEY CLARK:  
 11 Q. Anything else?  
 12 A. No, the rest was all ---.  
 13 Q. You were asked questions about several  
 14 evaluations, and I want to kind of go through  
 15 them. Okay. P-33.  
 16 (Parents' Exhibit 33 marked for  
 17 identification.)  
 18 A. Yes.  
 19 BY ATTORNEY CLARK:  
 20 Q. Do you recall having received this in the  
 21 context of the re-evaluation report?  
 22 A. Do you mean receiving this ---?  
 23 Q. Okay. It's dated September 3, 2000?  
 24 A. Correct.  
 25 Q. Did you physically receive this as part of the

Page 1202

1 re-evaluation report?  
 2 A. No.  
 3 Q. Do you recall if you received it before the  
 4 re-evaluation?  
 5 A. Yes, I received it before.  
 6 Q. Okay. Did this document provide any data from  
 7 which you could conclude that George had a  
 8 specific learning disability in mathematics?  
 9 A. No.  
 10 BRIEF INTERRUPTION  
 11 BY ATTORNEY CLARK:  
 12 Q. P-25, page one includes a diagnosis of 315.1,  
 13 mathematics disorder. Was there any testing data  
 14 that supported a finding of the mathematics  
 15 disorder included with this report?  
 16 A. No, there was not.  
 17 Q. Was there any testing data that included that  
 18 George had specific learning disability in math in  
 19 this report?  
 20 A. No, because this clinician --- only a licensed  
 21 school psychologist can make a specific learning  
 22 disability determination, and since he was not,  
 23 that was all he could point out and there wasn't  
 24 any data to coincide with his diagnosis on the  
 25 disorder.

Page 1203

1 Q. Okay. P-24, page 1 shows, again, a diagnosis  
 2 of mathematics disorder. Was there any data to  
 3 support a diagnosis of the mathematics disorder?  
 4 A. Yeah, that was in the report.  
 5 Q. Was there any testing data in this document to  
 6 support a specific --- a finding of a specific  
 7 learning disability in mathematics?  
 8 A. No.  
 9 Q. Exhibit P-21, was there any testing data in  
 10 this report to support a diagnosis, and I think  
 11 it's listed on page six, of a mathematics  
 12 disorder?  
 13 A. No.  
 14 Q. Was there any testing data to support a  
 15 finding of a specific learning disability in  
 16 mathematics?  
 17 A. No.  
 18 Q. Exhibit P-20, P-7.  
 19 HEARING OFFICER:  
 20 Page seven?  
 21 BY ATTORNEY CLARK:  
 22 Q. Page seven, I'm sorry. P-20, page 7 lists a  
 23 mathematics disorder. Is there any testing in  
 24 this document to support that finding?  
 25 A. No.

53 (Pages 1200 to 1203)

Page 1204	Page 1206
<p>1 Q. Is there any testing in this report to support</p> <p>2 a finding of a specific learning disability in</p> <p>3 mathematics?</p> <p>4 A. No.</p> <p>5 Q. With regard to Exhibit P-18, page 3, you were</p> <p>6 asked some questions about the sequence in the</p> <p>7 data points between December 16th, 2007 and</p> <p>8 January 13th, 2008. Did you see any evidence</p> <p>9 within that period of time with what you would</p> <p>10 regard as regression?</p> <p>11 A. No, his scores or reading fluency did go down,</p> <p>12 but not where they --- they went right back up,</p> <p>13 and actually a higher level than they were before</p> <p>14 as of January 13.</p> <p>15 Q. And they were trending downward before the</p> <p>16 break, wouldn't you agree?</p> <p>17 A. Yes. Within that break, so they came back.</p> <p>18 Q. One more question on this. Would you conclude</p> <p>19 from that segment of time that there was a failure</p> <p>20 on George's part to recoup information previously</p> <p>21 learned?</p> <p>22 A. No.</p> <p>23 HEARING OFFICER:</p> <p>24 About five more minutes, Mr. Clark.</p> <p>25 ATTORNEY CLARK:</p>	<p>1 to appropriately get himself ready for the two</p> <p>2 vo-tech classes that he has.</p> <p>3 Q. Are you aware that if the Hearing Officer</p> <p>4 finds that to be an area of noncompliance, the</p> <p>5 District will be held liable for the vo-tech's</p> <p>6 non-implementation of that goal?</p> <p>7 ATTORNEY CLARK:</p> <p>8 Objection. I fail to see how that</p> <p>9 question has any benefit in advancing the factual</p> <p>10 inquiry in this case.</p> <p>11 HEARING OFFICER:</p> <p>12 I'll sustain the objection. It's not</p> <p>13 appropriate.</p> <p>14 ATTORNEY HUSIC:</p> <p>15 Okay.</p> <p>16 BY ATTORNEY HUSIC:</p> <p>17 Q. On P-37, number 17, page 17, what I'm looking</p> <p>18 at is the big paragraph which is actually the</p> <p>19 second paragraph. And the very last sentence that</p> <p>20 starts, we restated at the meeting --- I'm</p> <p>21 assuming the Parent is meaning the RR meeting ---</p> <p>22 the importance of including the recommendations</p> <p>23 from Doctor Grisolano into George's IEP and left</p> <p>24 expecting to reconvene to finalize the re-</p> <p>25 evaluation meeting. Did that clarify for you the</p>
Page 1205	Page 1207
<p>1 No more questions.</p> <p>2 HEARING OFFICER:</p> <p>3 Okay. Do you have any questions, Ms.</p> <p>4 Husic, over the remaining ten minutes or so on</p> <p>5 Recross Examination?</p> <p>6 ATTORNEY HUSIC:</p> <p>7 Very briefly.</p> <p>8 RE CROSS EXAMINATION</p> <p>9 BY ATTORNEY HUSIC:</p> <p>10 Q. You were asked about the checklists at P-39,</p> <p>11 and that remains as George's goal number seven;</p> <p>12 correct?</p> <p>13 HEARING OFFICER:</p> <p>14 Yes or no?</p> <p>15 A. Yes.</p> <p>16 BY ATTORNEY HUSIC:</p> <p>17 Q. And part of the compliance with that goal is</p> <p>18 it has to be implemented by the vo-tech; correct?</p> <p>19 A. It's used as a monitoring tool, so if they're</p> <p>20 not using that tool, then we can't monitor how</p> <p>21 he's doing on his organization checklist.</p> <p>22 Q. But the vo-tech personnel are not excused from</p> <p>23 implementing goal number seven; is that correct?</p> <p>24 A. That is correct. They were just saying that</p> <p>25 they don't need the checklist in order for George</p>	<p>1 Parents' intent that they felt they were coming</p> <p>2 back to another re-evaluation meeting to address</p> <p>3 Doctor Grisolano's report?</p> <p>4 A. Yes, and that was the correct direction that</p> <p>5 the District was also headed, because we hadn't</p> <p>6 received a copy of her final report as of April</p> <p>7 28, 2009.</p> <p>8 Q. So when did you finally consider Doctor</p> <p>9 Grisolano's final report?</p> <p>10 A. We received it April 29th at the IEP meeting.</p> <p>11 And up unto this point, we haven't had a meeting</p> <p>12 to consider his full evaluation. However, the IEP</p> <p>13 team has had copies and has the recommendations.</p> <p>14 Also, Doctor Grisolano had some attachments there</p> <p>15 that the teachers are also aware of. Yeah.</p> <p>16 Q. My last question, on P-18, page 3. You were</p> <p>17 asked on Redirect a question of sequencing of</p> <p>18 events and whether you saw regression. You</p> <p>19 indicated a sort of a recoupment of skills, but</p> <p>20 then if I direct your attention to the period of</p> <p>21 time starting with February 3rd of '08, February</p> <p>22 10th, February 17th, February 24th, March 2nd and</p> <p>23 March 9th, would you agree with me that those ---</p> <p>24 some of those dates in there are periods of</p> <p>25 regression that are far below the points that were</p>

54 (Pages 1204 to 1207)

Page 1208

1 identified in December?  
 2 A. Yes, some of them are lower.  
 3 Q. And how do you explain what happened during  
 4 that period of time?  
 5 A. I wouldn't be able to.  
 6 ATTORNEY HUSIC:  
 7 Okay. I don't have any further.  
 8 Thank you.  
 9 HEARING OFFICER:  
 10 Okay. I have two questions for you,  
 11 Ms. Sawyer. And the first is in the other book,  
 12 actually, S-24, page 5. And it came up  
 13 specifically in your testimony about this exhibit,  
 14 although the other exhibit we had of P-18 on page  
 15 3, which is open in front of you, the graphical  
 16 representation of progress monitoring. I think  
 17 you testified that the graphs were produced by an  
 18 Excel spreadsheet; is that correct?  
 19 A. Yes.  
 20 HEARING OFFICER:  
 21 And is that Excel spreadsheet  
 22 designed by Susquenita?  
 23 A. No.  
 24 HEARING OFFICER:  
 25 No. It's part of a package that you

Page 1209

1 purchase?  
 2 A. Yeah.  
 3 HEARING OFFICER:  
 4 I believe you testified that, and  
 5 this came up particularly on page 5 of S-24, that  
 6 when data was not produced over a certain period  
 7 that a score of zero was assigned; is that  
 8 correct?  
 9 A. I did testify to that.  
 10 HEARING OFFICER:  
 11 Yes.  
 12 A. On further understanding of that, that is not  
 13 true. It takes the data points. This is my  
 14 understanding. It takes the data points and it's  
 15 the average between the data points, so ---.  
 16 HEARING OFFICER:  
 17 So it's an average of reported data?  
 18 A. Yes, that is my belief, but I could be wrong  
 19 on that.  
 20 HEARING OFFICER:  
 21 And I think the point of my question  
 22 is that if it were to average in a score like zero  
 23 --- substantive score of zero for data goals that  
 24 were actually collected, that that would be an  
 25 inaccurate report of progress, would it not?

Page 1210

1 A. Yes.  
 2 HEARING OFFICER:  
 3 Okay. And then in terms of the  
 4 waiver of the re-evaluation, I believe you  
 5 testified that you did not recall whether or not  
 6 Mr. Bingaman had spoken with you about the waiver  
 7 issue. That's my recollection of your testimony.  
 8 A. Correct.  
 9 HEARING OFFICER:  
 10 In course of the normal practice,  
 11 would that have been --- would it have been his  
 12 decision to make to offer the waiver, or would  
 13 that have been someone else's decision?  
 14 A. That would've been a discussion between ---  
 15 the LEA and normally the case manager discusses  
 16 that with me and the Parent. So that would be a  
 17 discussion between all of those and the IEP ---  
 18 essentially the IEP team members, if they have any  
 19 impact on it. I don't remember specifically  
 20 having that discussion with Mr. Bingaman.  
 21 HEARING OFFICER:  
 22 So normally the point of waiver  
 23 would've been a team discussion, a team process?  
 24 A. Correct, correct. He would've gotten  
 25 information from all the other teachers and the

Page 1211

1 teacher previous, because I do believe that was in  
 2 September. And so we would've --- he would've had  
 3 a discussion with the middle school teachers, as  
 4 well.  
 5 HEARING OFFICER:  
 6 Right. And then having gathered that  
 7 information, and I'm talking here about a normal  
 8 --- this is the normal process; is that correct?  
 9 A. That is correct.  
 10 HEARING OFFICER:  
 11 Okay. So having gathered that  
 12 information, the case --- the case manager, having  
 13 gathered that information, would then consult with  
 14 you as the Director of Special Education; is that  
 15 correct?  
 16 A. Correct.  
 17 HEARING OFFICER:  
 18 And the Parent at the same time?  
 19 A. Yes and no. It happens both ways.  
 20 HEARING OFFICER:  
 21 Okay. So the end result on waiver is  
 22 communication between you and the case manager,  
 23 the case manager and the Parent, and potentially  
 24 all three of you, but certainly those. And I  
 25 think Mr. Bingaman had testified that it took

55 (Pages 1208 to 1211)

Page 1212

1 place in two separate conversations?  
 2 A. Yes.  
 3 HEARING OFFICER:  
 4 And ultimately the disagreement of  
 5 any one of those individuals about waiver would  
 6 mean that the re-evaluation would go forward ---  
 7 A. Correct.  
 8 HEARING OFFICER:  
 9 --- as normal?  
 10 A. Correct.  
 11 HEARING OFFICER:  
 12 I don't have any more questions for  
 13 you, so thank you very much for your  
 14 participation. We're off the record.  
 15 OFF RECORD DISCUSSION  
 16 HEARING OFFICER:  
 17 We're on the record. Doctor Sheats,  
 18 you've been here for the entirety of the  
 19 proceedings, have you not?  
 20 DOCTOR SHEATS:  
 21 Yes, sir.  
 22 HEARING OFFICER:  
 23 Okay. So you've heard my  
 24 instructions to every witness, and I'll ask you to  
 25 bear those in mind as you testify. The court

Page 1213

1 reporter will swear you in at this time.  
 2 -----  
 3 DOCTOR DANIEL W. SHEATS, HAVING FIRST BEEN DULY  
 4 SWORN, TESTIFIED AS FOLLOWS:  
 5 -----  
 6 DIRECT EXAMINATION  
 7 BY ATTORNEY CLARK:  
 8 Q. Would you state your name for the record,  
 9 please?  
 10 A. Daniel W. Sheats, S-H-E-A-T-S.  
 11 Q. And you're Doctor Sheats?  
 12 A. Yes.  
 13 Q. You are currently the superintendent of the  
 14 schools at the Susquenita School District?  
 15 A. That's correct.  
 16 Q. And you've been in that position for how long?  
 17 A. Four years.  
 18 Q. All right. I want to ask some questions about  
 19 your background. I want to start with your  
 20 educational background, that is, where you got  
 21 your degrees, not your teaching certificates, but  
 22 your degrees.  
 23 A. I have a BS from Lock Haven University. I  
 24 have a Master Degree from Penn State University  
 25 and a Doctorate --- a research-based Doctorate at

Page 1214

1 the University of Maryland.  
 2 Q. And your Bachelor's Degree was in what area?  
 3 A. Education, specifically in elementary  
 4 education.  
 5 Q. Your Master's Degree was in what?  
 6 A. It was in education with a concentration in  
 7 curriculum and instruction.  
 8 Q. And your Doctoral Degree was in what  
 9 concentration?  
 10 A. Education with concentration in curriculum and  
 11 instruction.  
 12 Q. What certifications do you hold in the  
 13 Commonwealth of Pennsylvania?  
 14 A. Within the Commonwealth, a regular education  
 15 teacher, special education teacher, principal  
 16 certification, assistant superintendent,  
 17 superintendent letter of eligibility.  
 18 Q. Does your certification --- does your  
 19 Pennsylvania certification include a certification  
 20 authorizing you to supervise programs in special  
 21 education?  
 22 A. Yes.  
 23 Q. Do you hold any certifications from outside  
 24 the Commonwealth of Pennsylvania?  
 25 A. Yes. In the State of Maryland I am certified

Page 1215

1 in regular education, K-8, supervisor, special  
 2 education, elementary and secondary principal, and  
 3 I would be eligible for superintendent  
 4 certificate. When I left the State of Maryland, I  
 5 had been trained --- I had the coursework to serve  
 6 in the capacity of a psychometrist. I did not do  
 7 the internship, I believe, to get into the  
 8 doctoral program.  
 9 Q. What do you mean by the term psychometrist?  
 10 A. I could give the standardized tests, but I  
 11 could not serve in the total function of a school  
 12 psychologist.  
 13 Q. Have any of your Maryland certificates lapsed  
 14 since your absence from Maryland?  
 15 A. I don't know the answer to that.  
 16 Q. Okay. What's your work experience in the area  
 17 of public school administration?  
 18 A. I've been the superintendent for seven years,  
 19 assistant superintendent for three. I have  
 20 supervised special education programs for last ---  
 21 well, it depends on what capacity you look at ---  
 22 maybe total about the last 24 years. I've served  
 23 as a high school principal.  
 24 Q. For how many years?  
 25 A. For three years, and elementary principal for

56 (Pages 1212 to 1215)

Page 1216

1 six. I served as a head teacher, as a gifted  
2 education teacher, a special education teacher and  
3 a regular education teacher.  
4 Q. Now, you were formally employed by the West  
5 Shore School District prior to coming to  
6 Susquenita?  
7 A. That's correct.  
8 Q. And what positions did you hold?  
9 A. I was Director of Pupil Services.  
10 Q. What did that entail?  
11 A. I was directly responsible for everything but  
12 regular education. I supervised psychologists,  
13 school security and safety, nurses, guidance  
14 counselors and all of their special education  
15 programming.  
16 Q. And how many years were you in that role?  
17 A. Twenty (20).  
18 Q. Do you have any experience teaching in higher  
19 education?  
20 A. Yes, I've taught classroom management. I've  
21 taught assessment and statistics.  
22 Q. Is that two classes or three classes?  
23 A. The assessment class is a class and statistics  
24 --- statistics for teachers is another class.  
25 Q. What does the assessment class entail?

Page 1217

1 A. Testing.  
2 Q. And what does the statistics class entail?  
3 A. The interpretation of those tests.  
4 Q. In what universities or institutions have you  
5 taught those classes?  
6 A. I taught at Washington College, University of  
7 Maryland and Penn State University.  
8 Q. Washington College is in the State of  
9 Maryland?  
10 A. Yes.  
11 Q. Have you taught those classes at the  
12 undergraduate --- I'm sorry. The classroom  
13 management, the assessment and the statistics  
14 classes, did you teach them at the graduate level,  
15 the undergraduate level or both?  
16 A. The management class was the undergrad level.  
17 The assessment and statistics was graduate level.  
18 Q. And over how many years did you teach those  
19 classes?  
20 A. Probably at the different facilities six or  
21 eight years.  
22 Q. In your role as Superintendent at Susquenita,  
23 are you the chief school administrator?  
24 A. Yes.  
25 Q. In that capacity, are you familiar with the No

Page 1218

1 Child Left Behind requirements?  
2 A. Yes.  
3 Q. Can you describe them briefly, what they are?  
4 ATTORNEY HUSIC:  
5 I'm going to raise an objection.  
6 When that was asked previously of Ms. Sawyer, the  
7 objection was that it --- you know, it calls for a  
8 legal interpretation or analysis of the  
9 regulations. And I would assert that --- with all  
10 due respect to Doctor Sheats, that it would be the  
11 same offer of proof that, you know, he would not  
12 --- you know, would not be in a position to make a  
13 legal determination about the No Child Left  
14 Behind.  
15 HEARING OFFICER:  
16 Mr. Clark, what's your response?  
17 ATTORNEY CLARK:  
18 Sure. As the chief school  
19 administrator, he can testify about the extent to  
20 which he's obligated to implement the No Child  
21 Left Behind requirements and what they are.  
22 HEARING OFFICER:  
23 Yeah, I'll ---.  
24 ATTORNEY HUSIC:  
25 Well, we'll stipulate that the

Page 1219

1 superintendent is in charge of doing the --- you  
2 know, implementing the No Child Left Behind. I  
3 don't think that's an area of dispute.  
4 HEARING OFFICER:  
5 Okay. So the stipulation is that as  
6 the chief administrative officer in the District,  
7 Doctor Sheats can testify to its implementation of  
8 No Child Left Behind requirements?  
9 ATTORNEY HUSIC:  
10 We'll stipulate that that's what he  
11 would testify to without having to go into his  
12 testimony.  
13 HEARING OFFICER:  
14 Well, yeah, I mean I'll accept the  
15 stipulation that in terms of this District's  
16 implementation of No Child Left Behind  
17 requirements, Doctor Sheats has the ability to  
18 speak to that. So we can go to more specific  
19 questions.  
20 ATTORNEY CLARK:  
21 Okay.  
22 BY ATTORNEY CLARK:  
23 Q. How are the No Child Left Behind requirements  
24 implemented at Susquenita?  
25 A. Well, they're implemented at the direction of

57 (Pages 1216 to 1219)

Page 1220

1 the Department of Education, Pennsylvania.  
 2 Q. And what direction do you get from the  
 3 Department of Education?  
 4 A. Well, basically, for example, the Chapter 4  
 5 regulations pretty much indicates these are the  
 6 things that we need to do in order to be in  
 7 compliance.  
 8 Q. When you talk about the Chapter 4 regulations,  
 9 you mean Chapter 4 regulations from the Department  
 10 of Education?  
 11 A. That's correct.  
 12 Q. At 34 Pa. Code?  
 13 HEARING EXAMINER:  
 14 Twenty-two (22).  
 15 BY ATTORNEY CLARK:  
 16 Q. Twenty-two (22) Pa. Code, I'm sorry.  
 17 A. Yeah, the subsection specifically --- well, I  
 18 won't talk about it until I'm asked.  
 19 Q. Well, what do the Chapter 4 requirements do?  
 20 A. Well, Section 4.24 are the graduation  
 21 requirements. And those requirements indicate  
 22 through 2013, 2000 --- 2013, '14 that all of our  
 23 local assessments, as well as the state  
 24 assessments must be based on the standards of the  
 25 Pennsylvania standards. And actually by 2014 the

Page 1221

1 graduation requirement is that students have to be  
 2 proficient in order to earn graduation. That's  
 3 what they currently say.  
 4 Q. And you covered two topics at this point.  
 5 First of all, what do you mean by the Pennsylvania  
 6 standards?  
 7 A. Well, basically the Pennsylvania standards  
 8 were established when the PSSAs were established.  
 9 What ended up happening is they brought a  
 10 significant number of Pennsylvania educators  
 11 together to establish face validity of the test  
 12 that was established. And so the educators might  
 13 be able to agree that a given question was taught  
 14 within the curriculums, but they couldn't agree on  
 15 when it was taught in the curriculum or that they  
 16 didn't have representatives from all 501 school  
 17 districts.  
 18 So they could not say that it had a 1.0 face  
 19 validity, meaning that everything that was asked  
 20 in the test was based on the criteria --- the PSSA  
 21 is a criteria reference test, meaning that  
 22 everything that is asked within the PSSA has been  
 23 taught to the students. Because they could not  
 24 agree that every school district taught everything  
 25 that was being assessed, they then developed a set

Page 1222

1 of Pennsylvania standards and school districts  
 2 were required to have their courses and their  
 3 local assessments in line with those standards.  
 4 Q. So standards are basically curriculum  
 5 requirements?  
 6 A. Yeah, so --- yes. And that's a little  
 7 unusual, because in Pennsylvania, school districts  
 8 have the right to establish their own curriculums.  
 9 But the State has said, yes, you can do that as  
 10 long as it --- as long as it includes these  
 11 standards.  
 12 And even before they established the  
 13 standards, they pretty much set forth the anchors.  
 14 So the anchors are the broad base and the --- for  
 15 lack of a better term, the anchors are the broad  
 16 base or the base of the hand, and the standards  
 17 are more like the fingers of the hand to reach out  
 18 and take in this all-encompassing, these various  
 19 encompassing areas.  
 20 Q. Okay. Now, you mentioned PSSAs and  
 21 proficient. Let me start with PSSAs. What are  
 22 they?  
 23 A. What are the PSSAs?  
 24 Q. Yeah.  
 25 A. They are the tests that have been established

Page 1223

1 by the State of Pennsylvania, and they were  
 2 originally developed by the State. The test  
 3 questions are no longer developed by the State.  
 4 They're developed by a company called DRC, but  
 5 they actually assess what students have been  
 6 taught through the eleventh grade.  
 7 And there are standards in reading and there  
 8 are standards in mathematics that are actually  
 9 assessed on the PSSA. And there are also writing  
 10 standards and we also have, now, science  
 11 standards, and social studies standards are  
 12 coming.  
 13 Q. Now, you used the word proficient. What does  
 14 that have to do with this?  
 15 A. Well, No Child Left Behind requires that all  
 16 children score proficient on a state based test by  
 17 2014. And there are four basic levels that have  
 18 been established in Pennsylvania: proficient,  
 19 basic, below basic and virtually advanced.  
 20 Q. So the goal is to have students at proficient?  
 21 A. All students are to be proficient by 2014 is  
 22 what the federal standards say.  
 23 Q. And how frequently are the PSSAs administered?  
 24 A. Well, PSSAs are administered every year. They  
 25 are administered in third, fourth, fifth, sixth,

Page 1224

1 seventh, eighth grade and eleventh grade.

2 Q. But not in twelfth grade?

3 A. They are not --- well, that's not exactly  
4 true, because twelfth graders now have an  
5 opportunity also by choice. It's an option. They  
6 can take a retest on the --- as seniors in the  
7 twelfth grade year for PSSAs. They aren't  
8 required to. All public school students, though,  
9 are required to take the PSSA tests in those  
10 various grades.

11 Q. You've been present for the testimony and  
12 you've heard the term AYP used. What is it and  
13 what does it mean?

14 A. Well, AYP is average yearly progress, and  
15 average yearly progress ---.

16 Q. Average or adequate?

17 A. Average yearly progress.

18 Q. Okay.

19 A. Well, you can say adequate. They use them  
20 interchangeably, but it's the standards that are  
21 established for school districts. They're not  
22 established for individual students. They are  
23 established for school districts and groups of 40  
24 or more in a given category.

25 Q. And what determines AYP?

Page 1225

1 A. You actually are taking the individual testing  
2 scores that the students produce, and then you  
3 have to show the adequate yearly progress from one  
4 year to another with the various groups within the  
5 district. You have to show them by grade, by  
6 school, by socioeconomic status, by special  
7 education grouping if you go more than 40  
8 students. So it's individual test scores  
9 providing a composite for the School District.

10 Q. And you used the term earlier today criteria  
11 based test.

12 A. Correct.

13 Q. What is that?

14 A. Criteria based test is that nothing is asked  
15 on that test unless the children have been taught  
16 those skills or those concepts. And that differs  
17 from an achievement test, where an achievement  
18 test, there's no premise that what you're testing  
19 or the skills and the knowledge that you are  
20 testing, that the students in any way have been  
21 taught that material.

22 Q. So you wouldn't call the PSSAs an achievement  
23 test?

24 A. No, absolutely not. They are not achievement  
25 tests.

Page 1226

1 Q. As the chief school administrator at  
2 Susquenita, what's your specific charge with  
3 regard to making certain that your schools reach  
4 AYP?

5 A. Well, I have a legal requirement that my  
6 students will all make AYP by 2014. That's if No  
7 Child Left Behind is reauthorized, which we're not  
8 quite sure right now where that stands. But the  
9 State of Pennsylvania has adopted that same  
10 standard, and so we have an obligation to prepare  
11 our students to be proficient. And by '13, '14  
12 that is a requirement for everyone.

13 Q. And as the chief school administrator, do you  
14 have a more specific charge about how to obtain  
15 that result?

16 A. Yes. It's my responsibility and the  
17 administrative team within the School District to  
18 make recommendations to the Board of School  
19 Directors as to how we are going to reach that  
20 standard.

21 Q. And how is that being done?

22 A. Well, actually, here the Board has adopted the  
23 premise that any student, once they enter the high  
24 school --- and I'll speak specifically to that  
25 first. Once they enter the high school that if

Page 1227

1 they --- if they have not scored proficient on the  
2 PSSAs, then they are obligated to take a Standards  
3 class, which I've heard a lot of talk today about  
4 it being Standards English, but it's really --- we  
5 offer the reading within the English program. But  
6 they have to have --- they have to be proficient  
7 in reading and they have to be proficient in  
8 mathematics.

9 Now, we also --- since the School District is  
10 judged on whether or not the students from grade  
11 three through grade eight are making AYP to meet  
12 that 100 percent proficiency standard, we also  
13 have done various things to the curriculum and the  
14 courses at the middle school, as well, which are  
15 Standards based.

16 Q. As the superintendent, did it come to your  
17 attention that there was a failure to create time  
18 for students in last year's ninth grade class to  
19 take Standards courses in English and in math?

20 A. Yes.

21 ATTORNEY HUSIC:

22 I'm going to raise an objection.

23 There was no foundation as to how the particular  
24 question to this witness actually came about.

25 HEARING OFFICER:

59 (Pages 1224 to 1227)

Page 1228

1 Well, I think in a sense it is a  
2 foundation question. Did it come to your --- did  
3 you become aware?  
4 ATTORNEY CLARK:  
5 Okay.  
6 HEARING OFFICER:  
7 So ---.  
8 ATTORNEY CLARK:  
9 I accept that.  
10 HEARING OFFICER:  
11 Well, no, I mean I'm saying the  
12 question was allowable, so I'll overrule the  
13 objection, because the question as I heard it was,  
14 did you become aware, and the answer was, yes. I  
15 think that's a foundational question.  
16 BY ATTORNEY CLARK:  
17 Q. When did you become aware?  
18 A. Well, that was a charge that I was given when  
19 I was hired here as superintendent, that we would  
20 bring all of our schools into AYP compliance.  
21 Q. Okay. But did you become aware in last year  
22 of the 2009 --- 2008-2009 school year that there  
23 were students at the high school who were not  
24 taking --- who were scored below proficient and  
25 who were not taking Standards courses in English

Page 1229

1 or math?  
2 A. We actually had implemented the requirement  
3 that all students that had not made AYP or had not  
4 made --- had not scored proficient, we had  
5 actually made the decision during that summer that  
6 the Standards classes would be implemented in ---.  
7 Well, I originally went to the high school to  
8 inquire as to are all the students in the  
9 Standards classes that are supposed to be there?  
10 And I was told, yes, that's the case.  
11 Approximately six weeks later I became aware that  
12 there were students up the high school across all  
13 grade levels that were not in Standards classes in  
14 compliance with what the Board had directed.  
15 Q. I want to go back a step from here. With  
16 regard to the Standards classes, were there any  
17 particular requirements about students at vo-tech  
18 and their attainment of proficiency?  
19 A. Students that intend to go to vo-tech here,  
20 because of the limited number of classroom hours  
21 that they have at Susquenita, the Board had  
22 actually established a policy that if you could  
23 not meet the requirement hours as far as working  
24 towards proficiency, that in order to go to  
25 vo-tech, you had to commit to a fifth period at

Page 1230

1 Susquenita. And years before that they were only  
2 --- students were only required to do four periods  
3 here and technically four periods at vo-tech.  
4 Didn't work out quite neatly and cleanly as that.  
5 But the vo-tech students, it's always been  
6 very problematic that they could meet the  
7 graduation hours and go to vo-tech and be a half  
8 time student here after --- after their sophomore  
9 year. So the Board passed the policy that ---  
10 because they were very, very much concerned about  
11 students becoming proficient --- that if you did  
12 not agree to a fifth period here to get the  
13 Standards classes in, or that you could agree to a  
14 fifth period or you could agree to an after school  
15 period to basically clock the hours for the  
16 Standards classes.  
17 Q. So to go back, when you learned that there  
18 were students across all the grades who were not  
19 proficient and who were not taking a Standards  
20 class, what action was undertaken, actually  
21 directed?  
22 A. I actually directed the high school principal  
23 to work with the counselors at the high school to  
24 give me a detailed list of who those students  
25 were. After we determined exactly who those

Page 1231

1 students were, there was a letter sent to the  
2 parents of the students explaining that there was  
3 an oversight in scheduling.  
4 There were students that were not taking  
5 Standards classes that should have been in the  
6 Standards classes. We offered a parental meeting  
7 for that, and we also met individually with  
8 various parents if they were not able to make the  
9 group meeting.  
10 Q. I want to turn your attention in the packet of  
11 exhibits right in front of you to Exhibit P-35.  
12 This exhibit is a letter dated October 29, 2008  
13 from the high school principal, Doctor Jones. Is  
14 that the letter you just described?  
15 A. No.  
16 Q. So the letter you just described has different  
17 content than what we see here in Exhibit P-35?  
18 A. That's correct. This one doesn't say anything  
19 about the scheduling issue. I think just  
20 basically, looking at this letter, this just  
21 appears to be notification of student scores.  
22 Q. So there was a separate communication that  
23 went out to parents of students who are not  
24 proficient and who were not taking a Standards  
25 class?

60 (Pages 1228 to 1231)

Page 1232

1 A. That's correct.  
 2 ATTORNEY HUSIC:  
 3 Mr. Hearing Officer, I would like for  
 4 purposes of this hearing to see a copy of that  
 5 letter. I'm assuming if it went to George, a copy  
 6 was probably placed in his file. And we would  
 7 like to have a copy of that letter provided to  
 8 determine the contents of the letter.  
 9 HEARING OFFICER:  
 10 Well, would such a letter be part of  
 11 the student's educational records at the District?  
 12 A. I don't know that there would be a specific  
 13 letter in each individual student's file, but  
 14 there would be a --- there would be a generic  
 15 letter that was sent to students. I don't know  
 16 the answer to that absolute.  
 17 HEARING OFFICER:  
 18 Because this letter is addressed  
 19 specifically to the parent or guardian of George  
 20 Willoughby.  
 21 ATTORNEY CLARK:  
 22 P-35 is you mean?  
 23 HEARING OFFICER:  
 24 That's correct. P-35 is, the letter,  
 25 the letter --- let's call it the scheduling

Page 1233

1 letter, the letter that addresses students'  
 2 schedules. Are you aware of whether or not that  
 3 went directed to a specific individual?  
 4 A. Well, I assume that it went to a specific  
 5 individual, but I don't know that it was  
 6 specifically addressed to the parents of whomever.  
 7 HEARING OFFICER:  
 8 I mean, I don't know that I have a  
 9 foundation to order it except for the fact that  
 10 the lack of the letter goes to the --- it goes to  
 11 the weight, probity and credibility of the  
 12 assertions.  
 13 ATTORNEY HUSIC:  
 14 Well, I think it's important under  
 15 these circumstances, because the Parent indicated  
 16 that she did not see the letter, was not aware of  
 17 the meetings that had taken place. And you know,  
 18 I think because this is, you know, a significant  
 19 issue, you know, I think it's important to have  
 20 that particular document be produced.  
 21 HEARING OFFICER:  
 22 Well, I'm not going to order the  
 23 District to do that.  
 24 ATTORNEY CLARK:  
 25 I'm not opposed to producing that ---

Page 1234

1 HEARING OFFICER  
 2 Well, let me ---.  
 3 ATTORNEY CLARK:  
 4 --- to the extent it exists.  
 5 HEARING OFFICER:  
 6 Well, let me say this.  
 7 ATTORNEY HUSIC:  
 8 Well, that's an issue, if it doesn't  
 9 exist. I mean ---  
 10 ATTORNEY CLARK:  
 11 No, it's not.  
 12 ATTORNEY HUSIC:  
 13 --- you know, because of ---.  
 14 ATTORNEY CLARK:  
 15 Well ---.  
 16 ATTORNEY HUSIC:  
 17 Well, it is. I mean, Doctor Sheats  
 18 testified that a letter went out. Mr. Clark says,  
 19 if it exists. You know, either it does or it  
 20 doesn't. You know, there's not ---.  
 21 HEARING OFFICER:  
 22 Well, this gets to the point --- this  
 23 gets to the heart of the controversy. I don't  
 24 think there's an if about it. The witness has  
 25 testified that there was a second letter and that

Page 1235

1 this is not --- that P-35 is not that letter. So  
 2 I don't think the existence of the letter is in  
 3 dispute.  
 4 What seems to be in dispute is to  
 5 whom it was addressed and when it was sent and the  
 6 exact contents of the letter. To the extent that  
 7 --- again, the witness can't address those  
 8 specific factors. This witness can't address  
 9 those factors. It just means that we rely on the  
 10 testimony, but the lack of --- how do I want to  
 11 say this? Testimony about a document that is  
 12 known to exist and was not produced is given the  
 13 weight that it should be accorded. So I'm not  
 14 going to order the District to produce the letter.  
 15 ATTORNEY CLARK:  
 16 Was that an objection to a question  
 17 or --- I don't recall ---.  
 18 HEARING OFFICER:  
 19 Well, I heard it as the request that  
 20 I order document production from the District. I  
 21 will tell you, that's how I heard it. You don't  
 22 have this letter, and I want to see this letter,  
 23 so I'm moving that the District does not have to  
 24 produce a letter.  
 25 ATTORNEY CLARK:

61 (Pages 1232 to 1235)

Page 1236

1 I understand that.  
 2 BY ATTORNEY CLARK:  
 3 Q. After the letter went out, Doctor Sheats, did  
 4 you and other administrators make yourself  
 5 available for meetings with the families?  
 6 A. Yes, there was one large group meeting, and  
 7 then a number --- the letter did not come out of  
 8 my office. It came out of the high school. There  
 9 was one group meeting that Doctor Jones and I  
 10 chaired, for lack of a better term, and then  
 11 significant numbers of telephone calls and  
 12 individual meeting with parents.  
 13 Q. And did you meet with the Peiffers regarding  
 14 this issue?  
 15 A. Yes.  
 16 Q. Do you recall when?  
 17 A. I base --- what I recall is I received a  
 18 letter from --- or an e-mail, I believe it was,  
 19 not a letter, from Mrs. Peiffer, asking for a  
 20 meeting to discuss the Standards class.  
 21 Q. And did you agree to a meeting?  
 22 A. Yes.  
 23 Q. And who took part in the meeting?  
 24 A. Doctor Jones, Mrs. Sawyer, Mr. Bingaman.  
 25 There were a couple of high school teachers. I

Page 1237

1 don't remember exactly who was at the meeting.  
 2 Mr. and Mrs. Peiffer. That's as many as I can  
 3 remember that were there.  
 4 Q. Okay. And you earlier described this as an  
 5 oversight?  
 6 A. An oversight, yes.  
 7 Q. Did you communicate that to the Peiffers?  
 8 A. I don't know that we discussed that at the  
 9 meeting. I know at one point or another that was  
 10 provided to them. Well, yes, I do know that I  
 11 addressed that, because at that meeting, it was  
 12 about --- I'm relying on memory. It was about ten  
 13 weeks into the semester. I actually offered at  
 14 that meeting to provide compensatory education for  
 15 the ten weeks or whatever level of weeks that were  
 16 not provided to their son.  
 17 Q. And why's that?  
 18 A. Well, I just thought it was fair. Plus, I  
 19 also --- we have to clock 120 hours in order to  
 20 provide students with credit for a course.  
 21 Q. So you have to clock 120 hours for a credit in  
 22 Standards English?  
 23 A. Yes.  
 24 Q. And the same for Standards Math?  
 25 A. That's correct. Well, any course at the high

Page 1238

1 school level, it's 120 clock hours.  
 2 Q. That would apply to each of the two Standards  
 3 courses?  
 4 A. That's correct.  
 5 Q. And what was the Peiffers' response to the  
 6 discussion about Standards courses?  
 7 A. Well, initially they wanted me to --- I don't  
 8 know if waive is the right word, but they wanted  
 9 me --- they wanted that their son would not be  
 10 included in the Standards course. I told them,  
 11 no, all students are required to be in the  
 12 Standards courses.  
 13 Mrs. Peiffer's response was that you don't  
 14 understand. Evidently you don't understand. My  
 15 child is an exceptional student or a special  
 16 education student or something to that affect.  
 17 And I said, no, I do understand that that's the  
 18 case. She indicated to me that her son would  
 19 never be proficient and that special education  
 20 students were not required to be proficient.  
 21 Q. Do you agree with that claim?  
 22 A. Absolutely not.  
 23 Q. Was the dispute resolved in your meetings with  
 24 the Peiffers?  
 25 A. No, they told me they were getting an attorney

Page 1239

1 and they would challenge that.  
 2 Q. Do you know the content of the Standards  
 3 classes that were taught to George in ninth grade?  
 4 A. Can I specifically state them? Is that what  
 5 you're asking?  
 6 Q. Do you know generally the content?  
 7 A. Yes, basically that the Standards classes ---.  
 8 ATTORNEY HUSIC:  
 9 Well, you know what? I'm going to  
 10 --- I'm sorry, I'm going to raise an objection,  
 11 because --- with this witness testifying to that,  
 12 because prior testimony, we did have both  
 13 Standards teachers here who offered that  
 14 particular testimony. So this would basically be  
 15 cumulative testimony from prior witnesses who were  
 16 more appropriate and were George's direct  
 17 instructors in the Standards classes themselves.  
 18 HEARING OFFICER:  
 19 Do you have a response, Mr. Clark?  
 20 ATTORNEY CLARK:  
 21 Well, I think we're going to spend  
 22 more time debating the objection than the content  
 23 of the answer. He's simply going to be tying the  
 24 general content into the Pennsylvania standards.  
 25 That's where I would expect him to go with his

Page 1240

1 answer.  
 2 HEARING OFFICER:  
 3 Well, I think I'm going to sustain  
 4 the objection, because I think Ms. Landers --- I  
 5 do think Ms. Landers addressed that and in more  
 6 --- and in detail and as a fact witness in terms  
 7 of the instruction rather than in general, so I  
 8 think it's been addressed by Ms. Landers.  
 9 BY ATTORNEY CLARK:  
 10 Q. Did you participate in the IEP meetings for  
 11 George in the spring and summer of 2009?  
 12 A. I believe I participated in one meeting.  
 13 Q. And that would've been in August of 2009?  
 14 A. That's correct.  
 15 Q. Have you reviewed George's file materials?  
 16 A. Yes.  
 17 Q. Based on your knowledge of George and your  
 18 knowledge of the content of the Standards courses,  
 19 does a student --- does George benefit from being  
 20 present in Standards classes?  
 21 ATTORNEY HUSIC:  
 22 I'm going to raise an objection to  
 23 this witness answering that. The IEP team  
 24 basically had no choice when the directive came  
 25 down from the administration to put George in

Page 1241

1 that, and I think that that's an IEP team  
 2 decision.  
 3 Oh, you know, and if I may add one  
 4 other point. You know, Doctor Sheats also  
 5 indicated that, you know, I think in his charge as  
 6 superintendent by the Board, there really appeared  
 7 from the testimony that he did not have any  
 8 discretion, you know, to excuse any students from  
 9 Standards classes, either. So whether or not the  
 10 materials were reviewed or it was determined  
 11 appropriate for George, it appears the charge from  
 12 the Board to Doctor Sheats is that it wasn't, you  
 13 know, a matter of discretion, that students who  
 14 were not proficient had to be put into Standards  
 15 classes.  
 16 HEARING OFFICER:  
 17 Well, I'm actually going to sustain  
 18 the objection, because I'm not so sure that the  
 19 foundation's been laid that Doctor Sheats has the  
 20 knowledge of the student that you assert. There's  
 21 no doubt that he's been involved in these matters,  
 22 but he attended one IEP meeting and that was, at  
 23 least on this record, the last IEP meeting to have  
 24 been held.  
 25 I just don't know that the foundation

Page 1242

1 has been laid for him to make a --- to answer the  
 2 question that was asked of him. So I'm going to  
 3 sustain the objection, but as I heard it, it was  
 4 for lack of foundation.  
 5 BY ATTORNEY CLARK:  
 6 Q. You read through George's file?  
 7 A. Yes.  
 8 Q. You've read his evaluation report?  
 9 A. Yes.  
 10 Q. You've read his IEPs?  
 11 A. Yes.  
 12 Q. You've sat through four days of hearing in  
 13 this case.  
 14 A. Correct?  
 15 Q. You heard the testimony of Doctor Grisolano?  
 16 A. Right.  
 17 Q. The testimony from Mr. Klein?  
 18 A. Yes.  
 19 Q. The testimony from the Peiffers?  
 20 A. Yes.  
 21 Q. The testimony from George's teachers?  
 22 A. Yes.  
 23 Q. The testimony from Ms. Sawyer?  
 24 A. Yes.  
 25 Q. Based on what you have read and what you have

Page 1243

1 heard in testimony, how would you describe George  
 2 --- George's level or degree of impairment in the  
 3 area of reading and language arts?  
 4 ATTORNEY HUSIC:  
 5 I'm going to raise an objection to  
 6 this witness.  
 7 OFF RECORD DISCUSSION  
 8 BY ATTORNEY CLARK:  
 9 Q. In the areas of reading and language arts.  
 10 HEARING OFFICER:  
 11 And then the objection, again.  
 12 ATTORNEY HUSIC:  
 13 I don't think it's of any moment that  
 14 Doctor Sheats sat through, you know, the testimony  
 15 throughout the course of the due process hearing  
 16 or whether he reviewed the file. You know, it  
 17 comes down to an IEP decision.  
 18 He testified that there was one IEP  
 19 meeting that he attended. I believe Doctor Sheats  
 20 might've been even out of the country when some of  
 21 this occurred. And this particular witness would  
 22 not have any direct, one-on-one knowledge about  
 23 George's abilities over the course of the years.  
 24 HEARING OFFICER:  
 25 I mean, having heard from every

63 (Pages 1240 to 1243)

Page 1244

1 professional that's worked with George directly  
2 over the past year or two, I --- I'll overrule the  
3 objection and you can tell me that you think the  
4 program is appropriate, so why don't we do it that  
5 way?

6 ATTORNEY HUSIC:

7 Well, you know, if I might say, it  
8 wasn't about the program. It was about the level  
9 of George's impairment and ---.

10 HEARING OFFICER:

11 Well, right, right, right. But the  
12 point of the matter is, I think the question gets  
13 to the provision of FAPE. And even with the  
14 litany that Mr. Clark gave, I don't know that this  
15 witness has the foundation to answer questions  
16 about his direct programming.

17 I mean, I can't --- I think it's a  
18 probative question. I think you can ask it, but I  
19 don't --- I doubt quite honestly the level of its  
20 probity. But I think he can answer the question  
21 based on the foundation that now has been laid. I  
22 think you can answer the question.

23 ATTORNEY HUSIC:

24 I would like a standing objection to  
25 that.

Page 1245

1 HEARING OFFICER:

2 That'll be fine. So what about his  
3 level of impairment?

4 A. His level of impairment --- I know George,  
5 could pick George out of a group of students. I  
6 have not worked directly with George, but I can  
7 tell you that had I not known this student, I  
8 would not have seen George in a social situation  
9 or in a group situation and been able to tell that  
10 he was an exceptional student.

11 BY ATTORNEY CLARK:

12 Q. And why is that?

13 A. Well, he interacts appropriately. Although I  
14 know that he has processing issues, I don't see  
15 extensive stoppages in his speech pattern. I know  
16 that he's been involved basically on grade level  
17 classes, in the area particularly of mathematics.  
18 It appears to me, based on everything that I've  
19 seen, the reading issues seem to be more  
20 problematic than what the mathematics issues are.

21 Q. Now, with your knowledge of George, what  
22 benefit does he get from being in a Standards  
23 English class?

24 ATTORNEY HUSIC:

25 I'm going to raise an objection,

Page 1246

1 because we already had witnesses testify to this  
2 exact issue before, and I don't know that Doctor  
3 Sheats would be the best witness to testify about  
4 George's benefit in these particular classes.

5 HEARING OFFICER:

6 Yeah, I'm going to sustain the  
7 objection for the same reason, in terms of the  
8 question as asked. What I see is a similar  
9 question asked about math, and that is Ms. Ruel  
10 has testified at length about both the instruction  
11 that she delivered and the benefit she sees as the  
12 person charged with his instruction, so I mean,  
13 I'll sustain the objection in that I think the  
14 record has already spoken to that through Ms.  
15 Ruel.

16 BY ATTORNEY CLARK:

17 Q. I want to turn your attention to Exhibit P-31,  
18 page 18. First of all, what are foresight tests?

19 A. Foresight are tests that are given to students  
20 to predict how well they're going to do in the  
21 PSSA, so they're prognostic tests.

22 Q. Okay. And when are the foresight tests given?

23 A. They're given four times a year. Some of the  
24 schools actually give them five times a year.

25 Q. Now, what do you mean by predictive tests?

Page 1247

1 A. Their sole purpose is to serve as the baseline  
2 of predictability as to how well the student is  
3 going to do in that year's PSSA test.

4 Q. Now, as you look at this exhibit, page 18 of  
5 Exhibit P-39, it shows foresight reading results,  
6 8/28/2009, and foresight math results, 8/28/2009.  
7 And that would be the beginning of the year in  
8 which George was in tenth grade; correct?

9 A. In tenth grade?

10 Q. Tenth grade. The beginning of the current  
11 school year.

12 A. Of '08-'09, he would ---.

13 Q. The current school year. It's the beginning  
14 of the current school year.

15 A. That would be '09-'10.

16 Q. Okay.

17 A. This is '08-'09. But it looks like they were  
18 given --- you know, they were given, I guess, in  
19 August of '09.

20 Q. Okay. The baseline, first, second and third,  
21 do you know what that means?

22 A. Yes.

23 Q. What does it mean?

24 A. It's simply the first test, second test, third  
25 test and fourth test, when they're given as far as

Page 1248

1 the PSSA indicator is concerned.  
 2 Q. Now, are the foresights --- are they  
 3 achievement tests?  
 4 A. No, they're not achievement tests, but  
 5 they're ---.  
 6 Q. Go ahead.  
 7 A. But they're not nearly as criterion reference  
 8 test as the PSSA is.  
 9 Q. Okay. And that means what?  
 10 A. That means that all of the --- all the  
 11 information that is contained on this, called the  
 12 high school foresight test, is eleventh grade  
 13 information. So we cannot say that George's  
 14 scores on these four tests that he has actually  
 15 been exposed or taught all of the information,  
 16 because he's not an eleventh grader yet.  
 17 Q. Okay. Is the content of the foresight tests  
 18 eleventh grade material?  
 19 A. Yes, regardless of the year that it's taken  
 20 in.  
 21 Q. So if the exhibit on page 18 of P-39 was given  
 22 to George during the school year '08-'09, that  
 23 would be in George's ninth grade year; correct?  
 24 A. Correct.  
 25 Q. But it would reflect eleventh grade material?

Page 1249

1 A. There would be eleventh grade material on that  
 2 test. That's correct.  
 3 Q. Okay. Now, can you explain why there's a  
 4 baseline score, the first, the second and the  
 5 third score?  
 6 A. The baseline score is rather misleading. It's  
 7 really the first test, and it really doesn't have  
 8 any more significance than the other three tests.  
 9 Q. Now, in her Direct testimony, Mrs. Peiffer was  
 10 shown this particular exhibit. And she was asked  
 11 the question, looking at the baseline --- and I'm  
 12 reading from page 607 of the transcript. Looking  
 13 at the baseline to actually the third quarter, do  
 14 you think he improves overall? And her answer  
 15 was, no, he was going downhill. Now, do you agree  
 16 or disagree with that statement?  
 17 ATTORNEY HUSIC:  
 18 I'm going to raise an objection.  
 19 Again, similar to prior objections, we did have  
 20 the witnesses here who administered the reading  
 21 and also who administered the math tests.  
 22 And since those were the direct  
 23 administrators of these particular program of  
 24 foresight reading results, those witnesses  
 25 would've been in a better position to address the

Page 1250

1 particular questions since Doctor Sheats ---. I  
 2 mean, essentially the purpose of his testimony is  
 3 just serving as an interpreter of test results,  
 4 when the better test interpreter, the best  
 5 evidence would've been the teachers who actually  
 6 administered the tests to explain these documents.  
 7 HEARING OFFICER:  
 8 To respond?  
 9 ATTORNEY CLARK:  
 10 Well, I think it's an argument to say  
 11 that the teachers would be the better interpreter.  
 12 I think Doctor Sheats has clearly demonstrated his  
 13 experience in testing and assessments and  
 14 statistical analysis of those assessments. He's  
 15 taught this at the graduate level and clearly is  
 16 qualified to give an answer to this question and  
 17 to explain how this plays in regard to the rest of  
 18 the PSSA testing scheme.  
 19 ATTORNEY HUSIC:  
 20 Well, I did not object to the  
 21 information regarding the foresight --- a  
 22 description of the foresight test itself. I am  
 23 objecting to the testimony about the results of  
 24 the test and interpreting the test results.  
 25 HEARING OFFICER:

Page 1251

1 Well, I don't think the question is  
 2 asked to interpret the results. It's asked to  
 3 agree with an opinion asserted by Ms. Peiffer. So  
 4 to that extent, I'll overrule the objection and  
 5 you can --- you can give your opinion as to, in  
 6 light of Ms. Peiffer's testimony, whether or not  
 7 you agree with her opinion or not.  
 8 A. I do not agree with her. You cannot state  
 9 that there is a positive --- a positive growth or  
 10 a negative growth, because you don't know what  
 11 concepts were tested that George has not been  
 12 exposed to or he has, in fact, mastered.  
 13 BY ATTORNEY CLARK:  
 14 Q. I want to ask you some questions about some  
 15 testimony that was given earlier on in this  
 16 proceeding, and then I'm going to ask whether you  
 17 agree or disagree. I'm going to read to you some  
 18 testimony and the place in the record where that  
 19 occurred.  
 20 My first question to you pertains to testimony  
 21 from Mr. Klein, and it's at pages 260 and 261.  
 22 And in that section he testified, my conclusion at  
 23 the end of that class --- and this was a class  
 24 with Mr. Bingaman --- was that George might  
 25 understand some of the concepts, but without

65 (Pages 1248 to 1251)

Page 1252

Page 1254

significant adaptation and modification to the lesson that was going on, he would not have been, you know, successful at all if Mr. Bingaman had not been with him on a one --- basically a one-to-one basis. My question, do you agree with that or disagree with that assessment?

ATTORNEY HUSIC:

Objection. I'm going to object to this witness testifying and commenting on any comments that were subject to Andy Klein's testimony, based upon Andy Klein being offered and accepted as an expert in special education and with his extensive background as a special ed administrator, an instructor of special ed classes over the course of the years. And therefore, I would have an objection to any comments regarding Andy Klein's opinion.

HEARING OFFICER:

Well, I don't think there's a foundations issue any longer, because the witness has testified that he's certified in special ed, and as a Director of Pupil Personnel Services, would've had experience in the oversight and administration of special education programs. So I think the witness is qualified, based on that

ATTORNEY HUSIC:

Now, I'm going to raise an objection to any further reading and recitation from Mr. Klein's testimony, asking this witness to respond. I'll stipulate that this witness would say that he doesn't agree with anything that Mr. Klein had said, and rather than going on for another hour about this, I will stipulate that this --- that's what this witness' testimony would be.

HEARING OFFICER:

The offer for stipulation is that this witness disagrees with Mr. Klein.

ATTORNEY CLARK:

Well, but I think that there are some factual things that need to be reviewed into the record, and it's not going to take an hour. It's going to take a lot less, you know. You know, I'm going to do this efficiently like I've done the rest of this case, so ---.

HEARING OFFICER:

Well ---.

ATTORNEY HUSIC:

If it has to do with the observation, you know, I submit that all that should be stricken.

Page 1253

Page 1255

testimony, to now speak to those issues. However, I'll sustain the objection because I don't think this witness can talk about the characterization of an observation that he was not present at.

ATTORNEY CLARK:

Well, and I'll rephrase the question.

Okay? I will rephrase the question.

BY ATTORNEY CLARK:

Q. Do you need me to repeat that passage?

A. No.

Q. Okay. Having heard that passage, to what extent, if at all, are adaptations and modifications of lessons part of special education?

A. The accommodations that are made for students in the regular curriculum or any other curriculum are the essence of the individual child. It's what the child needs to be successful.

Q. So with that, do you agree or disagree with what Mr. Klein said?

A. I would disagree. I can tell you in 42 years in education, without actually speaking to the child to determine what was digested, what was absorbed and what wasn't, I couldn't do that in a single 42-minute or 45-minute observation.

HEARING OFFICER:

I would tend to agree. I don't know that this witness can talk about conclusions he draws from observation.

ATTORNEY CLARK:

Well, that's not where he testified.

HEARING OFFICER:

I grant you, the last question asked was, do students who require specially designed instruction benefit from modifications and adaptations? And the answer was, yes. That's an allowable question. But it was after re-asking about Mr. Klein's observations. So to the extent that it's this is what Mr. Klein observed and reports, do you agree, I don't think that will be an allowable question. So let's establish that up front.

If it is is this what special education students require, then that's a different question. So to the extent that it is reflective of what Mr. Klein observed and/or reported, I don't think this witness will have knowledge --- at least that I'm not aware the witness would have knowledge that he can testify to those things. So with that kind of

Page 1256

1 instruction, I'll allow questions to be asked, but  
 2 certainly I'll rely on Counsel to object if she  
 3 thinks that ---  
 4 ATTORNEY HUSIC:  
 5 Uh-huh (yes).  
 6 HEARING OFFICER:  
 7 --- it's beyond the scope of this  
 8 witness' knowledge.  
 9 ATTORNEY CLARK:  
 10 Okay.  
 11 BY ATTORNEY CLARK:  
 12 Q. On page 263 of Mr. Klein's testimony he said  
 13 from a special educator's perspective, there's a  
 14 number of things. Number one, George's measured  
 15 intellectual potential in 2002, seven years early,  
 16 has been approximately 90 on a full scale. Now,  
 17 in this particular report, I believe his full  
 18 scale was 73, so it had dropped equivalent of a  
 19 standard deviation a little bit more. And that's  
 20 a concern for us in special education, because  
 21 unless the child has, or the adolescent in this  
 22 case, has sustained a traumatic brain injury, some  
 23 sort of significant medical condition like  
 24 meningitis or encephalitis, God forbid, unless  
 25 there's been something significant like that,

Page 1257

1 since IQ is generally stable over time, I was  
 2 concerned that it had dropped a standard more than  
 3 a standard deviation in the seven years since he  
 4 had been given a complete battery. Do you agree  
 5 or disagree with that characterization?  
 6 ATTORNEY HUSIC:  
 7 I'm going to raise an objection. I  
 8 don't understand. That was an opinion that Mr.  
 9 Klein rendered. I don't see how this witness can  
 10 testify to that. The scores --- his IQ's already  
 11 show that there are --- that they've fluctuated  
 12 over the course of the years and there has been a  
 13 significant decrease. And I think the documents  
 14 speak for itself in those regards.  
 15 HEARING OFFICER:  
 16 Response?  
 17 ATTORNEY CLARK:  
 18 This is clearly within a realm of  
 19 expertise that he's qualified to render. He is  
 20 knowledgeable in this area. He's qualified to  
 21 render an opinion. He's qualified to address a  
 22 purported statement of fact by Mr. Klein that this  
 23 is an area of significant concern.  
 24 ATTORNEY HUSIC:  
 25 I think that the more appropriate

Page 1258

1 witness would've been the Director of Special  
 2 Education to address this particular issue. This  
 3 question was not asked when she was up on Direct  
 4 Examination.  
 5 HEARING OFFICER:  
 6 Well, I'll overrule the objection.  
 7 You can answer the question. If you were given a  
 8 report where over seven a years a student like  
 9 George's IQ had dropped from a reported 90 to a  
 10 reported 73, what would your opinion of those  
 11 results reveal to you?  
 12 A. Number one, the total state of his dated  
 13 thinking. IQ's can't be increased through  
 14 specific direction. The other thing that I  
 15 would've asked immediately --- and I don't  
 16 understand why that wasn't asked. The tests had  
 17 been renormed from the time he took the original  
 18 test until he took the follow-up test. So I would  
 19 want to make sure that I knew where the scale  
 20 scores, the standard scores were so that I could  
 21 make a more reliable assessment. Doctor Grisolano  
 22 and Ms. Yellets both indicated in their reports  
 23 that they did not believe that their IQ assessment  
 24 was a valid assessment.  
 25 BY ATTORNEY CLARK:

Page 1259

1 Q. On page 266, Mr. Klein's testimony, he said,  
 2 the verbal comprehension index of an IQ test is  
 3 heavily laden with the acquisition of academic  
 4 information generally. So the argument can be  
 5 made that if you're not acquiring skills in a  
 6 timely fashion, then you are going to be somewhat  
 7 prejudiced within that particular area of the  
 8 test, which can commensurately, at least  
 9 theoretically, you know, lower the score. So that  
 10 --- I mean, that's a theory. I mean, that's  
 11 debatable. Do you agree or disagree with that  
 12 statement?  
 13 ATTORNEY HUSIC:  
 14 I'm going to continue to raise an  
 15 objection to this. The problem is the District  
 16 disclosed that their psychologist --- and she was  
 17 unable to testify. And what's happening here  
 18 basically is the supervisor --- the  
 19 superintendent, I'm sorry, is testifying in lieu  
 20 of what a psychologist should've testified to  
 21 that, or perhaps Ms. Sawyer would've testified to  
 22 that, or perhaps what even Mr. --- Doctor  
 23 Grisolano could've testified.  
 24 And I think we're getting to a point  
 25 now where this is getting into pure psychological

67 (Pages 1256 to 1259)

Page 1260	Page 1262
<p>1 analysis. And you know, Doctor Sheats earlier did 2 indicate that, you know, while he did give some 3 tests, he did not serve as a school psychologist 4 to do that.</p> <p>5 HEARING OFFICER: 6 I recognize that in terms of his 7 background and experience. I'll allow the 8 question. What concerns me is I don't want --- 9 not want large passages of transcript reread into 10 the record. So if you can say, Doctor Klein 11 testified to this, and then ask your question, it 12 will allow us to move through this more quickly, 13 because we've done that with every witness at this 14 point, and I don't need a full page of transcript 15 read in to this point of the transcript.</p> <p>16 So let's have the question again 17 without the quotation from transcript. Just ask 18 him the question for the point you'd like to 19 elucidate, and we'll here his answer.</p> <p>20 BY ATTORNEY CLARK: 21 Q. You were present for Mr. Klein's testimony 22 when he expressed a theory that a student who's 23 not acquiring skills in a timely fashion can be 24 prejudiced within the administration of an IQ 25 test?</p>	<p>1 A. We are the only school district in Perry 2 County that made AYP last year.</p> <p>3 Q. How many school districts are in Perry County? 4 A. Four.</p> <p>5 Q. Are you familiar with curricular requirements 6 for vocational education programming? 7 A. Yes.</p> <p>8 Q. In what capacity are you familiar with the 9 vocational --- the curricular requirements for the 10 vocational programming? 11 A. The superintendents meet once a month to be 12 briefed on that material by the executive director 13 at the vo-tech.</p> <p>14 Q. Are there any requirements in place with 15 regard to vocational students and their exposure 16 to algebra curriculum? 17 ATTORNEY HUSIC: 18 I'm going to raise an objection. I 19 think this --- the curricular on vo-tech, other 20 than the superintendent meeting, you know, with 21 his peers, does go beyond the scope of his 22 experience and expertise and his background. And 23 I think this is getting far afield of what this 24 witness is testifying to. 25 HEARING OFFICER:</p>
Page 1261	Page 1263
<p>1 A. That is a theory, and that theory cannot be 2 documented.</p> <p>3 Q. You know of no instance where it has been 4 documented?</p> <p>5 A. I know of instances in which a trauma has 6 occurred that you could say, okay, that documents 7 it. But from the philosophical state, no, I 8 cannot.</p> <p>9 Q. Where Mr. Klein called the PSSA, group 10 administered standardized Pennsylvania achievement 11 test, do you agree or disagree with that? 12 A. He's absolutely wrong.</p> <p>13 Q. And why is that? 14 A. It is a criterion reference test. It is not 15 an achievement test.</p> <p>16 Q. Does it measure whether students make adequate 17 yearly progress? 18 A. No.</p> <p>19 Q. Do students make AYP? 20 A. No.</p> <p>21 Q. Who does make AYP? 22 A. School districts and groups of students.</p> <p>23 Q. And on that score, what is Susquenita's 24 experience with AYP --- Susquenita High School's 25 experience with AYP?</p>	<p>1 Mr. Clark, any response? 2 ATTORNEY CLARK: 3 As the Superintendent of Schools, he 4 has regular meetings with the chief school 5 administrator for the vo-tech school, and from 6 that, he's aware of the curricular requirements of 7 the vo-tech school. I mean, he's got to know that 8 so he can align those students' instruction with 9 what they're getting at Susquenita. He has a 10 basis to know and he has a need to know and has 11 actual knowledge. He can testify on that.</p> <p>12 ATTORNEY HUSIC: 13 Well, we had the principal of Vo-tech 14 here. We had teachers from Vo-tech here, and none 15 of them were asked this particular question, and 16 it would've been more appropriate for them to ask 17 --- to ask those individuals than the 18 superintendent.</p> <p>19 HEARING OFFICER: 20 Well, I think it's an appropriate 21 question. I don't know that it's asked --- I 22 think it's beyond the scope of the witness' 23 knowledge as asked. I heard the question as, are 24 you aware of components of algebra in the --- I 25 don't know whether curriculum or instruction, but</p>

Page 1264

1 are you aware of the components of algebra at the  
 2 vo-tech? And I'm going to sustain the objection.  
 3 I'd like more of a foundation of what you're ---  
 4 ATTORNEY CLARK:  
 5 Uh-huh (yes).  
 6 HEARING OFFICER:  
 7 --- asking this witness to testify to  
 8 about vo-tech program.  
 9 BY ATTORNEY CLARK:  
 10 Q. When you meet with the chief school  
 11 administrator for the vo-tech school, are you  
 12 apprised of curricular requirements for vocational  
 13 education?  
 14 A. Yes.  
 15 Q. In what way?  
 16 A. Well, the most current major concerning  
 17 curriculum requirement is Carl Perkins is the vo-  
 18 tech grants efforts directives only --- that's not  
 19 correct --- directed mainly at vocational  
 20 technical schools. Some high schools also are  
 21 impacted by the Carl Perkins. Starting not this  
 22 year, but last year, one shop per year, the  
 23 students will be denied admission at vo-tech  
 24 unless they have completed algebra.  
 25 Q. And you know that from what?

Page 1265

1 A. Well, I know that from the requirements of the  
 2 Carl Perkins Grant as well as the information that  
 3 the director of the vo-tech has given to the  
 4 superintendents.  
 5 Q. And what implications does that have for  
 6 student programming of vo-tech students?  
 7 ATTORNEY HUSIC:  
 8 I'm going to raise an objection. I  
 9 think interpretation of the Carl Perkins Act and,  
 10 you know, how this fits in --- we had the algebra  
 11 teacher here. I think this is getting far afield  
 12 of this particular witness' testimony and I think  
 13 it's beyond his scope.  
 14 HEARING OFFICER:  
 15 I'm not sure that it's a relevant  
 16 question.  
 17 ATTORNEY CLARK:  
 18 Well, let me explain. There is a  
 19 contention that George is not appropriate for  
 20 algebra, and this witness is testifying that  
 21 algebra is now a requirement to take shop courses  
 22 at vo-tech.  
 23 ATTORNEY HUSIC:  
 24 Well, it's actually ---  
 25 ATTORNEY CLARK:

Page 1266

1 And that is a requirement of the  
 2 Perkins Act.  
 3 ATTORNEY HUSIC:  
 4 Well, it's actually a moot point.  
 5 George took, I guess, what was a pre-algebra  
 6 class. He completed an algebra class. He's in  
 7 geometry class now. Whether he got anything out  
 8 of the class is another matter. I mean, if we  
 9 establish he has a learning disability in math,  
 10 which no one from the District has acknowledged  
 11 and still does not acknowledge, but I think the  
 12 point is really moot since George already  
 13 completed his algebra.  
 14 HEARING OFFICER:  
 15 Yeah. Well, I'm going to sustain the  
 16 objection to the extent that --- well, let me ask  
 17 you this question. When George passed basic  
 18 algebra, did that meet the requirement as you  
 19 understand it?  
 20 A. Yes.  
 21 HEARING OFFICER:  
 22 Okay. Let the record show that at  
 23 S-17 George got a final grade of 79, which is a C,  
 24 in basic algebra at the end of ninth grade, so  
 25 I'll consider the question as moot and we can move

Page 1267

1 on.  
 2 (School District's Exhibit 17 marked  
 3 for identification.)  
 4 BY ATTORNEY CLARK:  
 5 Q. To what extent, if at all, Doctor Sheats, are  
 6 PSSA scores a diagnostic tool for assessing  
 7 eligibility for special education?  
 8 ATTORNEY HUSIC:  
 9 I'm going to raise an objection.  
 10 There is just absolutely, you know, no basis that  
 11 even the Parents have asserted that PSSA scores  
 12 were in some reason --- in some effect  
 13 ineligibility for special education. It's just  
 14 irrelevant to the inquiry or the Parents' claim at  
 15 this hearing for compensatory education.  
 16 HEARING OFFICER:  
 17 Well, I'll overrule the objection.  
 18 You can answer the question.  
 19 A. They have no value as far as that is  
 20 concerned.  
 21 BY ATTORNEY CLARK:  
 22 Q. To what extent, if at all, are PSSA scores an  
 23 assessment to evaluate progress under a special  
 24 education program?  
 25 ATTORNEY HUSIC:

69 (Pages 1264 to 1267)

Page 1268

1 Same objection. Just what is the  
2 relevance?  
3 HEARING OFFICER:  
4 I'll overrule the objection. You can  
5 answer the question.  
6 A. I would say none.  
7 ATTORNEY CLARK:  
8 No other questions.  
9 HEARING OFFICER:  
10 Okay. Ms. Husic will now have  
11 questions for you on Cross Examination.  
12 CROSS EXAMINATION  
13 BY ATTORNEY HUSIC:  
14 Q. Good evening. Just have a few questions for  
15 you, Doctor Sheats. When you talked about the  
16 PSSA tests, I suppose, what students have been  
17 through or what they've learned through eleventh  
18 grade in reading and math, I think that you said  
19 something to that effect in your testimony.  
20 A. What?  
21 Q. The PSSAs assess what students have been  
22 taught for eleventh grade in reading and math?  
23 A. That's correct.  
24 Q. Is that fairly accurate?  
25 A. Yes.

Page 1269

1 Q. What I'm wondering is, are there instances of  
2 some students that ---?  
3 A. That ---.  
4 Q. Oh, go ahead.  
5 A. That has to do with the foresight.  
6 Q. Okay.  
7 A. Okay? Now, the PSSA is absolute what has been  
8 taught through eleventh grade, but foresight are  
9 --- would he the same kind of criteria within the  
10 --- within the test foundation.  
11 Q. Okay. On the scoring for below basic, basic,  
12 advanced, proficient, that sort of thing, are  
13 there instances where you have some students that  
14 never score above the below basic throughout their  
15 term at the school?  
16 A. Yes.  
17 Q. Okay. When you talked about the groupings for  
18 your AYP, do you happen to know offhand the  
19 grouping as to special ed students and how they  
20 perform on your AYP data?  
21 A. Until this year, we have not had a summative  
22 number for students ---  
23 Q. Uh-huh (yes).  
24 A. --- at the high school that's based on one  
25 grade of a student plan, one --- a grade level of

Page 1270

1 students as opposed to the middle school and the  
2 elementary school that could be based on two to  
3 three or four years. Okay?  
4 Q. Okay. Are there some students or any students  
5 that are excused from the Standards classes for  
6 any reason?  
7 A. No.  
8 Q. What I'm wondering, in this school year, as  
9 you know, George, George's Standards Reading class  
10 was sort of replaced, if you will, with the Wilson  
11 Reading. Did you consider that as George being  
12 excused from Standards Reading for him to take the  
13 Wilson program?  
14 A. No, because the Wilson --- the key points and  
15 goals of Wilson are --- the Pennsylvania standards  
16 are within that program. We can't have a class  
17 now that doesn't address the standards. Every  
18 class we teach addresses the standards.  
19 ATTORNEY HUSIC:  
20 Doctor Sheats, I don't have anything  
21 further. Thank you.  
22 HEARING OFFICER:  
23 Any questions on Redirect?  
24 ATTORNEY CLARK:  
25 No.

Page 1271

1 HEARING OFFICER:  
2 Okay. I think I have a few questions  
3 for you, Doctor Sheats, and then let me --- let us  
4 let you go. For a student such as George, is  
5 Standards --- what we've called Standards Reading  
6 and Standards Math, are those part of his  
7 graduation requirements?  
8 A. Yes, he would --- he's graduating by credit as  
9 opposed to IEP.  
10 HEARING OFFICER:  
11 So how many math credits are required  
12 for graduation from Susquenita?  
13 A. Actually, three for George's class.  
14 HEARING OFFICER:  
15 So I'm looking at S-17.  
16 A. Oh, S-17.  
17 HEARING OFFICER:  
18 Correct. You're in the Parents'.  
19 That's S-17. Now, to earn a credit for  
20 graduation, what is the minimum? How does a  
21 student pass? Do they pass with Ds?  
22 A. Yes.  
23 HEARING OFFICER:  
24 Okay. So on S-17, it looks like on  
25 line one, basic algebra, George has earned one

70 (Pages 1268 to 1271)

Page 1272

1 credit in basic algebra.  
 2 A. Correct.  
 3 HEARING OFFICER:  
 4 And then further down towards the  
 5 bottom it lists Standards, and there was testimony  
 6 earlier that we don't know why there are two  
 7 different scores. But regardless, it appears as  
 8 if he has passed Standards Math with either a 75  
 9 or a 77; is that right?  
 10 A. Well, the person that said we don't know why  
 11 that is the case, we do know why that's the case.  
 12 I mean --- and you're looking --- he's not looking  
 13 at three credits in Standards if that's what  
 14 you're asking me.  
 15 HEARING OFFICER:  
 16 Well, I haven't asked you yet, but  
 17 let me ask you.  
 18 A. I'm sorry.  
 19 HEARING OFFICER:  
 20 And based on what you just told me,  
 21 volunteered, is it incorrect for me to look at  
 22 this and say that he has not earned 1.5 credits in  
 23 Standards Math?  
 24 A. That's correct.  
 25 HEARING OFFICER:

Page 1273

1 Why would that be an incorrect  
 2 reading of the report card?  
 3 A. When this particular card was calculated ---  
 4 we use a program called PowerSchool, and  
 5 PowerSchool couldn't make accommodations within  
 6 its software program to determine whether or not  
 7 it was a half credit, full credit, because we had  
 8 students that actually tested out of the classes.  
 9 So this report card is not an accurate assessment.  
 10 We have corrected the report card so that  
 11 PowerSchool now can determine how students can  
 12 test out of the program. If they have two  
 13 consecutive proficient scores, they can test out,  
 14 and we have now made the adjustment within that  
 15 computer program that will allow for that, so this  
 16 is not an accurate --- not an accurate report.  
 17 HEARING OFFICER:  
 18 Okay. So are you saying that the  
 19 foresight testing requirement is different in  
 20 terms of whether or not a student is assigned  
 21 credit for graduation?  
 22 A. No. No, I'm not, but you can --- you have to  
 23 have two --- in order to test out, you have to  
 24 have two consecutive proficient scores on the  
 25 foresight. So that very well means --- that very

Page 1274

1 well could mean that you're out at the end of the  
 2 first semester or you're out three quarters of the  
 3 way through the year or you could test out at the  
 4 very end of the year.  
 5 HEARING OFFICER:  
 6 I'll grant you that. My question is,  
 7 if a class like Standards Math is used for  
 8 graduation requirement, that's based on earned  
 9 credit at Susquenita?  
 10 A. Yes. Once you would get beyond a three, that  
 11 would become an elective credit. You would get an  
 12 elective credit as opposed to a math credit.  
 13 HEARING OFFICER:  
 14 Correct. But I'm saying it would be  
 15 counted as what I'll call earned credit.  
 16 A. That's correct.  
 17 HEARING OFFICER:  
 18 And earned credit is the benchmark by  
 19 which you judge whether or not a student has met  
 20 graduation requirements?  
 21 A. Right.  
 22 HEARING OFFICER:  
 23 So my question is, how --- let me ask  
 24 it this way. Can you tell me how many credits of  
 25 math George earned in ninth grade?

Page 1275

1 A. I would guess two.  
 2 HEARING OFFICER:  
 3 Two credits of mathematics?  
 4 A. I'm assuming that that's the case. He  
 5 would've earned an algebra credit and a Standards  
 6 credit.  
 7 HEARING OFFICER:  
 8 And it's your testimony that the one  
 9 --- when it says credits earned 1.5, that that is  
 10 incorrect on the report card?  
 11 A. That is an incorrect statement.  
 12 HEARING OFFICER:  
 13 Are any of the others incorrect?  
 14 A. The others appear to be correct. I'm not  
 15 quite sure which credits --- which courses are the  
 16 half credits, so other than the Standards class,  
 17 it looks correct.  
 18 HEARING OFFICER:  
 19 Okay. And is the document I'm  
 20 looking at at S-17 --- would this be considered  
 21 the, for lack of a better word, official school  
 22 record of George's ninth grade work, and I mean  
 23 here in terms of credits towards graduation or is  
 24 there another document that the School District  
 25 --- strike that.

71 (Pages 1272 to 1275)

Page 1276

1 If you looked at a transcribed  
 2 record of George's work in the high school to this  
 3 point, does that exist on a document called a  
 4 transcript or is this report card an official  
 5 listing of that work?  
 6 A. It would be a transcript record. This would  
 7 be part of the official record based on that date,  
 8 but the transcript record would be the official  
 9 record.  
 10 HEARING OFFICER:  
 11 So it would be the transcript that  
 12 would reveal how many credits were earned towards  
 13 graduation? And unless a student failed, it would  
 14 be greater than zero?  
 15 A. Yes, if they pass one course, it would be  
 16 greater than zero.  
 17 HEARING OFFICER:  
 18 Well, you had said that --- I'm  
 19 talking here about Standards Math now. Let me ---  
 20 maybe I was unclear. In Standards Math, you said,  
 21 it might be a half credit, it might be a full  
 22 credit, that it might vary?  
 23 A. Correct.  
 24 HEARING OFFICER:  
 25 So my question is, if a student did

Page 1277

1 not fail, then it would be greater than zero  
 2 credits?  
 3 A. That's correct.  
 4 HEARING OFFICER:  
 5 Okay. But the exact number might be  
 6 determined?  
 7 A. Correct.  
 8 HEARING OFFICER:  
 9 You heard testimony that George did  
 10 not attend his Standards Math class at the  
 11 beginning of this school year; is that correct?  
 12 A. Correct.  
 13 HEARING OFFICER:  
 14 And that the reason, at least through  
 15 Ms. Lander's testimony, was that he was  
 16 participating in football?  
 17 A. That's correct.  
 18 HEARING OFFICER:  
 19 Are you aware of why George was not  
 20 in a mandatory class for --- to participate in  
 21 football?  
 22 A. Well, we had an agreement with the Parents  
 23 that he would make --- he would make those hours  
 24 up in the summer school program. So he was in a  
 25 mandatory class, but in a proposal mom agreed that

Page 1278

1 he would make up that --- what was amounting to  
 2 the first nine or ten weeks in summer school.  
 3 HEARING OFFICER:  
 4 And that would actually be the  
 5 upcoming summer, summer of 2010?  
 6 A. That's correct.  
 7 HEARING OFFICER:  
 8 We've seen at P --- I think at P-35,  
 9 the letter from Doctor Jones, which was dated  
 10 October 29th, 2008 that you testified that there  
 11 was another letter when we talked about it as ---  
 12 I talked about it as the scheduling letter. Do  
 13 you recall roughly when that letter may have gone  
 14 out? And perhaps it refreshes your memory as to  
 15 when the meetings were held.  
 16 A. I believe that letter went out somewhere  
 17 between the sixth and eighth week of school.  
 18 HEARING OFFICER:  
 19 Okay. So sometime in October?  
 20 A. Yes.  
 21 HEARING OFFICER:  
 22 In thinking about my next question, I  
 23 believe I --- it was answered in your prior  
 24 testimony, so I don't have a line of questioning  
 25 on that. Thank you. I don't have anything

Page 1279

1 further. Do you have any questions based on what  
 2 I asked, Mr. Clark?  
 3 ATTORNEY CLARK:  
 4 Yeah, just one or two.  
 5 REDIRECT EXAMINATION  
 6 BY ATTORNEY CLARK:  
 7 Q. With regard to the discrepancy in the report  
 8 card, S-17, and PowerSchool, when did this come to  
 9 your attention?  
 10 A. I don't think I realized this was wrong until  
 11 someone was testifying about it here at the  
 12 hearing.  
 13 ATTORNEY CLARK:  
 14 No more questions.  
 15 HEARING OFFICER:  
 16 Do you have any questions based on  
 17 what I asked, Ms. Husic?  
 18 ATTORNEY HUSIC:  
 19 I do. First, we would like to  
 20 request either a transcript or a corrected report  
 21 card.  
 22 ATTORNEY CLARK:  
 23 Do you have a copy of that here?  
 24 A. Yes.  
 25 ATTORNEY HUSIC:

72 (Pages 1276 to 1279)

Page 1280

1 Oh, okay.  
 2 ATTORNEY CLARK:  
 3 You already have a copy.  
 4 HEARING OFFICER:  
 5 Well ---.  
 6 ATTORNEY CLARK:  
 7 Oh, all right.  
 8 HEARING OFFICER:  
 9 Yeah, let me just note as a matter of  
 10 record, everyone's now scurrying for files. But  
 11 in terms of this proceeding, it hasn't been  
 12 offered as an exhibit, nor will I compel it to be  
 13 offered as an exhibit, but to the extent that the  
 14 parties want to see it ---. I'm just noting for  
 15 the record that I'm not ordering that this  
 16 transcript be produced.  
 17 ATTORNEY CLARK:  
 18 I would like it in the record just so  
 19 we have an up-to-date exhibit.  
 20 HEARING OFFICER:  
 21 Okay. Okay. So you're offering the  
 22 exhibit?  
 23 ATTORNEY CLARK:  
 24 I don't know whose --- it's fine.  
 25 HEARING OFFICER:

Page 1281

1 You've had a chance now to --- is the  
 2 exhibit that you intend to offer?  
 3 ATTORNEY CLARK:  
 4 Yeah, I would like --- yeah. Yes.  
 5 HEARING OFFICER:  
 6 Okay. So now Ms. Husic has had a  
 7 chance to look at it. It would come in as School  
 8 District 45. Is there any objection to me  
 9 offering up the exhibit?  
 10 (School District's Exhibit 45 marked  
 11 for identification.)  
 12 OFF RECORD DISCUSSION  
 13 ATTORNEY HUSIC:  
 14 What my clients had indicated is that  
 15 they would also like to have a copy of the letter  
 16 that went out notifying the family that George  
 17 would take the Standards classes. In other words,  
 18 they're saying, you know, if the letter isn't  
 19 allowed in, why should the transcripts be allowed  
 20 in?  
 21 HEARING OFFICER:  
 22 Well, I mean, I hear the Parents to  
 23 say that they don't want the exhibit as offered,  
 24 and we had already talked about the fact that we  
 25 are --- I am holding the parties strictly to the

Page 1282

1 five-day disclosure rule in this case. So without  
 2 Parent agreement, under the regulations --- the  
 3 regulations say specifically that a party may  
 4 exclude. It's not within the jurisdiction of the  
 5 hearing officer that if a document or a witness is  
 6 not disclosed within five business days of the  
 7 initial hearing, then the opposing party may  
 8 exclude. And without the Parents stipulating to  
 9 the admission of the exhibit, I'll exclude it, so  
 10 there will be no admission of the transcript.  
 11 ATTORNEY CLARK:  
 12 Okay.  
 13 RECROSS EXAMINATION  
 14 BY ATTORNEY CLARK:  
 15 Q. Doctor Sheats, it appears that with the credit  
 16 that George had in ninth grade plus with the  
 17 credits that he has in tenth that he will have  
 18 earned enough math credits for graduation. Is  
 19 that correct?  
 20 A. Probably.  
 21 Q. So does that mean he will not be taking any  
 22 more math classes, including the Standards?  
 23 A. No. The Standards classes would be offered as  
 24 elective. Because he would not be eligible to  
 25 take some of the electives that others might take,

Page 1283

1 the elective would be a --- the Standard would be  
 2 an elective class. But he would get credit under  
 3 the elective portion as opposed to under the math  
 4 portion.  
 5 Q. All right. So then he would in a sense --- if  
 6 he didn't have enough time for other electives, he  
 7 would then be denied, for instance, an elective  
 8 that he may want to take, because he would be  
 9 required to take Standards Math?  
 10 A. Yeah, that's possible.  
 11 Q. Okay. Oh, just one last point. He would not  
 12 have to take two more math classes anymore for  
 13 eleventh and twelfth grade?  
 14 A. That's correct. He would have his math  
 15 credits. I'm assuming he would have his math  
 16 credits in, because he would have --- at the end  
 17 of this year, I would guess he has at least three  
 18 math credits.  
 19 Q. Okay.  
 20 A. Well, one ---.  
 21 HEARING OFFICER:  
 22 Does that complete your answer, ---  
 23 ATTORNEY HUSIC:  
 24 I think ---.  
 25 HEARING OFFICER:

73 (Pages 1280 to 1283)

<p style="text-align: right;">Page 1284</p> <p>1 --- Doctor Sheats?</p> <p>2 A. Well, I was going to clarify something. I</p> <p>3 didn't know if I was permitted to.</p> <p>4 HEARING OFFICER:</p> <p>5 Well, I'm asking ---</p> <p>6 BY ATTORNEY HUSIC:</p> <p>7 Q. You can.</p> <p>8 HEARING OFFICER:</p> <p>9 --- you whether or not your answer's</p> <p>10 complete?</p> <p>11 A. Oh, no. In essence, he will complete his</p> <p>12 fourth credit in summer school, which technically</p> <p>13 we will give him credit for the '09-'10. So he'll</p> <p>14 ultimately --- I'm assuming he will have four math</p> <p>15 credits at the conclusion, although it'll be past</p> <p>16 July 1. It would be still credited to '09-'10.</p> <p>17 So he would have four math credits.</p> <p>18 ATTORNEY HUSIC:</p> <p>19 Thank you, Doctor Sheats.</p> <p>20 HEARING OFFICER:</p> <p>21 Does that complete your answer?</p> <p>22 A. That's what I was going to say.</p> <p>23 HEARING OFFICER:</p> <p>24 Okay. So I think the ---.</p> <p>25 ATTORNEY HUSIC:</p>	<p style="text-align: right;">Page 1286</p> <p>1 HEARING OFFICER:</p> <p>2 Okay. And Ms. Husic, do you have a</p> <p>3 perspective on the offer of proof and the witness</p> <p>4 that I'm not inclined to hear?</p> <p>5 ATTORNEY HUSIC:</p> <p>6 I don't think a new witness is</p> <p>7 necessary. I think we could get testimony in if</p> <p>8 we had to go back to Doctor Sheats, but my concern</p> <p>9 is that --- you know, that it appears now that</p> <p>10 George may have enough --- when he finishes his</p> <p>11 class this summer, that he will have completed his</p> <p>12 math requirements and will no longer be required</p> <p>13 to take two math classes the remainder of his time</p> <p>14 here in Susquenita, that is for eleventh and</p> <p>15 twelfth grade.</p> <p>16 HEARING OFFICER:</p> <p>17 That was my understanding. Well, I</p> <p>18 don't know the exact understanding. The parties</p> <p>19 were sharing things back and forth, but hearing</p> <p>20 that the witness might be called about</p> <p>21 clarification of credits for graduation, I</p> <p>22 indicated that I was not inclined to hear from the</p> <p>23 witness on that issue, even though credits earned</p> <p>24 came up on my questioning of Doctor Sheats.</p> <p>25 It was with my view to understanding</p>
<p style="text-align: right;">Page 1285</p> <p>1 That's fine. I don't have anything</p> <p>2 further.</p> <p>3 HEARING OFFICER:</p> <p>4 Okay. Thank you, Doctor Sheats. I</p> <p>5 know you've been in attendance at every session,</p> <p>6 and that can't have been easy for a chief school</p> <p>7 administrator, so I appreciate your participation.</p> <p>8 A. Just the one day it was really tough, but ---.</p> <p>9 HEARING OFFICER:</p> <p>10 We're off the record.</p> <p>11 OFF RECORD DISCUSSION</p> <p>12 HEARING OFFICER:</p> <p>13 All right. We're back on the record.</p> <p>14 After an off-the-record discussion, when I had</p> <p>15 indicated to Mr. Clark that my understanding was</p> <p>16 that the District's case was concluded, he</p> <p>17 indicated that there might be the need to call</p> <p>18 another witness on a certain matter. After an</p> <p>19 offer of proof, I had told the parties that I was</p> <p>20 no inclined to hear that witness, but Mr. Clark, I</p> <p>21 told you I'd give you the opportunity to put that</p> <p>22 on the record, if you wished.</p> <p>23 ATTORNEY CLARK:</p> <p>24 It would simply just clarify the</p> <p>25 counting of credits towards math in graduation.</p>	<p style="text-align: right;">Page 1287</p> <p>1 his testimony, especially in light of S-17, which</p> <p>2 I asked him about in terms of academic work</p> <p>3 completed by George and what that reflected in</p> <p>4 terms of the exhibits in this hearing, to the</p> <p>5 extent that credits earned towards graduation is a</p> <p>6 prospective matter rather than a retrospective</p> <p>7 matter, based on this complaint, I told the</p> <p>8 parties I was not inclined to hear from a witness</p> <p>9 about what George needs at this point or going</p> <p>10 forward to graduate.</p> <p>11 And so I didn't see its relevance,</p> <p>12 told Mr. Clark that I would not hear the witness</p> <p>13 if that was why the witness was going to be</p> <p>14 called. And that sets forth my ruling and the</p> <p>15 position of both parties on the record.</p> <p>16 We also discussed closing procedures.</p> <p>17 Within approximately a week, the transcript will</p> <p>18 be provided to me and to Counsel. That's Monday,</p> <p>19 May 3. I told Counsel that I would accept written</p> <p>20 closings by Monday, May 17th. Those can be</p> <p>21 postmarked on the 17th or delivered by e-mail</p> <p>22 attachment by 11:59 p.m. that day, or both, but</p> <p>23 certainly I should have in my possession, or</p> <p>24 shortly thereafter by postmark, written closings.</p> <p>25 With closings due on Monday, May</p>

74 (Pages 1284 to 1287)

Page 1288

1 17th, the record will close on that date. My  
 2 decision is due within 15 calendar days, so my  
 3 decision will be rendered no later than Tuesday,  
 4 June 1st. I had ascertained how the parties  
 5 wanted the decision delivered. Mr. Peiffer, you  
 6 had indicated that attachment of the decision as  
 7 an  
 8 e-mail attachment to your e-mail address was  
 9 acceptable; is that correct?  
 10 MR. PEIFFER:  
 11 That's correct.  
 12 HEARING OFFICER:  
 13 And Ms. Sawyer, you indicated that an  
 14 e-mail attachment of the decision to you at the  
 15 District is acceptable; is that correct?  
 16 MS. SAWYER:  
 17 That is correct.  
 18 HEARING OFFICER:  
 19 And Mr. Clark, you had indicated that  
 20 you would receive your decision by e-mail  
 21 attachment?  
 22 ATTORNEY CLARK:  
 23 That's correct.  
 24 HEARING OFFICER:  
 25 And Ms. Husic, by e-mail attachment

Page 1289

1 as well?  
 2 ATTORNEY HUSIC:  
 3 Yes.  
 4 HEARING OFFICER:  
 5 Okay. I have then set forth the  
 6 timelines for the rendering of my decision and the  
 7 means of delivery. I thank everyone for their  
 8 participation. My decision will be rendered no  
 9 later than June 1st. We are off the record.

\*\*\*\*\*

HEARING CONCLUDED AT 5:40 P.M.
